

Please see the following Shelbyville Central Schools Transportation Policy for 2020-2021

Beginning in the 2020-21 school year, the Corporation will allow for one consistent pick up point and one consistent drop off point. The pickup and drop off points must either be at the student's residence or a child care location within the school's boundary. The Corporation will also transport to Boys' and Girls' Club, Girls' Inc, and AYS (the SCS after school program). The pickup and drop off points may not vary.

Exceptions to this practice may be granted for special family circumstances or to meet the individual needs of a student with a disability. Requests for consideration of any exception to this policy must be made to the Superintendent.
