# What is Google Classroom?

- Google Classroom platform belongs to the e-learning platforms and is used to provide ongoing support for school instruction.
- Classroom is a platform that is easy to use (especially for the students) and offers the most effective and modern collaboration tools known, e.g. Google Docs.
- Below are tips that can help you become familiar with this tool which is widely used by schools.
- Classroom can be used both as an application and also in a computer browser.

## A few additional explanations:

- Parents can ask the teacher for guardian access. Then they will regularly receive notifications of added tasks or materials to their email inbox.
- The following tips will show Google Classroom from the student's perspective, which can help parents assist their kids if they need support in using the platform.
- Let's look at Google Classroom in a computer browser. The application version is very similar.

Sæl öll.  
Þar sem skólinn er ekkert er að fara byrja aftur hef ég ákveðið að sleppa hópvinnuverkefninu sem við áætluðum að gera. Mun ég setja hér inn verkefni sem þið hafið viku til þess að klára. Þeir sem skila ekki verkefnum fá óklárud verkefni. Í þessari viku er viðfangsefnið: náttúra, gróður og loftslag jarðar.
