

Fall of 2021

Level 3.0	Level 3.50	Level 4.0
Partial Full Time for Some Grades and Hybrid/Remote for Others	Full Time Return with Some Restrictions	Full Time Time Return Without Restrictions
<p style="text-align: center;"><u>Program Features</u></p> <p>Level 2.75, plus these changes/reminders:</p> <ul style="list-style-type: none"> * Students in targeted grades are at school full time * Set up outdoor classroom/lunch options and/or outdoor mask breaks <p style="text-align: center;"><u>Safety Features</u></p> <ul style="list-style-type: none"> * Masking, ventilation/air filtration, staff vaccination, BinaxNow testing, symptom screening & staying home when necessary * <i>Removal of distancing requirements per the MCDC</i> * Continue to stagger some arrival and dismissal times along with other proven, common sense precautions * Schools increasingly return to athletics and clubs/activities that appear more “normal” but still based on updated MDOE/MCDC & MPA guidelines * Prepare for remote learning <i>if/when a grade level or school shut down is required</i> based on any positive cases 	<p style="text-align: center;"><u>Program Features</u></p> <p>Level 3.0, plus these changes/reminders:</p> <ul style="list-style-type: none"> * Students return to school full time and in person * Masking is optional in school buildings * Social distancing is not strictly required but not crowding others is recommended <p style="text-align: center;"><u>Safety Features</u></p> <ul style="list-style-type: none"> * Prepare to have mandatory periods of time when everyone masks based on local case counts and/or MCDC requirements during regional increases * Mandatory masking while riding in school vehicles (buses, vans, etc.) as long as the federal requirement is in place, or when students are being transported in a staff vehicle (for which parents must grant permission) * Masking is supported for any individual who chooses this option * Voluntary pooled testing¹ and/or BinaxNow testing to stay * Improved ventilation/air filtration * Host vaccine clinics for staff and students * Symptom screening & staying home when necessary * Staggered arrival and dismissal times along with other low effort, common sense precautions * Return to athletics and clubs/activities based on updated MDOE/MCDC & MPA guidelines * Prepared to return to all or parts of Level 3.0 when necessary 	<p style="text-align: center;"><u>Program Features</u></p> <p>All restrictions lifted and a full return to in-person education exists.</p> <p style="text-align: center;"><u>Safety Features</u></p> <ul style="list-style-type: none"> * Prepare to return to all or parts of Level 3.5 requirements, or any other Level as deemed necessary by current conditions

¹ In Pod Pooled testing, a pod might consist of a classroom and teacher. With pod testing, the students (and teacher) would each provide a nasal swab that goes into a sterile container. You put them all together and they are sent off for testing as a group. If any one of them is positive, you will get a positive result for that pod, then everyone participating in that pod will be retested individually in order to establish which person is positive so they can be quarantined, preventing the spread of infection.
