Stephen K. Sutherland
Director

Notice of Community Meeting

The South Summit School District and Master Planning Committee are seeking public input at a community meeting on **Tuesday, January 31, 2017 from 6:30-7:30 p.m. at South Summit Middle School**. The public is invited and encouraged to attend and offer feedback.

South Summit School District is in the midst of a growth spurt. For the past several months, the district and Board of Education have been working with an architectural firm to create an in-depth analysis of the current state of capital facilities and growth projections. Based on these findings, it's been determined that a master plan is needed in order to achieve the District's vision, "Valuing students and preparing them for success."

A Master Planning Committee has been organized and is charged with researching possible strategies and solutions to best manage the expected growth and present its recommendations to the School Board.

The public is invited to attend a community meeting on **Tuesday, January 31, 2017 from 6:30-7:30 p.m. at South Summit Middle School** and offer feedback.
