

# THE DIAPER BANK @ THE CORNERSTONE

Access to diapers is an essential need for a child's well-being, similar to food, shelter, medicine and devoted care. Unlike other basic needs such as food and heat, federal and state "safety-net" programs do not provide provisions to help families with obtaining diapers. This is where we come in! Families with children in diapers are welcome to stop by our center to obtain free diapering supplies so that no child in Prowers, Baca, or Kiowa Counties experiences diaper need.
