

**Winter Recess
at Keystone Elementary**

We will go outside for recess if the temperature *feels* like 10 degrees or higher. Remember your warm coat, boots, hat, and gloves.

You need to dress for the weather and wear snow boots in order to play in the snow. Otherwise, you will stay on the road or sidewalk to play. If you have boots, you need to wear them.

You need to wear your snow pants in order to play in the snow.

You can play and build in the snow in open areas on the playground. You can choose to build a snowman or a fort in the snow. Snow stays on the ground unless you are building with it.

You have to be safe while playing in the snow.
SAFE Bobcats leave snow and ice on the
ground. If snow and ice are thrown, others could
be hurt.

You can also use the snow shovels out at recess.
You must use them safely by keeping the shovels
on the ground and not flinging snow in the air. The
shoveled snow **must** stay on the ground.

Bobcats can SAFELY use sleds in the snow. You must sit on your bottom with feet first and watch out for other friends walking or sledding around you.

You can fit 2 people on one sled. CARING Bobcats take turns and share the sleds with everyone.

You can help push your friends on the sleds.
RESPECTFUL Bobcats push nicely and make sure
their partner is sitting down before pushing them.

RESPONSIBLE 2nd and 3rd graders may go down the hill on the side of the school or use sleds on the side of the park where the playground is.

RESPONSIBLE Kinders and 1st graders may use sleds on the side of the park where the playground is.

SAFE Bobcats stay off of the ice on the road and
out of puddles!

SAFE Bobcats eat school lunch, not snow. Snow off the ground is not clean and can make you sick!

I can have fun when playing outside in the snow!
Bobcats are **caring, responsible, respectful and safe** when playing outside during winter recess.
