

Nominations are now open for the 2022 County Teachers of the Year and 2023 Teacher of the Year. Members of the public are encouraged to nominate educators who demonstrate exemplary skills that inspire students and colleagues, and who help focus attention on the importance of public schools among everyone in the Sanford community.

Selecting a teacher of the year is meant to celebrate all the outstanding professional educators in Sanford schools, not to single out any individual as the best teacher.

Nominations can be made through a nomination form on the [Maine Teacher of the Year Website](#) now through 5:00 pm on Feb. 4, 2022. Nominations will be accepted from students, parents, caregivers, community members, school administrators, colleagues, college faculty members, and associations/organizations (self-nominations, and nominations from family members are not accepted).

Recognize an educator today who has continued to inspire, educate and care for their students during these dynamic and difficult times!
