

USD 109 Republic County Schools District Mission Statement

USD 109 shall provide a safe environment for all students in which they have the opportunity to develop and maximize their individual abilities so that upon graduation they are adequately prepared to live as responsible citizens whether they go on to college, vocational training, enter the workforce, or take other paths in local and global communities.

It is the goal of the district to provide enriched curriculum, technology, high quality instruction and extracurricular activities. That is my goal as well!

I am excited to support a district with strong history and pride! I come to Republic County Schools with 25 years of experience as a teacher, instructional coach, principal, and assistant superintendent in Kansas and Colorado schools.

Throughout the 2023-2024 school year we will work together to provide the best learning opportunities for students. In order to do that we will work together as a community and district staff to build upon strengths, look for opportunities, and celebrate achievements.

Republic County Schools
