

Third Grade Weekly Skills
Week 25 (2/28– 3/4)

ELA

- DISTRICT BENCHMARK
- STAR TEST

MATH

- STAR TEST
- (Cumulative 16)

Lesson 86

LESSON OBJECTIVE(S) GOALS

1. Use dividend, divisor, and quotient to describe parts of a division number sentence.
2. Identify patterns in the relationship between related multiplication and division number sentences.
3. Write a fact family when given three numbers.
4. Use the inverse relationship of multiplication and division to find missing factors.

Lesson 87

LESSON OBJECTIVE(S) GOALS

1. Learn the relationship between ounces, cups, pints, quarts, half-gallons, and gallons.
2. Identify real-world benchmarks for each unit of capacity.
3. Use containers of each unit of capacity to model the doubles/halves relationship between units of capacity in the U.S. Customary System.
4. Compare and contrast liters and quarts.

Lesson 88

LESSON OBJECTIVE(S) GOALS

1. Classify numbers as even or odd.
2. Understand that even numbers can be divided into two equal groups and odd numbers cannot.
3. Use manipulatives such as tiles or counters to model even and odd numbers.
4. Use pictorial models to model even and odd numbers.

Lesson 89

LESSON OBJECTIVE(S) GOALS

1. Use a multiplication table to find a quotient.
2. Solve problems by finding quotients on a multiplication table.

Lesson 90

LESSON OBJECTIVE(S) GOALS

1. Translate a story problem about equal groups into a number sentence to solve the problem.
2. Use division to solve story problems about equal groups.
3. Use pictorial models to help visualize story problems about equal groups.
