RECENTLY...

we asked for your priorities regarding our school facilities.

Here's what you told us...

Thank you El Segundo. We appreciate your input!

EL SEGUNDO UNIFIED SCHOOL DISTRICT

Dear Neighbors,

Thank you for your continued support and interest in our neighborhood El Segundo public schools, and special thanks for your recent feedback regarding our critical facilities needs. With your input, we've revised our detailed Long Range Facilities Master Plan to identify the most important facility needs over the next ten (10) years.

We are honored to report we continue to exceed state and county results with award winning schools, students, and teachers. It is our duty to plan ahead, and stay ahead of the curve as schools move into a new age. School facilities that support excellent teaching and learning in core subjects like science, technology, engineering, and math look different than the schools of the past.

Your opinions have helped us in developing a prudent, community-responsive bond package to address our most important facilities needs across the district to support our excellent teaching and learning. The locally elected Board of Education will make important decisions soon about these recommendations and is considering placing a bond on the November ballot.
