The Community Foundation of South Georgia is excited to announce that all of our scholarship applications are now available through our [Online Scholarship Portal](#)! You may begin submitting applications. Step-by-step instructions for student applicants as well as all of the links listed in this email can be found on the [Apply for Scholarshi nowps](#) page of our website. A copy of these instructions is also attached, so feel free to email it to your students.

After clicking on the link to the [Online Scholarship Portal](#), students should start by registering as a new user and creating a profile. New Users should click on the "Create New Account" button to complete the registration process and create their logon credentials. This will enable students to save their work and come back and work on applications over time.

Once they have completed the registration process, they should click the "Start Eligibility Quiz" button to begin taking the Eligibility Quiz. *Students should read and answer these questions **carefully** as their answers will determine which scholarships they are eligible to apply for*. Once a student has taken the Eligibility Quiz, they cannot retake it, so we encourage them to review the scholarships listed on [Our Scholarships](#) page prior to taking the quiz so that they understand the criteria for each scholarship they plan to apply for.

After submitting their Eligibility Quiz answers, students should click "Continue" to return to the Apply page. The Apply page will then list the scholarship opportunities that they are eligible for. Students can then begin submitting applications for each scholarship listed by clicking the "Apply" button next to each opportunity.
