I have examined the student named on this form and completed the preparticipation physical evaluation. The athlete does not have apparent clinical contraindications to practice and can participate in the sport(s) as outlined on this form. A copy of the physical examination findings are on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the medical eligibility until the problem is resolved and the potential consequences are completely explained to the athlete (and parents or guardians).

Student/Parent Concussion Awareness Form

SCHOOL: _____

DANGERS OF CONCUSSION

Concussions at all levels of sports have received a great deal of attention and a state law has been passed to address this issue. Adolescent athletes are particularly vulnerable to the effects of concussion. Once considered little more than a minor “ding” to the head, it is now understood that a concussion has the potential to result in death, or changes in brain function (either short-term or long-term). A concussion is a brain injury that results in a temporary disruption of normal brain function. A concussion occurs when the brain is violently rocked back and forth or twisted inside the skull as a result of a blow to the head or body. Continued participation in any sport following a concussion can lead to worsening concussion symptoms, as well as increased risk for further injury to the brain, and even death.

Player and parental education in this area is crucial – that is the reason for this document. Refer to it regularly. This form must be signed by a parent or guardian of each student who wishes to participate in GHSA athletics. One copy needs to be returned to the school, and one retained at home.

COMMON SIGNS AND SYMPTOMS OF CONCUSSION

- Headache, dizziness, poor balance, moves clumsily, reduced energy level/tiredness
- Nausea or vomiting
- Blurred vision, sensitivity to light and sounds
- Fogginess of memory, difficulty concentrating, slowed thought processes, confused about surroundings or game assignments
- Unexplained changes in behavior and personality
- Loss of consciousness (NOTE: This does not occur in all concussion episodes.)

BY-LAW 2.68: GHSA CONCUSSION POLICY: In accordance with Georgia law and national playing rules published by the National Federation of State High School Associations, any athlete who exhibits signs, symptoms, or behaviors consistent with a concussion shall be immediately removed from the practice or contest and shall not return to play until an appropriate health care professional has determined that no concussion has occurred. (NOTE: An appropriate health care professional may include licensed physician (MD/DO) or another licensed individual under the supervision of a licensed physician, such as a nurse practitioner, physician assistant, or certified athletic trainer who has received training in concussion evaluation and management.

a) No athlete is allowed to return to a game or a practice on the same day that a concussion (a) has been diagnosed, OR (b) cannot be ruled out.

b) Any athlete diagnosed with a concussion shall be cleared medically by an appropriate health care professional prior to resuming participation in any future practice or contest. The formulation of a gradual return to play protocol shall be a part of the medical clearance.

By signing this concussion form, I give _____ High School permission to transfer this concussion form to the other sports that my child may play. I am aware of the dangers of concussion and this signed concussion form will represent myself and my child during the 2023-2024 school year. This form will be stored with the athletic physical form and other accompanying forms required by the _____ School System.

Student/Parent Sudden Cardiac Arrest Awareness Form

SCHOOL: _____

1: Learn the Early Warning Signs

If you or your child has had one or more of these signs, see your primary care physician:

- Fainting suddenly and without warning, especially during exercise or in response to loud sounds like doorbells, alarm clocks or ringing phones
- Unusual chest pain or shortness of breath during exercise
- Family members who had sudden, unexplained and unexpected death before age 50
- Family members who have been diagnosed with a condition that can cause sudden cardiac death, such as hypertrophic cardiomyopathy (HCM) or Long QT syndrome
- A seizure suddenly and without warning, especially during exercise or in response to loud sounds like doorbells, alarm clocks or ringing phones

2: Learn to Recognize Sudden Cardiac Arrest

If you see someone collapse, assume he has experienced sudden cardiac arrest and respond quickly. This victim will be unresponsive, gasping or not breathing normally, and may have some jerking (Seizure like activity). Send for help and start CPR. You cannot hurt him.

3: Learn Hands-Only CPR

Effective CPR saves lives by circulating blood to the brain and other vital organs until rescue teams arrive. It is one of the most important life skills you can learn – and it's easier than ever.

- Call 911 (or ask bystanders to call 911 and get an AED)
- Push hard and fast in the center of the chest. Kneel at the victim's side, place your hands on the lower half of the breastbone, one on top of the other, elbows straight and locked. Push down 2 inches, then up 2 inches, at a rate of 100 times/minute, to the beat of the song "Stayin' Alive."
- If an Automated External Defibrillator (AED) is available, open it and follow the voice prompts. It will lead you step-by-step through the process, and will never shock a victim that does not need a shock.

By signing this sudden cardiac arrest form, I give _____ High School permission to transfer this sudden cardiac arrest form to the other sports that my child may play. I am aware of the dangers of sudden cardiac arrest and this signed sudden cardiac arrest form will represent myself and my child during the 2023-2024 school year. MacIntyre Park Middle School Athletic Form

We would like to welcome and thank you for your interest in the MacIntyre Park Middle School athletic program. We hope that you are successful in all your athletic and academic endeavors. This form is to be read and signed by the parent(s) or guardian(s) of the student/athlete.

EARLY RELEASE

During the season of your child's sport, there will be out of town games that require your child to leave school early. All work missed will be excused by the school but will be the responsibility of the student to make up. If you have any questions concerning departures and arrivals, please contact the sport's head coach.

MEDICAL EXPENSE POLICY

The middle school athletic program utilizes the sports medicine program at Archbold Sports Medicine for an athlete's injuries. Any injury that occurs during a practice or game will be referred to the high school Athletic Trainer. The Athletic Trainer will then assess the injury and suggest appropriate treatment and/or recommend a visit to a specialized physician. We encourage all athletes and their parents to adhere to this policy to avoid unneeded medical expenses. If an athlete does receive medical attention, the cost of the treatment is the responsibility of the parent(s) and/or their health insurance.

EMERGENCY MEDICAL TREATMENT

In rare cases during a season, a coach may determine that a player's condition is serious enough for the need of immediate medical treatment. If this situation occurs, all efforts will be made to contact the athlete's parent(s)/guardian(s) to explain the situation. If no parent can be contacted this form will serve as a parental consent to seek medical treatment. By signing below I have read and understand the policies and procedures written above.

TRAVEL PERMISSION FORM

I hereby give my permission for my son/daughter _____ to go on planned trips associated with his/her participation and as a member of the _____ team.

I understand that these trips will be under the supervision of an employee of the Thomasville City School System. By execution of this parent permission slip, the undersigned acknowledges that the proposed trips will be so supervised but may occur at indoor/outdoor locations other than the properties owned by the Thomasville City Schools and may expose participants to non-school environments and to the actions of non-school personnel, which are beyond the control of the Thomasville City Schools. The undersigned further acknowledges that these trips may involve motor vehicle travel away from school premises and that the method of transportation is at the discretion of the Thomasville City Schools. Student-competitors may not drive their own vehicles to events.

The student-competitor will be expected to travel with his/her team throughout the entire competitive season as stipulated by the coach/sponsor.

It will be the decision of the head coach/sponsor of that sport/activity or sponsor of the sport/activity whether a student may be released from traveling to or from the school. For a student to be granted permission to travel other than with his/her group or team, the parent/guardian must give each coach a written request prior to that particular activity.

If the coach does agree to release the student to return with parent/guardian, the parent/guardian must personally see the head coach/sponsor at the time the student is to be released.

The undersigned hereby releases, individually and as a parent and guardian of his/her participating child, the Thomasville City Schools, Thomasville City Schools Board of Education and all employees of the same liability for death, personal injury, and/or property damage that maybe sustained by the above referenced student while involved in this travel and related activities.
