February 18, 2022

Geneva Community,

I received a number of emails today regarding school not being closed or on a 2-hour delay. Early this morning I was not getting any reports that would lead me to close. I was in communication with our bus garage and plow company as well as monitoring the weather channels and conditions. Please keep in mind these are never easy decisions to make and you always have the ability to make your own decision (to send or not send your child) based on conditions in your area. It has since been reported that some people had ice issues this morning and could not get their door(s) open.

As soon as the transportation department alerted me that some of the buses would be running late, it was posted on our district website and social media to keep you abreast of the situation so you were informed and aware. This note unfortunately had an error and read a "hour hour" and should have read a "half hour." I do apologize for this. In the future, we will also do an all call for buses.

Please know we will always continue to keep the safety of our students and staff in mind when these decisions are being made.

Sincerely,

Dr. Hrina-Treharn
