Summary & Background

SUMMARY & BACKGROUND

On March 11, 2021, the President signed into law the American Rescue Plan Act of 2021 (ARP). ARP makes available \$122.8 billion nationally in a third round of Elementary and Secondary School Emergency Relief (ESSER) funds. New York State has been allocated nearly \$9 billion under the ARP Act's Elementary and Secondary School Emergency Relief (ESSER) Fund. The ARP Act requires that a minimum of \$8.09 billion (90 percent) be allocated to LEAs, including charter schools and Special Act School Districts that are LEAs. Pursuant to the terms of the ARP Act, LEA allocations have been calculated using the relative shares of grants awarded under Title I, Part A of the ESEA for the most recent federal fiscal year (2020). Each eligible LEA's ARP-ESSER allocation may be found [HERE](#).

Under section 2001(d)(2) of ARP Act of 2021, each State Educational Agency (SEA) must make ARP-ESSER allocations to LEAs in an expedited and timely manner and, to the extent practicable, not later than 60 days after the SEA receives its ARP-ESSER funds. The first portion of ARP-ESSER Funds was awarded to states on March 24, 2021, and 60 days from that day is May 24, 2021. The U.S. Department of Education (USDE) has taken the position that an SEA makes allocations when it authorizes the LEA to begin to obligate funds in accordance with its needs. To enable New York State's LEAs to begin to obligate ARP-ESSER funds by USDE's May 24, 2021 deadline, the application for LEA 90% base ARP-ESSER allocations is being administered by NYSED as a two-part application process:

ARP-ESSER Application – Part 1: The first step was for each LEA to submit signed assurances to NYSED by May 24, 2021. Upon receipt of signed LEA assurances, NYSED provided an email notice to the LEA of substantially approvable application status. Upon receipt of such notice, LEAs were able to begin obligating their allocation of 90% base ARP-ESSER funds.

ARP-ESSER Application – Part 2: The second step will be the submission of a full application and budget by the LEA. NYSED will issue a Grant Award Notice (GAN) to the LEA after the LEA's application is fully reviewed and approved by NYSED. Part 2 will address several of the plan-related assurances an LEA must provide in Part 1 of the application process.

The ARP Act requires LEAs to reserve at least 20% of their 90% ARP-ESSER allocation to address learning loss through the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs, and ensure that such interventions respond to students' academic, social, and emotional needs and address the disproportionate impact of the coronavirus on economically disadvantaged students, children with disabilities, English learners, racial and ethnic minorities, migrant students, students experiencing homelessness, and children and youth in foster care. For your information, the minimum 20% reservation for each LEA may be found [HERE](#).

Project Period

March 13, 2020 to September 30, 2024 to obligate funds. Funds must be fully liquidated by October 31, 2024.

Project Number

The project number stem for the program is:

ESSER: 5880 - 21 - XXXX

This number should be used on the appropriate FS-10 budget form.

Submission Deadline

Completed applications are due by **August 31, 2021** (with extensions by request), and will be reviewed on a rolling basis.

ARP-ESSER Application: Part 2 - ARP ActIntroduction/Instructions - Summary & Background

Page Last Modified: 10/29/2021

Please note that applications must be submitted and fully approved by no later than March 23, 2022. LEAs that have not been issued a Grant Award Notice by that time will be at risk of having their ARP-ESSER allocation returned to the United States Department of Education.

APPLICATION PROCESS FOR LEA ALLOCATIONS OF ARP-ESSER SEA RESERVE FUNDS

The federal ARP statute requires SEAs to reserve:

not less than 5 percent of the total amount of grant funds awarded to the State (\$449.4 million) to carry out activities to address the impact of lost instructional time by supporting the implementation of evidence-based interventions;

not less than 1 percent (\$89.9 million) to carry out the implementation of evidence-based summer enrichment programs; and

not less than 1 percent (\$89.9 million) to carry out the implementation of evidence-based comprehensive afterschool programs.

The 2021-22 enacted state budget directs that these required SEA set-asides be allocated as grants to specified school districts. Each eligible district's allocation of SEA reserve funds may be found [HERE](#). NYSED will inform school districts under separate cover when the application process for school district allocations of ARP-ESSER SEA set-aside funds has been published in the [SED Monitoring and Vendor Reporting System](#). This application is only for LEA 90% base ARP-ESSER allocations. LEAs should not apply for ARP ESSER SEA Reserve funds as part of this application.

Title VIII of Division B of the CARES Act directs the Department to carry out the Education Stabilization Fund, of which the ARP ESSER funds are a part. Section 2001 of the ARP Act provides for the Department to make grants to each SEA from the ARP ESSER funds. An SEA must allocate at least 90 percent of its ARP ESSER grant funds to its LEAs (including charter schools that are LEAs) in the State in the same proportion that the LEAs received under part A of title I of the ESEA in Fiscal Year 2020, as required by section 2001(d)(1) of the ARP Act; and section 2001(e) of the ARP Act prescribes certain mandatory and permissive uses of LEAs' funds. Under 20 U.S.C. 1221e-3, the Secretary has the authority to promulgate rules governing the programs administered by the Department. Under this requirement, each LEA that receives ARP ESSER funds must develop, submit to the SEA on a reasonable timeline determined by the SEA, and make publicly available on the LEA's website, a plan for the LEA's use of ARP ESSER funds. The plan - known as the LEA ARP ESSER Plan - and any revisions to the plan submitted consistent with procedures established by the SEA, must include a description of key activities which are required below.

NYSED will consider each LEA's application for its base 90% ARP-ESSER allocation as meeting the USDE LEA ARP-ESSER use of funds plan requirement, provided the required elements of the plan are fully addressed in the LEA's application, combined with a budget, and then publicly posted after being developed with public input.

An LEA must engage in meaningful consultation with stakeholders and give the public an opportunity to provide input in the development of its plan. Specifically, an LEA must engage in meaningful consultation with students; families; school and district administrators (including special education administrators); and teachers, principals, school leaders, other educators, school staff, and their unions. Additionally, an LEA must engage in meaningful consultation with each of the following, to the extent present in or served by the LEA: Tribes; civil rights organizations (including disability rights organizations); and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and other underserved students.

Each LEA's ARP ESSER plan must be in an understandable and uniform format and, to the extent practicable, written in a language that parents can understand (or, if not practicable, orally translated). Upon request by a parent with a disability, LEA plans must be provided in an alternative format accessible to the parent.

1. In the space provided below, please describe how the LEA meaningfully engaged a diverse and representative set of the applicable stakeholders in developing a plan to use these funds and implementing that plan.

- The District used a variety of stakeholder groups, including teachers, parents, non-instructional employees, and community members to solicit feedback regarding ideas included on the FS-10. Several group meetings were facilitated by District Administrators to share and gather feedback regarding the plan. Teachers and staff within the school were given the opportunity to submit ideas for the grant after reviewing the criteria. The community can view the district plan on the website and submit any comments or questions to the district clerk. The District will provide bi-annual updates to the community on progress and revisions to the plan.

2. In the space provided below, please provide the URL for the website(s) where the LEA ARP-ESSER Plan is/will be publicly posted. For an LEA that does not have a website, the LEA may identify an online platform (e.g. social media group or post, file sharing service, email listserv) that allows plans to be directly communicated to students, parents or legal guardians, school staff, and other stakeholders. As appropriate, the LEA should provide details about how the plan will be made available to people who request it.

3. In the space provided below, please describe the extent to which and how the funds will be used to implement prevention and mitigation strategies that are, to the greatest extent practicable, consistent with the most recent CDC guidance on reopening schools, in order to continuously and safely open and operate schools for in-person learning.

Our required 20% of funds will be dedicated funding of two additional remedial instructors for three years to facilitate instruction of students identified in our Response to Intervention Plan. Additionally, these instructors will be used to enhance and facilitate our afterschool and summer programming. We have also allocated funds to develop and enhance our outdoor learning classrooms that can be utilized ten months of the year.

4. In the space provided below, please describe the data that the LEA will use to identify student needs and monitor student progress as a result of planned interventions and supports.

Along with state-provided assessments, the District used I-Ready data and teacher observations to monitor student progress and identify remedial needs and actions. The District also uses the Panorama survey to monitor and assess social-emotional skills. Based on the data collected, the district's Response to Intervention Team meets regularly to review student data, identify resources, and develop action plans to address needs. The two additional staff members will have specific assignments working with identified students and implement action plans around student needs to close gaps.

5. In the space provided below, please describe how the LEA will use the funds it reserves under section 2001(e)(1) - the required reserve of 20% of funds - to address the academic impact of lost instructional time through the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year.

The learning loss gaps caused by lost instructional time will be addressed by the addition of two additional staff members hired to implement our Response to Intervention plan. *Both our reading (MY VIEW) and math (MY MATH) have online components that can be used for remedial and enrichment activities. Enhancement of our 1:1 compute initiative will allow classroom and remedial staff to develop individualized programs that students can work through during and after school. In the event we need to pivot to remote instruction, each student having their own device will minimize any disruption to the ongoing instruction. Student data collected through these individualized programs will be used in the response to intervention process.* Staff will implement student-specific intervention strategies that promote student growth and close learning loss gaps. Our designated 20% will be used to cover three years of two 1.0 FTE positions. O

6. In the space provided below, please describe how the LEA will spend its remaining ARP ESSER funds consistent with section 2001(e)(2) - the allowable uses of funds - of the ARP Act.

Instructional materials necessary to expand career-ready instructional programming. Hands-on programming enhancing student engagement addressing learning loss due to COVID. Outdoor learning classrooms that promote student engagement through movement and activity. Flexible seating to provide flexibility and maximize existing classroom space to meet CDC guidelines for in-person instruction including summer learning and afterschool programs. Educational technology enhances the learning environment for large learning spaces and necessary remote instruction. Structural improvements to our existing building will expand space for students to assemble to meet current guidelines and support a sustained operation.

7. **In the space provided below, please describe how the LEA will ensure that the interventions it implements, including but not limited to the interventions implemented under section 2001(e)(1) - the required reserve of 20% of funds - to address the academic impact of lost instructional time, will respond to the academic, social, emotional, and mental health needs of all students, and particularly those students disproportionately impacted by the COVID-19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students.**

The District will identify baseline student data, including demographic breakdown, in the fall of 2021. Specific deficiencies will be identified and action plans will be developed for each student. Additional staff hired will be assigned to service all students despite their economic, racial, or other potential discrimination factor. In June of 2022, 2023, and 2024, progress data will be reported demonstrating growth. Specific interventions will correlate to identified data points for academic, social-emotional, and mental health needs.

When developing our plan for (CRRSA and ARP) federal funds, Clymer CSD developed a comprehensive plan that will serve all students within the district. It is the understanding that some resources may have a greater impact on some subgroups more than others, but all groups will be positively impacted.

General Education - Each student is issued a 1:1 device that is personalized to that individual learner. Students take devices home and can complete instructional assignments either online or offline depending on connectivity. Mobile devices also allow the learning to continue despite absence from school. Academic Intervention Specialists will provide targeted remediation to students demonstrating gaps in learning. They will also provide feedback and suggested strategies to the classroom teachers to differentiate learning in the classroom. Flexible seating and additional educational equipment that enhances learning experiences and engages students to be active learners.

Special Education - Each student is issued a 1:1 device that is personalized to that individual learner. Students take devices home and can complete instructional assignments either online or offline depending on connectivity. Mobile devices also allow the learning to continue despite absence from school. Academic Intervention Specialists will provide targeted remediation to students demonstrating gaps in learning. They will also provide feedback and suggested strategies to the classroom teachers to differentiate learning in the classroom. Flexible seating and additional educational equipment that enhances learning experiences and engages students to be college or career-ready.

Economically Disadvantaged - Each student is issued a 1:1 device that is personalized to that individual learner. Students take devices home and can complete instructional assignments either online or offline depending on connectivity. Mobile devices also allow the learning to continue despite absence from school. Academic Intervention Specialists will provide targeted remediation to students demonstrating gaps in learning. They will also provide feedback and suggested strategies to classroom teachers to differentiate learning in the classroom. Flexible seating and additional educational equipment that enhances learning experiences and engages students to be college or career-ready.

Non-white Students - Each student is issued a 1:1 device that is personalized to that individual learner. Students take devices home and can complete instructional assignments either online or offline depending on connectivity. Mobile devices also allow the learning to continue despite absence from school. Academic Intervention Specialists will provide targeted remediation to students demonstrating gaps in learning. They will also provide feedback and suggested strategies to the classroom teacher to differentiate learning in the classroom. ARP-ESSER Return to In-Person Instruction

CLYMER CSD

Section 2001(i)(1) of the ARP Act requires each LEA that receives ARP ESSER funds to develop and make publicly available on the LEA's website, not later than 30 days after receiving ARP ESSER funds, a plan for the safe return to in-person instruction and continuity of services for all schools, including those that have already returned to in-person instruction. Section 2001(i)(2) of the ARP Act further requires that the LEA seek public comment on the plan and take those comments into account in the development of the plan. Finally, section 2001(i)(3) of the ARP Act states that an LEA that developed a plan for the safe return to in-person instruction and continuity of services prior to the date of enactment of the ARP Act will be deemed to have met the requirement to develop a plan under section 2001(i)(1) as long as the plan meets the statutory requirements (i.e., is publicly available on the LEA's website and was developed after the LEA sought and took into account public comment).

The LEA's plan must include how it will maintain the health and safety of students, educators, and other school and LEA staff and a description of any policies it has adopted regarding each of the CDC's safety recommendations, including universal and correct wearing of masks; modifying facilities to allow for physical distancing (e.g., use of cohorts/podding); handwashing and respiratory etiquette; cleaning and maintaining healthy facilities, including improving ventilation; contact tracing in combination with isolation and quarantine in collaboration with the State, local, territorial, or the health departments of Native American Nations; diagnostic and screening testing; efforts to provide vaccinations to school communities; appropriate accommodations for children with disabilities with respect to health and safety policies; and coordination with State and local health officials.

The plan must describe how the LEA will ensure continuity of services, including but not limited to services to address students' academic needs and the social, emotional, mental health and other needs of students and staff, which may include student health and food services.

LEA plans must be in an understandable and uniform format and, to the extent practicable, written in a language that parents can understand (or, if not practicable, orally translated). Upon request by a parent with a disability, LEA plans must be provided in an alternative format accessible to the parent.

NYSED will permit previously developed LEA re-opening plans to satisfy the ARP statutory requirement for the safe return to in-person instruction and continuity of services. LEAs must make any necessary updates to existing plans to conform with the USDE requirements within 30 days of receipt of ARP-ESSER funds and to review (and revise if appropriate) plans every six months thereafter (until September 30, 2023).

- 1. In the space provided below, please provide the URL for the website(s) where the district's most current re-opening/return to in-person learning plan is/will be located. For an LEA that does not have a website, the LEA may identify an online platform (e.g. social media group or post, file sharing service, email listserv) that allows plans to be directly communicated to students, parents or legal guardians, school staff, and other stakeholders. As appropriate, the LEA should provide details about how the plan will be made available to people who request it.**

<https://www.clymercsd.org/page/school-opening-fall-2021-information>

Along with a disclaimer on the web posted plan, an overview with district clerk contact information (sleek@clymercsd.org and 716 355-2001) to request a hard copy will be included in our school newsletter.

ARP-ESSER Application: Part 2 - ARP Act**LEA ARP-ESSER Plan - ARP-ESSER Return to In-Person Instruction**

Page Last Modified: 01/13/2022

2. An LEA must periodically, but no less frequently than every six months (through September 30, 2023), review and, as appropriate, revise its plan. Consistent with section 2001(i)(2) of the ARP Act, which requires an LEA to seek public comment on the development of its plan, an LEA must seek public input and take such input into account in determining whether to revise its plan and, if it determines revisions are necessary, on the revisions it makes to its plan, i.e., the LEA must seek public input on whether to revise its plan and on any revisions to its plan no less frequently than every six months (taking into consideration the timing of significant changes to CDC guidance on reopening schools). If the LEA revises its plan, the revised plan must address each of the aspects of safety currently recommended by the CDC or, if the CDC has updated its safety recommendations at the time the LEA is revising its plan, each of the updated safety recommendations.

In the space provided below, please describe how the LEA will review and regularly update (at least every six months through September 30, 2023) its plan for in-person instruction, including a description of how public comment will be collected.

Prior to our District Business meeting in the months of February and August through 2023, a public forum will be held to review the existing plan and solicit community comment for any changes. Advertising for these meetings will be posted on our website, front message board, and newsletter. Public can submit comments to the District Clerk via email or phone or share their comments at the public forum. All comments will be reviewed with stakeholder groups to evaluate if submissions should be incorporated into the revised document.

Local Educational Agencies (LEAs) which intend to do federally funded work using ARP-ESSER funds must first file FS-10s and other documents as required by the Office of ESSA-Funded Programs. If a project would normally require a building permit if supported by state/local funds, it must also have a building permit if supported by federal funds (or a combination of funding streams). Facilities Planning forms are under development at this time.

1. What is the amount of funds that the LEA plans to use for construction related projects?

714,595

2. In the space provided below, please described the planned construction activities and costs.

The District will be focusing on creating and/or enhancing three outdoor classroom areas and one indoor enhancement to align with CDC guidance. Area 1 is an outdoor fitness area \$162,372. A cement pad \$32,640 and overlaid with rubber floor mats \$10,000 will be the foundation for this outdoor classroom that all students K-12 can use, and a 30' Wx100'L x12'H canopy (\$33,750). Area 2 - Outdoor Ampitheater \$169,862 that our music and drama performance can utilize for school performances. This also includes the addition of 650 person aluminum seating area \$150,000. This space can also be utilized by other school groups as an alternative location during the school day. Area 3 - Installation of a canopy over an existing fenced court facility. Currently, our physical education classes cannot use this space during inclement weather. The addition of this canopy will create a 4 season instructional space. \$33,750 Area 4 - Replacement of existing student locker units with units that improve students' ability to maintain social distancing while assembling (\$122,221).

3. Will the planned construction impact and/or effect any district, site, building, structure, or object that is: Included in the National Register of Historic Places; or Eligible under criteria established by the Secretary of Interior for inclusion in the National Register of Historic Places?

No, the planned construction will not impact and/or effect any district, site, building, structure, or object that is: Included in the National Register of Historic Places; or Eligible under criteria established by the Secretary of Interior for inclusion in the National Register of Historic Places.

ARP-ESSER - Construction-Related ASSURANCES

ARP-ESSER LEA Base 90% Allocation - Budget

PLEASE NOTE - the FS-10 and Budget Narrative are used to provide NYSED with a specific itemization of proposed project expenditures and to provide NYSED and the Office of the State Comptroller with the necessary documentation upon which payments can be based. FS-10s with missing quantities or unit costs, or with terms such "*TBD*" or "*Varies*" cannot be accepted on the FS-10 or Budget Narrative forms.

Please note: LEAs that have been allocated funds from the mandated SEA-Level Reserves in the 2021-22 enacted state budget will apply for those funds via a separate application process. NYSED will inform school districts under separate cover when the application process for school district allocations of ARP-ESSER SEA set-aside funds has been published in the SED Monitoring and Vendor Reporting System. The sections below are only for LEA 90% base ARP-ESSER allocations. LEAs should not apply for ARP ESSER SEA Reserve funds as part of this application.

1. Please upload a completed and signed copy of the FS-10 Budget for the ARP-ESSER LEA Base 90% Funds.

ARP FS10R2-2.pdf

2. Please upload a completed copy of the Budget Narrative for the ARP-ESSER LEA Base 90% Funds.
