- Orientation
- Staffing Patterns and Schedule
- Staff Development Activities
- Evaluation and Professional Growth Plan

The Boone Community School District understands that many questions exist regarding how the district is responding and what requirements are in place aligned with concerns regarding the COVID-19 Pandemic. The BCSD has a Return to Learn Plan in place and access to specific COVID information on the BCSD website. As information regarding this often changes and sometimes on a daily basis, please refer to the Return to Learn Plan and the BCSD website for the latest updates on the district's guidelines, procedures, and response.

I. WELCOME TO BOONE COMMUNITY PRESCHOOL

WELCOME TO BOONE COMMUNITY PRESCHOOL QUALITY PRESCHOOL PROGRAM STANDARDS (QPPS) 10.1

Boone Community School was awarded the Statewide Voluntary Preschool Program Grant in 2009 as a result of the Preschool Advisory Committee's dedicated work. The program's goal is to provide a high quality preschool program meeting each child's needs, including children with disabilities and those from a diverse background. Boone Community School District in cooperation with its community preschool partners, strives to provide a rich learning environment that encourages children's natural curiosity and supports them to take risks that lead to new skill development. It is a setting where children feel safe, respected, and cared for.

This is an opportunity for all four-year-old children to take part in planned, active learning experiences to build their readiness skills. The preschool program has adopted and meets the Iowa Quality Preschool Program Standards (QPPS) administered by the Iowa Department of Education. Additionally, the Iowa Early Learning Standards are used to guide expectations for the children and instructional practices. Teachers are certified in accordance with early childhood education standards as defined by the State of Iowa Board of Education Examiners.

II. MISSION, PHILOSOPHY, AND GOALS QPPS 10.1

Mission:

The mission of Boone Community Preschool, a partnership of preschool staff across the Boone district, parents, and community, is to prepare students to be lifelong learners who can become successful, productive future citizens. This will be accomplished by recognizing the value of each individual and promoting academic and personal growth in a challenging and caring environment.

Goals for Children:

Children will show competence in social/emotional, physical, cognitive, and language development skills. Children will be enthusiastic and curious learners. Children will be safe and healthy.

Goals for Families:

Families will feel welcome in the classroom and school. Families will work with the school in a meaningful partnership to help their children be better prepared to learn to read and write. Families will advocate for their children.

III. ENROLLMENT

Equal Educational Opportunity

It is the policy of the Boone Community School not to discriminate in its education programs or educational activities on the basis of sexual orientation, race, religion, color, national origin, marital status or disability. Students are educated in programs, which foster knowledge of, and respect and appreciation for, the historical and contemporary contributions of diverse cultural groups, as well as men and women, to society.

Parents who feel their child has been discriminated against are encouraged to report it to the Boone Community School District's central office at 515-433-0750. Inquiries may also be directed in writing to the Director of the region VII Office of Civil Rights, US Department of Education, 310 W. Wisconsin Ave., Ste. 800, Milwaukee, WI, 53203-2292, (414) 291-1111, or the Iowa Department of Education, Grimes State Office Building, Des Moines, IA 50319-0146, (515) 281-5294.

Procedures and levels are outlined in district policy for resolving complaints and are available

upon request from the curriculum director's office.

Eligibility

Children must be four years of age prior to September 15th of the current school year. Parents must provide evidence of their child's date of birth. While a child's birth certificate is the preferred form for documentation, parents may also provide an alternate form of documentation such as medical records from the child's doctor or other healthcare provider.

Pre-registration will begin in the spring of the year prior. Online registration information can be accessed at: www.boone.k12.ia.us. Students will not be enrolled in the preschool program after April 1 unless the child had not previously resided in Boone Community School District prior to April 1.

Compulsory Attendance

By choosing to voluntarily enroll your child in the Statewide Voluntary Preschool Program, your child falls under the attendance requirements policies for the Boone Community School District, which are in accordance with Iowa law, effective July 1, 2013.

The purpose of the amendment to include students voluntarily enrolled in the 4-year-old SWVPP is to allow a school district to remove from its enrollment, a child who is not regularly attending the district's program. It is intended to hold parents accountable for ensuring regular attendance on behalf of their students. Requirements for program length and duration are set locally.

“A child who has reached the age of five by September 15 and who is enrolled in a school district is of compulsory attendance age unless the child's parent or guardian provides written notice to the school district of the intent to remove the child from enrollment in the school district.” (Iowa Code 299.1A(2) (2013)

IV. HOURS

4 year old preschool: Classes meet for a minimum of 10 hours/week in accordance with Iowa Quality Preschool Program guidelines.

Page Elementary:

AM session: 8:05- 11:05 Monday, Tuesday, Thursday, Friday

PM session: 12:05-3:05 Monday, Tuesday, Thursday, Friday

*Optional: breakfast or lunch for a fee.

**Page AM drop off and pick up is on 1st St. between Boone St. and Story St.

**Page PM drop off and pick up is on 1st St. between Boone St. and Story St.

(please have **patience**, the entire building is getting out at 3:05pm)

Sacred Heart:

AM session: 8:00 -11:00 Monday, Tuesday, Thursday, Friday

Trinity Lutheran Preschool:

AM session: 8:00 -11:00 Monday, Tuesday, Thursday, Friday

PM session: 12:00 – 3:00 Monday, Tuesday, Thursday, Friday

**Due to guidelines from the state for State-Wide Voluntary Preschool around supervision and their requirements for a parent to school partnership, preschool parents are required to directly hand off their child to school staff at the preschool door or directly to staff from the car line.

3 year old preschool:

Page Elementary:

PM session: 12:05-3:05 Monday, Tuesday, Thursday, Friday

**Page PM drop off and pick up is on 1st street between Boone St. and Story St.

General Information QPPS 5.1 10.4

When a child begins the preschool program, health records that document the dates of service shall be submitted that show the child is current for routine screening tests and immunizations according to the schedule recommended and published by the American Academy of Pediatrics.

In accordance with state guidelines, a teaching staff-child ratio of at least 1:10 will be maintained at all times to encourage adult-child interactions and promote activity among children. The program administrator will strive to ensure equitable class sizes are maintained among the preschool sites.

The program administrator will maintain a current list of available substitutes for both the teacher

and teacher assistant. Should one of the teaching staff need to temporarily leave the room, the teacher will call the office and the program administrator will arrange for coverage of the classroom to maintain the staff-child ratio. QPPS 10.4

Inclusion

The preschool program provides for all children, including those with disabilities and unique learning needs. Modifications are made in the environment and staffing patterns to include children with special needs. Staff are aware of the identified needs of individual children and are trained to follow through on specific intervention plans.

It is our belief that inclusion in our program will enrich the experience for teachers, students, other children and their families. The preschool facilities meet the Americans with Disabilities Act accessibility requirements. QPPS 9.10

V. A CHILD'S DAY

Who Works In The Preschool QPPS 10.2

Program Administrator - The elementary principal or authorized designee will serve as the program administrator supervising the preschool program. The principal/designee meets all qualifications described in the Iowa Quality Preschool Program Standards.

Teacher - A full-time teacher licensed by the Iowa Board of Educational Examiners and holding an early childhood endorsement is assigned to the preschool classroom. QPPS 6.3

Teacher Assistant - A full-time teacher assistant in the classroom carries out activities under the supervision of the teacher. The teacher assistant will have specialized training in early childhood education. QPPS 6.4

School Nurse - The preschool will have the assistance of the school nurse. She maintains student health records by updating them, and attends to the health needs of the students while they are at school. She is available for parent consultation when necessary. QPPS 10.10

Support Staff - Heartland AEA 11 support staff provide resources and assistance to the teacher and classroom upon request to help all children be successful in the preschool setting. Such staff may include: early childhood consultant, speech and language pathologist, social worker, occupational therapist, physical therapist or others.

Daily Activities

A consistent daily schedule is planned to offer a balance of learning activities. Learning is both formal and informal. Play is planned for every day. Listening is balanced with talking, group activities with solitary time, indoors with outdoors, quiet play with noisy play. Your child will have the opportunity for the following types of activities every day.

Lesson plans for each week are posted in the classroom showing how these activities are incorporated into the daily schedule. Weekly notes will be sent home to families in children's backpacks and electronically if parents desire.

Curriculum QPPS 2.1 - 2.3

Curriculum is a framework for learning opportunities and experiences. It is a process by which learners obtain knowledge and understanding, while developing life skills. It is continually revised and evaluated to make learning fun and exciting.

It is the policy of this district that the curriculum content and instructional materials utilized

reflect the cultural and racial diversity present in the United States and the variety of careers, roles, and lifestyles open to women as well as men in our society.

One of the objectives of the total curriculum and teaching strategies is to reduce stereotyping and to eliminate bias on the basis of sex, race, ethnic origin, religion, and physical disability. The curriculum should foster respect and appreciation for the cultural diversity found in our country and an awareness of the rights, duties, and responsibilities of each individual as a member of a multicultural nonsexist society. QPPS 1.7

The preschool program uses The Creative Curriculum, a research and evidence-based comprehensive curriculum designed for four-year-olds. It addresses all areas of early learning: language and literacy, math, science, physical skills, and social skills. It is based on thematic units familiar and meaningful to young children such as Building, Trees, Clothing, and Beginning of the Year/ End of the Year.

It provides children an opportunity to learn in a variety of ways - through play, problem solving, movement, art, music, drawing and writing, listening, and storytelling. Suggestions for modifications and adaptations are an integral part of the curriculum. QPPS 2.1, 2.2

Child Assessment QPPS 4.1, 4.2

It is the school district's belief that assessment of young children should be purposeful, developmentally appropriate, and take place in the natural setting by familiar adults. The results will be used for planning experiences for the children and to guide instruction. Assessment will never be used to label children or to include or exclude them from a program. A family's culture and a child's experiences outside the school setting are recognized as being an important piece of the child's growth and development. All results will be kept confidential, placed in each child's file, and stored in a secure filing cabinet.

Children are assessed in the following ways: Assessments are aligned with the Iowa Early Learning Standards. It records student progress in all developmental areas at the beginning, middle and end of the year. Observational data provides an ongoing anecdotal record of each child's progress during daily activities.

Early Literacy Individual Growth and Development Indicators (IGDIs) are given at the beginning, middle, and end of the year to monitor the growth of early literacy skills. Child portfolios are organized by the teaching staff and include the assessments, observational data, and child work samples collected on an ongoing basis.

Families are asked to contribute information about their child's progress. Young children often show different skills in different settings. Working together, the teaching staff and families can gather a complete picture of a child's growth and development.

Information from the above is used in the following ways:

To provide information about children's needs, interests, and abilities in order to plan developmentally appropriate experiences for them.

To provide information to parents about their children's developmental milestones.

To indicate possible areas that require additional assessment.

Assessment information will be shared formally with families during Parent Teacher Conferences in the fall and spring. In addition, information from the Creative Curriculum Summary Report will be sent home at the end of the second assessment period. The preschool teacher will communicate weekly regarding children's activities and developmental milestones. Informal conferences are always welcome and can be requested at any time.

If, through observation or information on the Creative Curriculum Summary Report, or IGDIs, the teacher feels that there is a possible issue related to a developmental delay or other special need, she/he will communicate this to the family during a conference, sharing documentation of the concern.

Suggestions for next steps may include the following, with the knowledge and consent of the parents: The teacher works with their grade level team or independently to complete the problem-solving process document. This problem-solving process document involves problem identification, planning and implementing interventions, providing support to the student, and making outside resources available to those individuals requesting assistance. The problem-solving process is available and functional for all students and teachers in the building. A request can be made to Heartland Area Education Agency for support and additional ideas or more formalized testing.

The preschool teacher would assist in arranging for developmental screening and referral for diagnostic assessment when indicated. QPPS 7.4

If a child is determined to need special accommodations, those accommodations are included in the materials, environment, and lesson plans for that child. Examples include sign language and visuals for children with hearing impairments or language delays and behavior plans for children whose behavior does not respond to the typical strategies used by teaching staff in the classroom.

Program Assessment

Boone Community Preschool implements the Iowa Quality Preschool Program Standards. Every year, the program completes a Desk Audit through the Iowa Department of Education. This Desk Audit evaluates the program to ensure that we are meeting the Iowa Quality Preschool Program Standards based on evidence gathered around the preschool program. A report of the Desk Audit is shared with program staff and appropriate advisory and governance boards. The program uses the results of the Desk Audit to plan appropriate professional development for staff and improve the preschool program overall.

Supervision Policy QPPS 9.2

Before children arrive at school, the preschool teacher will complete a daily safety checklist for both indoor and outdoor areas:

All safety plugs and electric outlets covered, heat/AC, water temperature, and toilets, etc. in working order.

All cleaning supplies/poisons are out of children's reach and stored properly.

Classroom and materials are checked for cleanliness/broken parts, etc. including the playground.

Supplies checked - first aid kit, latex gloves, soap, paper towels, etc.

Daily monitoring of environment - spills, sand, etc.

Other serious problems reported to the head custodian.

Upon arrival, each child is observed by the teacher for signs of illness or injury that could affect the child's ability to participate in the daily activities.

No child will be left unsupervised while attending preschool. Staff will supervise primarily by sight. Supervision for short intervals by sound is permissible as long as teachers check every two to three minutes on children who are out-of-sight (e.g. those who can use the toilet independently, who are in the library area, etc.)

Child Guidance and Discipline (QPPS 1.11)

Teaching staff will equitably use positive guidance, redirection, and planning ahead to prevent problems. They will encourage appropriate behavior through the use of consistent clear rules, and involving children in problem solving to foster the child's own ability to become self disciplined. Where the child understands words, discipline will be explained to the child before and at the time of any disciplinary action. Teaching staff will encourage children to respect other people, to be fair, respect, property and learn to be responsible for their actions. Teaching staff will use discipline that is consistent, clear, and understandable to the child. They will help children learn to persist when frustrated, play cooperatively with other children, use language to communicate needs, and learn turn taking.

Challenging Behavior (QPPS 1.2, 1.8, 1.9, 1.10)

The teaching staff in the preschool is highly trained, responsive, respectful, and purposeful. The teachers anticipate and take steps to prevent potential challenging behaviors. They evaluate and

change their responses based on individual needs. When children have challenging behaviors teachers promote prosocial behavior by:

interacting in a respectful manner with all children

modeling turn taking

sharing as well as caring behaviors helping children negotiate their interactions with one another with shared materials

engaging children in the care of their classroom

ensuring that each child has an opportunity to contribute to the group

encouraging children to listen to one another

helping them to provide comfort when others are sad or distressed.

Teaching staff will guide children to develop self-control and orderly conduct in relationship to peers and adults. Children will be taught social, communication, and emotional regulation skills. If a child displays persistent, serious, and challenging behavior, the teaching staff, parents, and AEA support staff will work as a team to develop and implement an individualized plan that supports the child's inclusion and success.

Aggressive physical behavior toward staff or children is unacceptable. Teaching staff will intervene immediately when a child becomes physically aggressive to protect all of the children and encourage more acceptable behavior.

Permissible Methods of Discipline

For acts of aggression and fighting (biting, scratching, hitting) staff will set appropriate expectations for children and guide them in solving problems. This positive guidance will be the usual technique for managing children with challenging behaviors rather than punishing them for having problems they have not yet learned to solve.

In addition, staff may: (1) Separate the children involved; (2) Immediately comfort the individual who was injured; (3) Care for any injury suffered by the victim involved in the incident.; (4) Notify parents or legal guardians of children involved in the incident; (5) Review the adequacy of the teaching staff supervision, appropriateness of program activities, and administrative corrective action if there is a recurrence.

Student Conduct (BCSD Code 503.1)

The board believes inappropriate student conduct causes material and substantial disruption to the school environment, interferes with the rights of others, or presents a threat to the health and safety of students, employees, and visitors on school premises. Appropriate classroom behavior

allows teachers to communicate more effectively with students.

Students will conduct themselves in a manner fitting to their age level and maturity and with respect and consideration for the rights of others while on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district.

Misconduct directed at school staff, even if it occurs away from school, may result in disciplinary action at school. Consequences for the misconduct will be fair and developmentally appropriate in light of the circumstances. Students who fail to abide by this policy and the administrative regulations supporting it may be disciplined for conduct which disrupts or interferes with the education program; conduct which disrupts the orderly and efficient operation of the school district or school activity; conduct which disrupts the rights of other students to participate in or obtain their education; conduct that is violent or destructive; or conduct which interrupts the maintenance of a disciplined atmosphere.

Disciplinary measures include, but are not limited to, removal from the classroom, detention, suspension, probation, and expulsion.

A student who commits an assault against an employee on school district property or on property within the jurisdiction of the school district; while on school-owned or school- operated chartered vehicles; while attending or engaged in school district activities will be suspended by the principal. Notice of the suspension is sent to the board president. The board will review the suspension to determine whether to impose further sanctions against the student which may include expulsion.

Assault for purposes of this section of this policy is defined as: an act which is intended to cause pain or injury to, or which is intended to result in physical contact which will be insulting or offensive to another, coupled with the apparent ability to execute the act; or any act which is intended to place another in fear of immediate physical contact which will be painful, injurious, insulting or offensive, coupled with the apparent ability to execute the act; or intentionally points any firearm toward another or displays in a threatening manner any dangerous weapon toward another.

The act is not an assault when the person doing any of the above and the other person are voluntary participants in a sport, social or other activity, not in itself criminal, when the act is a reasonably foreseeable incident of such sport or activity, and does not create an unreasonable risk of serious injury or breach of the peace.

Removal from the classroom means a student is sent to the building principal's office. It is within the discretion of the person in charge of the classroom to remove the student.

Detention means the student's presence is required during non-school hours for disciplinary

purposes. The student can be required to appear prior to the beginning of the school day, after school has been dismissed for the day, or on a non-school day. Whether a student will serve detention, and the length of the detention, is within the discretion of the licensed employee disciplining the student or the building principal.

Suspension means; either an in-school suspension, an out- of-school suspension, a restriction from activities or loss of eligibility. An in-school suspension means the student will attend school but will be temporarily isolated from one or more classes while under supervision. An in-school suspension will not exceed ten consecutive school days. An out-of-school suspension means the student is removed from the school environment, which includes school classes and activities. An out-of- school suspension will not exceed ten days.

A restriction from school activities means a student will attend school and classes and practice but will not participate in school activities.

Probation means a student is given a conditional suspension of a penalty for a definite period of time in addition to being reprimanded. The conditional suspension will mean the student must meet the conditions and terms for the suspension of the penalty. Failure of the student to meet these conditions and terms will result in immediate reinstatement of the penalty.

Expulsion means an action by the board to remove a student from the school environment, which includes, but is not limited to, classes and activities, for a period of time set by the board.

Following the suspension of a special education student, an informal evaluation of the student's placement will take place. The Individual Education Program (IEP) is evaluated to determine whether it needs to be changed or modified in response to the behavior that led to the suspension. If a special education student's suspension, either in or out of school, equals ten days on a cumulative basis, a staffing team will meet to determine whether the IEP is appropriate. It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

Legal Reference: Cross Reference: No Child Left Behind, Title IV, Sec. 4115, P.L. 107-110 (2002). Goss v. Lopez, 419 U.S. 565 (1975). Brands v. Sheldon Community School District, 671 F. Supp. 627 (N.D. Iowa 1987). Sims v. Colfax Comm. School Dist., 307 F. Supp. 485 (Iowa 1970). Bunger v. Iowa High School Athletic Assn., 197 N.W.2d 555 (Iowa 1972). Board of Directors of Ind. School Dist. of Waterloo v. Green, 259 Iowa 1260, 147 N.W.2d 854 (1967). Iowa Code §§ 279.8; 282.4, .5; 708.1 (2005). 501 Student Attendance 502 Student Rights and Responsibilities 504 Student Activities 603.3 Special Education 903.5 Distribution of Materials ADOPTED: August 12, 1980 AMENDED: December 13, 1988 AMENDED: October 12, 1993 AMENDED: February 13, 1996 REVISED: February 14, 2006 REVISED: December 11, 2007 Expulsion (BCSD Code 503.2)

Only the board may remove a student from the school environment. The removal of a student from the school environment, which includes, but is not limited to, classes and activities, is an expulsion from school. Students may be expelled for violations of board policy, school rules or

the law. It is within the discretion of the board to discipline a student by using an expulsion for a single offense or for a series of offenses depending on the nature of the offense and the circumstances surrounding the offense.

It is within the discretion of the superintendent to recommend to the board the expulsion of a student for disciplinary purposes. Only the board may take action to expel a student and to readmit the student. The principal will keep records of expulsions in addition to the board's records. When a student is recommended for expulsion by the board, the student is provided with: Notice of the reasons for the proposed expulsion; The names of the witnesses and an oral or written report on the facts to which each witness testifies unless the witnesses are students whose names may be released at the discretion of the superintendent; An opportunity to present a defense against the charges and provide either oral testimony or written affidavits of witnesses on the student's behalf; The right to be represented by counsel; and the results and finding of the board in writing open to the student's inspection.

In addition to these procedures, a special education student must be provided with additional procedures. A determination should be made of whether the student is actually guilty of the misconduct. A staffing team should determine whether the student's behavior is caused by the student's disability and whether the conduct is the result of inappropriate placement.

Discussions and conclusions of this meeting should be recorded. If the special education student's conduct is not caused by the disability, the student may be expelled or suspended for a long-term period following written notice to the parent and pursuant to the school district's expulsion hearing procedures. If the misconduct is caused by the disability and a change in placement is recommended, the change must be made pursuant to the placement procedures used by the school district.

Corporal Punishment (BCSD Code 505.5)

Corporal punishment is defined as the intentional physical punishment of a student and is prohibited. It includes the use of unreasonable or unnecessary physical force or physical contact made with the intent to harm or cause pain. No employee is prohibited from: Using reasonable and necessary force, not designed or intended to cause pain, in order to accomplish any of the following:

- To quell a disturbance or prevent an act that threatens physical harm to any person. --To

obtain possession of a weapon or other dangerous object within a pupil's control.

- For the purposes of self-defense or defense of others as provided for in Iowa Code section 704.3.
- For the protection of property as provided for in Iowa Code section 704.4 or 704.5.
- To remove a disruptive pupil from class or any area of school premises or from school-sponsored activities off school premises.
- To protect a student from the self-infliction of harm.
- To protect the safety of others. Using incidental, minor, or reasonable physical contact to maintain order and control. Reasonable physical force should be commensurate with the circumstances of the situation.

The following factors should be considered in using reasonable physical force for the reasons stated in this policy:

1. The size and physical, mental, and psychological condition of the student;
2. The nature of the student's behavior or misconduct provoking the use of physical force;
3. The instrumentality used in applying the physical force;
4. The extent and nature of resulting injury to the student, if any;
5. The motivation of the school employee using physical force. Upon request, the student's parents are given an explanation of the reasons for physical force. It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

Prohibited Practices

The program does not, and will not, employ any of the following disciplinary procedures:

harsh or abusive tone of voice with the children nor make threats or derogatory remarks. physical punishment, including spanking, hitting, shaking, or grabbing. any punishment that would humiliate, frighten, or subject a child to neglect. withhold nor threaten to withhold food as a form of discipline.

Water Activities QPPS 5.9, 9.15

We have a water table in the classroom for children to stand and play with their hands in the water. During water play children are involved in active experiences with science and math concepts.

Children with sores on their hands are not allowed to participate with others in the water table to ensure that no infectious diseases are spread. Children are not allowed to drink the water during water play activities. When the activity period is complete, the water table is drained and refilled with fresh water before a new group of children comes to participate.

Outdoor water play is limited to tubs and buckets or containers as well as the water table. We do not participate in swimming pool activities. Staff supervise all children by sight and sound in all areas with access to water in tubs, buckets, and water tables.

Snacks/Foods and Nutrition (QPPS 5.12- 5.21)

Attitudes about food develop early in life. The food children eat affects their well-being, their physical growth, their ability to learn, and their overall behavior. We have an opportunity to help children learn about foods, to enjoy a variety of foods from their own culture and others, and to help them begin to appreciate that their bodies need to be strong, flexible, and healthy.

Eating moderately, eating a variety of foods, and eating in a relaxed atmosphere are healthy habits for young children to form. A snack is served during each session at a regular scheduled time.

Two food groups will be represented at each snack time as outlined in USDA guidelines. Students in preschool at all Boone Community Schools preschools (both district and community partners) will have snacks provided. The preschool serves a wide variety of nutritional snacks, and encourages children to expand their tastes by at least trying a portion of the food offered.

All food is prepared, served, and stored in accordance with the U.S. Department of Agriculture Child and Adult Care Food Program (CACFP) guidelines. Clean, sanitary drinking water is made available to children throughout the day. Staff discards any foods with expired dates. Foods that are hotter than 110 degrees Fahrenheit are kept out of children's reach. Foods requiring refrigeration will be kept cold until served.

For each child with special health care needs, food allergies, or special nutrition needs, the child's health care provider should provide the program in an individualized care plan prepared in consultation with family members and specialists involved in the child's care. Children with food allergies shall be protected from contact with the problem food. With family consent, the program posts information about the child's allergies in the food preparation area and in areas of the facility the child uses to serve as a visual reminder to all adults who interact with the child during the day.

Program staff will keep a daily record documenting the type and quantity of food a child consumes when any child with a disability has special feeding needs and provide parents with that information. High-risk foods, often involved in choking incidents, will not be served. For children younger than four years, these include hotdogs, whole or sliced into rounds; whole grapes; nuts; popcorn; raw peas and hard pretzels; spoonfuls of peanut butter; or chunks of raw carrots or meat larger than can be swallowed whole.

The preschool program does not use foods or beverages as rewards for academic performance or good behavior, and will not withhold food or beverages as a punishment, nor will teaching staff ever threaten to withhold food as a form of discipline.

Outside Play and Learning QPPS 5.5, 5.6 9.5-9.7

We have daily opportunities for outdoor play as the weather permits and provided the weather air quality and environmental safety conditions do not pose a threat. This allows children the opportunity to develop their large muscle skills, get exercise, and be active. Sometimes we spend longer getting bundled up than we spend outside. We use the Child Care Weather Watch guidelines produced by Healthy Child Care Iowa to determine if the Wind Chill Factor or Heat Index is safe for outdoor play.

In cases when we cannot go outside (due to weather conditions) children are given the opportunity to use indoor equipment for similar activities inside and are supervised at the same level as outdoor equipment. For example, tumbling mats may be offered for upper body activities or rolling across the mat. In order to make sure that your child can play comfortably outside it is important to dress them according to the weather. When it is cold outside they need a warm coat, mittens or gloves and a hat (labeled with your child's name). For the warmer days dressing your child lightly is just as important. For those in-between days dressing your child in layers is a practical idea. There are areas on the playground for children to be in the shade and still be active. We encourage you to bring a hat or other clothing for your child to wear as another protection from the sun. Please apply Sunscreen or sunblock with UVB and UVA protection of SPF 15 or higher before you send your child to school. Please be sure to apply an insect repellent containing DEET no more than once a day to protect your child from insect bites when the public health authorities recommend its use.

Program staff will complete the National Program for Playground Safety's Suggested General Maintenance Checklist on a weekly basis. Clothing Your child will be learning through creative, active play that can sometimes be messy. Your child should wear comfortable, washable clothing as well as rubber-soled and closed-toe shoes to school.

While we encourage the use of paint smocks or shirts during art projects, we can't guarantee that spills or stains will not occur.

Clothing should be free of words, graphics, or pictures that are profane, immoral, illegal, or

disruptive in nature. All families are asked to provide an extra set of clothing for their child in case of an “accident” or messy play.

Please clearly label the clothing with your child’s name to reduce the possibility of mistakes.

Toilet Learning (QPPS 5.7)

Toilet learning is an important time in a child’s development. For children who are unable to use the toilet consistently, the following procedures are in place:

1. Diapering will only be done in the designated diaper area, i.e., the bathroom adjacent to the classroom. Food handling will not be permitted in this diapering area.
2. Staff will follow all diapering guidelines set forth in the Iowa Quality Preschool Programs Standards: Standard 5, Criteria 7:

Cloth diapers and clothing that are soiled by urine or feces are immediately placed in a plastic bag (without rinsing or avoidable handling) and sent home that day for laundering. Staff check children for signs that diapers or pull-ups are wet or contain feces at least every 2 hours. Diapers are changed when wet or soiled. Staff change children’s diapers or soiled underwear in the designated changing areas and not elsewhere in the facility.

At all times, caregivers have a hand on the child if being changed on an elevated surface.

Surfaces used for changing and on which changing materials are placed are not used for other purposes, including temporary placement of other objects, and especially not for any object involved with food or feeding.

Containers that hold soiled diapers and diapering materials have a lid that opens and closes tightly using a hands-free device (e.g., a step can). Containers are kept closed and are inaccessible to children. The container will be clearly labeled to show its intended use.

Diapering and Gloving posters will be posted in the changing area showing procedures through the use of visuals and words. These procedures are used by the program administrator to evaluate teaching staff that change diapers.

3. Potty chairs will not be used due to the risk of spreading infectious diarrhea.
4. All families are asked to provide an extra set of clothing for their child in case of an “accident” or messy play. Please clearly label the clothing with your child’s name to reduce the possibility of mistakes.

Objects From Home

Because the preschool program provides ample toys and learning materials for your child, we ask that you limit toys brought from home. If your child brings an “attachment” item from home, we

ask that it is small enough to fit inside his/her backpack or cubby. Please do not allow children to bring gum, candy, money, or toy guns to school. The program cannot be responsible for lost or broken toys brought from home.

Weapon Policy

No student shall carry, have in his or her possession, store, keep, leave, place or put into the possession of another student any real weapon or a look-alike weapon on any school premises, in any school vehicle or any vehicle used by the school or for school purposes, in any school building or other buildings or premises used for school functions, whether or not any person is endangered by such actions. "Look-alike weapon" means any item that resembles or appears to be a weapon. (School district policies and guidelines will be initiated when deemed appropriate by the program administrator or designee.)

Classroom Animals and Pets (QPPS 5.26)

If you, as a parent or legal guardian, want to bring your family pet to share with your child's classroom you are welcome. However, all animals must remain outside the school buildings during the visit. The preschool teacher ensures that the animal does not create an unsafe or unsanitary condition. The animal would appear to be in good health and have documentation from a veterinarian or an animal shelter to show that the animal is fully immunized (if the animal should be so protected) and suitable for contact with children. The teacher would ensure staff and children practice good hygiene and hand washing when coming into contact with the animal and after coming into contact with the animal.

Teaching staff supervise all interactions between children and animals and instruct children on safe behavior when in close proximity to animals. Any children allergic to the pet will not be exposed to the animal. Reptiles are not allowed because of the risk for salmonella. The classroom teacher is responsible for checking requirements have been met.

Birthdays QPPS 5.13

Birthdays are an important and significant event in the life of a child. They afford the opportunity for children to be given special recognition. Accordingly, students who wish to bring treats for the class on their birthday may do so. Food that comes from home for sharing among the children must be either whole fruits or commercially prepared packaged foods in factory-sealed containers with the ingredient list present. The teacher will provide families a list of foods meeting the USDA's Child and Adult Care Food Program guidelines. **Treats will be sent home if they are not store bought or do not have the ingredients listed.**

Those who have summer birthdays are welcome to choose a school day to celebrate with their

class. Invitations to parties outside of school that do not include the entire class will not be distributed at school.

V. COMMUNICATION WITH FAMILIES (QPPS 1.1, 7.5)

The program will promote communication between families and staff by using in-person conversations, phone conversations, written communication, including; notes home, email, text messaging, and social media. Families are encouraged to send notes, call, or have face-to-face conversations about important information so all the staff who work with the child can share the parent's communication.

Three times per year (October, January, and April), teachers at each program location will provide families with a Preschool Family Feedback Form. Teachers will formally discuss the responses provided by the families in the preschool program and the teachers will use the information provided by families to make necessary changes and additions to the program that will benefit the students in each classroom across the program.

Parents are encouraged to maintain regular, on-going, two-way communication with the teaching staff in a manner that best meets their needs - email, in person, notes, phone calls, SeeSaw, the Remind app, social media, etc.

Open Door Policy

Parents and legal guardians are always welcome to visit the preschool classroom. As a safety feature, all parents and visitors will check in at the elementary school office. Visitors are asked to leave babies and toddlers at home as young children may disrupt class sessions.

People volunteering in the preschool classroom will need to fill out the district volunteer form and be on the approved volunteer list.

Photo identification will be required for any unknown visitor to the classroom.

Arrival and Departure of Children (QPPS 10.11)

All motor vehicle transportation provided by parents, legal guardians or others designated by parents or legal guardians will include the use of age and size-appropriate seat restraints.

When bringing your child to school, we ask that you park your car in the parking lot or designated area and turn off the engine before entering the building. Please hold your child's hand as you enter the building to decrease the possibility of an accident.

Parents or legal guardians must accompany children to the classroom at the beginning of the day. No child will be permitted to leave the building without an adult. Other than parents or legal guardian, only persons with prior written authorization (Parent Consent Form) will be allowed to

pick up a child from the school.

Anyone who is unfamiliar to teaching staff, including authorized individuals, will be asked to present photo identification before a child is released to them.

In the interest of students' safety, parents/guardians/authorized individuals are requested to report directly to the office when picking up their child rather than going to the child's classroom. Likewise, when a student returns to the building following an absence during the school day, the adult should stop in the office and sign the child in.

When picking up your child from the school, please come early enough to enjoy watching what your child is doing during that time of the day, but remain off the playground area. If your child rides the school bus to school, teaching staff will go to each bus as it arrives to greet and assist the student off the bus. At dismissal, teaching staff will accompany each student to the bus and assist the student onto the bus.

Teaching staff will take attendance as students arrive at school each day. Throughout the day each time children transition from one location to another, i.e. classroom to outdoor, the teacher will be responsible for counting the number of children whenever leaving one area and when arriving at another to confirm the safe whereabouts of every child at all times.

Transportation

Parents are responsible for transporting children to and from school as there will be no transportation provided by the school district. Parents may choose to contact Hirta Transportation to arrange for transportation services. Any fees for this service are the responsibility of the parent.

For children who have special needs for transportation, the facility will use a plan based on a functional assessment of the child's needs related to transportation that is filled out by the child's physician. This plan will address special equipment, staffing and care in the vehicle during transport. Any accommodations indicated in the child's Individualized Educational Program will be implemented as described.

Field Trips

An important learning opportunity can take place in the form of a field trip that is relevant and reinforces what has been taught in the classroom. The Boone school buses or Boone County Transportation are the designated carriers used for these field trips. Parents will be informed of each field trip through a newsletter and signs posted in the classroom well in advance. A parent or legal guardian must sign an informed consent form for trips for each child before each trip. Adult family members are asked to volunteer to go on these trips to provide increased supervision and adult/child ratios.

A notice posting the dates, time of departure, time of return, and the destination location will be posted prominently at least 48 hours before the field trip. Each child will be assigned to an adult for every part of the trip. Before every trip, the teaching staff will instruct children and all adults using the bus about the 10-foot danger zone around the vehicle where the driver cannot see. During the field trip, all children will wear identifying information that, for children, gives the program name and phone number.

A first aid kit, emergency contact information, and emergency transport authorization information for the children in the group will be taken on all trips.

Children will be counted every 15 minutes while on a field trip. Children may only use a public restroom if they are accompanied by a staff member. Children will never be left alone in a vehicle or unsupervised by an adult.

Attendance

Students who are enrolled for classes in the Boone Preschool program are expected to be in school for the full session and are expected to be punctual in their arrival and departure. Students are not expected to be absent any more than is necessary for health reasons or appointments. Irregular attendance interferes with the progress of your child and others as teachers find themselves taking class time to repeat information and make adjustments for those students who have been absent.

Please call the elementary office with the reason for an absence no later than 8:00 A.M. if your child will be absent for the morning session and by 12:00 P.M. for the afternoon session. For safety's sake, if a student is absent without notification, the school secretary/teaching staff will attempt to contact the family to verify the child's absence from school.

Please note that due to limited space in the preschool program, excessive absence from the program may result in a student's removal from the classroom roster to allow other students to be enrolled.

Ethics and Confidentiality

Staff follow an important code of ethics to guide their involvement with children and families. It is essential to protect the confidentiality of all information concerning children and their families. Maintaining a professional attitude includes being responsive to the needs of children and their families while balancing the need for confidentiality. Children are people who deserve respect. One way we demonstrate this respect is to refrain from talking about the children in their presence unless the child is part of the conversation and to refrain from labeling a child negatively or positively. No information about any particular child shall be shared with another child's parent. We continually strive to model such qualities as patience, tolerance, cooperation,

acceptance, understanding of others, and enthusiasm for children as well as for other adults.

All teaching staff will receive training on ethics and confidentiality on the National Association for the Education of Young Children's Code of Ethical Conduct as part of their orientation. Each staff person will sign a Statement of Commitment to document their willingness to hold close the values and moral obligations of the field of early childhood education.

Children's Records

Student records containing personally identifiable information, except for directory information, are confidential. Only persons, including employees, who have a legitimate educational interest are allowed to access a student's records without the parent's permission. Parents may access, request amendments to, and copy their child's records during regular office hours. Parents may also file a complaint with the United States Department of Education if they feel their rights regarding their child's records have been violated.

Parents may also contact Mrs. Autumn Seiler, Preschool Program Administrator, for assistance.

Parents or guardians will be asked to sign a release of information form should they or the school request information be shared with another agency, stating to whom the information is to be released, the reason or purpose for the release of information, when it expires, and ways the parents can withdraw permission if they choose to do so.

Preschool Advisory Committee QPPS 7.2

The Boone Community Preschool has a preschool advisory committee composed of parents, school staff, and other community members interested in the preschool program. This group meets annually to provide feedback on services that meet children and family needs. They also serve as a sounding board for new ideas and services. Please let your child's preschool teacher know if you are interested in being part of the Preschool Advisory Committee.

Grievance Policy QPPS 7.6

Open and honest communication between families and the preschool program is an essential component of a high quality early childhood program. We want you to be confident that your child is being well cared for and is having a quality experience. If there is ever a time you have a concern regarding your child, we want to encourage you to address your concern to your child's teacher. If additional help is needed, either party may ask for the assistance from the Boone Preschool Program Administrator.

As part of our program assessment, in the spring of each year, we also provide you with a family questionnaire to evaluate our program. This information helps us to assess how the program is

meeting the needs of families and children, as well as to identify strengths and weaknesses.

Family Involvement

Boone School encourages families to be very involved in their child's education by observing their children during the day when possible and meeting with staff. Family members are welcome to visit at any time during class sessions. Teachers and administrators use a variety of formal and informal ways to become acquainted with and learn from families about their family structure and their preferred means of child-rearing practices and communication; and information about their socioeconomic, linguistic, racial, religious, and cultural backgrounds as they wish to share.

Families are surveyed in enrollment paperwork and through other questionnaires during the year regarding their family, beliefs, and preferences. Home visits are conducted at the beginning of the school year. Program staff communicate with families on at least a weekly basis regarding children's activities and developmental milestones, shared care-giving issues, and other information that affects the well-being of their children.

Family teacher conferences are held in both the fall and spring semesters, as well as when either party requests. At least one Family Night is held during the year.

Boone Preschool values the time spent talking and interacting with families and developing strong, reciprocal relationships. As the teacher learns from the families' expertise regarding their child's interests, approaches to learning, and developmental needs, goals for your child's growth and development can be incorporated into ongoing classroom planning.

Families are encouraged to share any concerns, preferences or questions with the preschool teacher or administration at any time. Although in-person daily contact cannot be replaced, preschool staff also rely on notes home, emails, phone calls, newsletters, and bulletin boards as alternatives to establish and maintain open, two- way communication.

Boone Preschool invites you to become involved in one or all of the following ways, and welcomes other ideas as well. Support your child's daily transition to school by sharing information about your child's interests and abilities. Keeping the teacher informed of changes and events that might affect your child allows the teacher to be more responsive to your child's needs. Attend family meetings. Return all forms, questionnaires and so on promptly. Attend Family/Teacher conferences in the Fall and Spring semesters. Take time to read the family bulletin board. Check your child's backpack each day. Participate in field trip activities. Share some of your talents in your child's class through activities such as: reading or storytelling, cooking, art, music, sewing, crafts, hobbies, your profession, or artifacts from trips you have taken. Share any of your families' cultural traditions, celebrations, or customs. Help prepare snack and enjoy it with your child. Read all the material sent home with your child.

Come to play. Help with special events. Helping takes many different forms such as preparation

of materials at home, making telephone calls, preparing or posting flyers, recruiting other volunteers, collecting donations or prizes, run errands, photography, setup before the event, or clean afterwards. Serve on the Preschool Advisory Committee. Add to the monthly newsletter or organize it.

It is the policy of the Boone Community Preschool Program not to discriminate on the basis of race, national origin, creed, age, marital status, or physical disability in its education programs, activities, or employment policies as required by Title VI or VIII of the 1964 Civil Rights Act, Title IX of the 1972 Education Amendments, and the Federal Rehabilitation Act of 1973.

The preschool program will, to the extent possible, provide full opportunities for meaningful participation of the families with children with limited English proficiency, families with children with disabilities, including providing information and school reports in an understandable and uniform format and, including alternative formats on request, and, to the extent possible, in a language families understand.

The preschool program believes that families should be supported in making decisions about services that their children may need. The teaching staff will provide information to families about available community resources and assist as requested in helping the family make connections.

Home Visits

Home visits are required and made prior to the start of school. This is an opportunity for the preschool teacher to get to know you, your child, and your family and for you to begin to create a partnership between home and school in order to best meet your child's needs. This is a great time for you to share what makes your family unique, how you prefer to communicate with the teacher, and share your knowledge about your child's interests, approaches to learning, and developmental needs. You can help the teacher understand what your goals are for your child and whether you have any concerns you'd like addressed. Parents are encouraged to share these preferences, concerns, and questions at any time with either the classroom teacher or administrator.

Family Teacher Conferences

The preschool program will have formal family teacher conferences scheduled both fall and spring. The teacher will send home a sheet before the conference asking you to consider what new skills you see your child developing at home or in the community, to think about what you'd like more information about the classroom, and whether you have new or different goals for your child. During the conference the teacher will share results of classroom assessments and samples of your child's work. Together you can make a plan to continue to encourage your child's growth and development.

Family nights is an opportunity for you and your family to come to school to participate in fun as well as educational activities. Based on results from a family survey, the teaching staff will select a topic for the evening. With help from family volunteers, the night will be planned to meet the needs of the children and families in the classroom.

Transitions QPPS 7.9, 7.10

Home-school connections are crucial to the transition to kindergarten or any other program, such as special education. The child's family provides the consistency and continuity necessary for a young child to be successful. Making a change from one program to another can sometimes be difficult for a young child whether the transition is within the same building or in another location. Teaching staff will partner with the family to make the transition as smooth as possible by connecting family members with the next program's staff. Preschool staff will provide information about enrollment policies and procedures, program options, and arrange for a classroom visit whenever possible.

VII. HEALTH AND SAFETY

Boone Community Preschool is committed to promoting wellness and to safeguard the health and safety of children and adults who participate in our program. In order to provide a safe and secure environment for every child and adult, we follow guidelines required by the Quality Preschool Program Standards, regulatory agencies and pediatric authorities in the field.

Health and Immunization Certificates QPPS 5.1

When a child begins the program, health records that document the dates of service shall be submitted that show the child is current for routine screening tests and immunizations according to the schedule recommended and published by the American Academy of Pediatrics. When a child is overdue for any routine health services, parents, legal guardians, or both provide evidence of an appointment for those services before the child's entry into the program and as a condition of remaining enrolled in the program, except for immunization for which parents are using religious exemption.

Health and Safety Records

Health and safety information collected from families will be maintained on file for each child in the school nurse's office. Files are kept current by updating as needed, but at least quarterly. The content of the file is confidential, but is immediately available to administrators or teaching staff who have consent from a parent or legal guardian for access to records; the child's parent or legal guardian; and regulatory authorities, upon request. QPPS 10.10

Child Health and Safety Records will include: QPPS 5.1

Current information about any health insurance coverage required for treatment in an emergency; Results of health examination, showing up-to-date immunizations and screening tests with an indication of normal or abnormal results and any follow-up required for abnormal results; Current emergency contact information for each child, that is kept up to date by a specified method during the year; Names of individuals authorized by the family to have access to health information about the child; Instructions for any of the child's special health needs such as allergies or chronic illness (e.g., asthma, hearing or vision impairments, feeding needs, neuromuscular conditions, urinary or other ongoing health problems, seizures, diabetes); Individual emergency care plans for children with known medical or developmental problems or other conditions that might require special care in an emergency (allergy, asthma, seizures, orthopedic or sensory problems, and other chronic conditions; conditions that require regular medication or technology support; and QPPS 10.14 Supporting evidence for cases in which a child is under-immunized because of a medical condition (documented by a licensed health

professional) or the family's beliefs. Staff implement a plan to exclude the child promptly if a vaccine-preventable disease to which children are susceptible occurs in the program.

General Health and Safety Guidelines

All staff must be alert to the health of each child, known allergies, or special medical conditions. Under the supervision of the preschool teacher, all staff must be alert to the whereabouts of all children. Systems are in place for accounting for children at regular intervals, especially during periods of transition. All staff are to follow proper procedures for hand washing, using disinfectant, and following universal precautions to prevent infections. All staff are familiar with evacuation routes and procedures. All teaching staff complete "Occupational Exposure to Bloodborne Pathogens" annually. At least one staff member who has a certificate of satisfactory completion of pediatric first-aid training, including managing a blocked airway and providing rescue breathing for infants and children, is always present with each group of children. When a child in the group has a special health condition that might require CPR, one staff person who has successfully completed training in CPR is present in the program at all times.

Illness Policy and Exclusion of Sick Children QPPS 5.3

For the health and safety of all the children, it is mandatory that sick children not be brought to school. If your child has any of the following symptoms during the night, he or she will not be admitted the following morning for the safety of the other children.

Fever greater than 100 degrees F, vomiting, diarrhea, pink eyes with drainage

Cough with congestion and excessive nasal discharge

The center's established policy for an ill child's return:

Fever free for 24 hours

Chicken pox: one week after onset (or when lesions are crusted)

Strep: 24 hours after initial medication

Vomiting/Diarrhea: 24 hours after last episode

Conjunctivitis: 24 hours after initial medication or when without drainage

Upon arrival at school, each child is observed by teaching staff for signs of illness or injury that could affect the child's ability to participate comfortably in the daily activities. Children will be excluded when a child is not able to participate comfortably; if the illness requires more care than staff are able to provide without compromising the needs of the other children in the group; or if keeping the child at school poses an increased risk to the child or to other children or adults with whom the child will come in contact.

When a child develops signs of an illness during their day at preschool, parents, legal guardians,

or other person authorized by the parent will be notified immediately to pick up the child. For this reason, please be sure that we have current, accurate phone numbers for you, your authorized emergency contact person and your child's pediatrician.

In the meantime, we will provide the child a place to rest until the parent, legal guardian or designated person arrives under the supervision of someone familiar with the child. If the child is suspected of having a contagious disease, then until she or he can be picked up, the child is located where new individuals will not be exposed.

Reporting Communicable Diseases QPPS 5.4

Staff and teachers provide information to families verbally and in writing about any unusual level or type of communicable disease to which their child was exposed, signs and symptoms of the disease, mode of transmission, period of communicability, and control measures that are being implemented at the program and that the families should implement at home. The program has documentation that it has cooperative arrangements with local health authorities and has, at least annually, made contact with those authorities to keep current on relevant health information and to arrange for obtaining advice when outbreaks of communicable disease occur.

Medication Policies and Procedures QPPS 5.10

Policy: The school will administer medication to children with written approval of the parent and an order from a health provider for a specific child. Because administration of medication in the school is a safety hazard, medication administration will be limited to situations where an agreement to give medicine outside preschool hours cannot be made. Whenever possible, the first dose of medication should be given at home to see if the child has any type of reaction.

Procedure: The school nurse coordinates and/or administers medication during school hours only if the parent or legal guardian has provided written consent and the medication is available in an original labeled prescription or manufacturer's container that is child-resistant. Any other person who would administer medication has specific training and a written performance evaluation, updated annually by a health professional on the practice of the five right practices of medication administration: (1) verifying that the right child receives the (2) right medication (3) in the right dose (4) at the right time (5) by the right method with documentation of each right each time the medication is given.

Medication errors will be controlled by checking and recording these five right practices each time medication is given. Should a medication error occur, the Regional Poison Control Center and the child's parents will be contacted immediately. The incident will be documented in the child's record at the school.

For prescription medications, parents or legal guardians will provide the school with the medication in the original, child-resistant container that is labeled by a pharmacist with the

child's name, the name and strength of the medication; the date the prescription was filled; the name of the health care provider who wrote the prescription; the medication's expiration date; and administration, storage, and disposal instructions.

For over-the-counter medications, parents or legal guardians will provide the medication in a child-resistant container. The medication will be labeled with the child's first and last names; specific, legible instructions for administration and storage supplied by the manufacturer; and the name of the health care provider who recommended the medication for the child.

Instructions for the dose, time, method to be used, and duration of administration will be provided to the teaching staff in writing (by a signed note or a prescription label) or dictated over the telephone by a physician or other person legally authorized to prescribe medication. This requirement applies both to prescription and over-the-counter medications. Medications will be kept at the temperature recommended for that type of medication, in a sturdy, child-resistant container that is locked and prevents spillage.

Medication will not be used beyond the date of expiration on the container or beyond any expiration of the instructions provided by the physician or other person legally permitted to prescribe medication. Instructions which state that the medication may be used whenever needed will be renewed by the physician at least annually. A medication log will be maintained by school staff to record the instructions for giving the medication, consent obtained from the parent or legal guardian, amount, the time of administration, and the person who administered each dose of medication. Spills, reactions, and refusal to take medication will be noted on this log. See sample form in Appendix.

Cleaning and Sanitization QPPS 9.11

The facility will be maintained in a clean and sanitary condition. When a spill occurs, the area will be made inaccessible to children and the area will be cleaned immediately.

Toys that have been placed in a child's mouth or that are otherwise contaminated by body secretion or excretion will be removed immediately and disinfected after they are cleaned with soap and water. This also applies to other surfaces in the classroom. Toys and surfaces will be disinfected using a non-toxic solution of one tablespoon household bleach to one quart of tap water made fresh daily. To disinfect, the surfaces will be sprayed until glossy. The bleach solution will be left on for at least 2 minutes before it is wiped off with a clean paper towel, or it may be allowed to air dry. Machine washable cloth toys that have been placed in a child's mouth or that are otherwise contaminated by body secretion or excretion must be laundered before another child's use. Toys that cannot be cleaned and sanitized will not be used. QPPS 5.24 Staff will be trained in cleaning techniques, proper use of protective barriers such as gloves, proper handling and disposal of contaminated materials, and information required by the US Occupational Safety and Health Administration about the use of any chemical agents.

Routine cleaning will be supervised by the preschool teacher and will follow the Cleaning, Sanitizing, and Disinfection Frequency Table as found on the Iowa Department of Education website. A checklist will be completed as indicated in the table. Facility cleaning requiring potentially hazardous chemicals will be scheduled when children are not present to minimize exposure of the children. All cleaning products will be used as directed by the manufacturer's label. Non Toxic substances will be used whenever possible.

Hand Washing Practices QPPS 5.8

Frequent hand washing is key to prevent the spread of infectious diseases. Teachers teach children how to wash their hands effectively. Posters of children using proper hand washing procedures are placed by each sink. The program follows these practices regarding hand washing:

Staff members and those children who are developmentally able to learn personal hygiene are taught hand washing procedures and are periodically monitored.

Hand washing is required by all staff, volunteers, and children when hand washing reduces the risk of transmission of infectious diseases to themselves and to others. Staff assist children with hand washing as needed to successfully complete the task. upon arrival for the day; after diapering or using the toilet (use of wet wipes is acceptable for infants); after handling body fluids (e.g., blowing or wiping a nose, coughing on a hand, or any touching of mucus, blood or vomit); before meals and snacks, preparing or serving food, or handling any raw food that requires cooking (e.g., meat, eggs, poultry); after playing in water that that is shared by two or more people; after handling pets and other animals or any materials such as sand, dirt, or surfaces that might be contaminated by contact with animals; and

Children and adults wash their hands:

Adults also wash their hands before and after feeding a child; before and after administering medication; after assisting a child with toileting; and after handling garbage or cleaning.

Proper hand-washing procedures are followed by adults and children and include using liquid soap and running water; rubbing hands vigorously for at least 10 seconds, including back of hands, wrists, between fingers, under and around any jewelry, and under fingernails; rinsing well; drying hands with a paper towel, or a dryer; and avoiding touching the faucet with just-washed hands (e.g., by using a paper towel to turn off water).

Except when handling blood or body fluids that might contain blood (when wearing gloves is required), wearing gloves is an optional supplement, but not a substitute, for hand washing in any situation listed above. Staff must wear gloves when contamination with blood may occur. Staff do not use hand-washing sinks for bathing children or removing smeared fecal material. In situations where sinks are used for both food preparation and other purposes, staff clean and sanitize the sinks before using them to prepare food.

First Aid Kit QPPS 9.13

A first aid kit is located in the preschool classroom next to the door. It is inaccessible to children, but readily available for adult use. It is fully equipped according to guidance from Healthy Child Care Iowa. Following each use of the First Aid kit, the contents will be inspected and missing or used items replaced immediately. The First Aid kit will be inspected monthly. The first aid kit is taken to the outdoor play areas as well as on field trips and outings away from the site.

Fire Safety QPPS 9.14

A fire extinguisher is installed in the preschool classroom with a tag indicating its annual service date. The fire alarm system is serviced annually. Smoke detectors, fire alarms, and carbon monoxide detectors are tested monthly. A written log of testing dates and battery changes is maintained and available upon request. Fire drills are conducted monthly and recorded on a log.

Medical /Dental Emergencies and Notification of Accidents or Incidents QPPS 10.13

The Boone Community School District has in place a “Safety Procedures Booklet” that describes the following situations and procedures to follow:

Emergency phone numbers

Fire procedures

Utility Failures (electric power failure, water line break, gas line break)

Severe weather

Bomb threats

Physical Threats/Armed Intruder

Evacuations Crisis Intervention Plan

Crisis Intervention Steps, and Media Procedures

Accidental Injury or Illness procedures for life threatening and non-life threatening situations

School crisis team members and a checklist to use List of CPR/First Aid experienced persons in each building.

This booklet will be posted by the telephone and included in the first aid kit. The booklet will be reviewed by each staff member at the beginning of each school year and when changes are made to it. In the event that your child receives a minor, non-life threatening injury during their time at preschool, our teacher will assess the situation and apply first aid as needed.

Minor cuts and scrapes will be treated with soap and water and bumps will be treated by applying ice to the injured area. Any incident or injuries will be documented on an “Injury and Illness” form and a copy will be given to the parent within 24 hours of the incident. All staff will have immediate access to a device that allows them to summon help in an emergency.

The telephone numbers of the Fire Department, Police Department, Hospital, and Poison Control will be posted by each phone with an outside line. Emergency contact information for each child and staff member will be kept readily available. The list of emergency telephone numbers, and copies of emergency contact information and authorization for emergency transport will be taken along anytime children leave the facility in the care of facility staff.

Emergency phone numbers will be updated at least quarterly. Emergency phone numbers will be verified by calling the numbers to make sure a responsive, designated person is available.

Inclement Weather

In the event that school must be closed due to inclement weather, we will notify school patrons by radio as we have in the past. KWBG 1590 will be the official station with all school closings and early dismissal. Additional information will be broadcast on KCCI -TV, Channel 8. WOI-TV, Channel 5, & WHO -TV Channel 13. Parents can also subscribe to the Iowa School Alert to receive online notification. A link for this can be found at <https://schoolalerts.iowa.gov/>

Protection From Hazards and Environmental Health QPPS 9.16, 9.17

Program staff protect children and adults from hazards, including electrical shock, burns, or scalding, slipping, tripping, or falling. Floor coverings are secured to keep staff and children from tripping.

Preschool classrooms have been tested for lead, radon, radiation, asbestos, fiberglass, and other hazards that could impact children’s health with documentation on file. Custodial staff will maintain the building’s heating, cooling, and ventilation systems in compliance with national standards for facility use by children.

The program maintains facilities so they are free from harmful animals, insect pests, and poisonous plants. Pesticides and herbicides, if used, are applied according to the manufacturer’s instructions when children are not at the facility and in a manner that prevents skin contact, inhalation, and other exposure to children. The program uses the techniques known as Integrated

Pest Management (IPM) so that the least hazardous means are used to control pests and unwanted vegetation.

Smoke Free Facility QPPS 9.19

In compliance with the Iowa Smokefree Air Act of 2008, Boone Community School buildings and grounds are smoke free. A “No Smoking” sign meeting the law’s requirements is posted at the entrance to the preschool classroom building to inform people that they are entering a nonsmoking place. No smoking is allowed on the school grounds or within sight of any children.

(BCSD Code 905.5)

Tobacco Free Environment

Code No. 905.5 School district facilities, including school vehicles, are off limits for tobacco. This requirement extends to students, employees and visitors. This policy applies at all times, including school-sponsored and nonschool-sponsored events. Persons failing to abide by this request are required to extinguish their smoking material, dispose of the tobacco product, or leave the school district premises immediately. If an employee is found in violation of this policy, the employee will be considered insubordinate and will be dealt with accordingly. It shall be the responsibility of the administration to enforce this policy. NOTE: According to Iowa law, all school grounds are smoke free. Boards have the authority to expand the policy to make the school facilities and grounds tobacco free as well.

Legal Reference: Cross Reference: Goals 2000: Educate America Act, Pub. L. No. 103-227, 108 Stat. 125 (1994). Iowa Code §§ 142B; 279.8, .9; 297 (2005). 905.1 Community Use of School District Buildings & Sites & Equipment 903.4 Public Conduct on School Premises ADOPTED: AMENDED: REVIEWED: REVIEWED: REVISED: REVIEWED: October 11, 1994 June 11, 1996 January 8, 2001 March 21, 2006 October 14, 2008 February 10,

Smoking, Drinking, and Drugs (BCSD Code 502.7)

The board prohibits the distribution, dispensing, manufacture, possession, use, or being under the influence of beer, wine, alcohol, tobacco, other controlled substances, or "look alike" substances that appear to be tobacco, beer, wine, alcohol or controlled substances by students while on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if the misconduct will directly affect the good order, efficient management and welfare of the school district.

The board believes such illegal, unauthorized or contraband materials generally cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees, or visitors. Violation of this policy by students will result in disciplinary action including suspension or expulsion. Use, purchase or being in possession of cigarettes,

tobacco or tobacco products for those under the age of eighteen, may be reported to the local law enforcement authorities.

Possession, use or being under the influence of beer, wine, alcohol and/or of a controlled substance may also be reported to the local law enforcement authorities. Students who violate the terms of this policy may be required to satisfactorily complete a substance abuse assistance or rehabilitation program approved by the school board. If such student fails to satisfactorily complete such a program, the student may be subject to discipline including suspension or expulsion.

The board believes the substance abuse prevention program will include: Age-appropriate, developmentally-based drug and alcohol curriculum for students in grades kindergarten through twelve, which address the legal, social, and health consequences of tobacco, drug and alcohol use and which provide information about effective techniques for resisting peer pressure to use tobacco, drugs or alcohol; A statement to students that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful; Standards of conduct for students that clearly prohibit, at a minimum, the unlawful possession, use, being under the influence of or distribution of illicit drugs and alcohol by students on school premises or as part of any of its activities; A clear statement that disciplinary sanctions, up to and including suspension or expulsion and referral for prosecution, will be imposed on students who violate the policy and a description of those sanctions; A statement that students may be required to successfully complete an appropriate rehabilitation program; Information about drug and alcohol counseling and rehabilitation and re- entry programs available to students; A requirement that parents and students be given a copy of the standards of conduct and the statement of disciplinary sanctions required; and Notification to parents and students that compliance with the standards of conduct is mandatory. It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy. The statement of disciplinary sanctions required; and Notification to parents and students that compliance with the standards of conduct is mandatory.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

Child Protection Policies QPPS 10.8, 10.16, 10.19

The health and wellbeing of every child in our care is of the utmost importance and the protection of children is our responsibility. An applicant or volunteer for temporary or permanent

employment with the preschool program involves direct interaction with or the opportunity to interact and associate with children must execute and submit an affidavit of clearance from any and all crimes against a child or families. In addition, no person with a substantiated report of child abuse or neglect will come in contact with children in the program or have responsibility for children.

The program has written school board policy for reporting child abuse and neglect as well as procedures in place that comply with applicable federal, state, and local laws. The policy includes requirements for staff to report all suspected incidents of child abuse, neglect, or both by families, staff, volunteers, or others to the appropriate local agencies. Staff who report suspicions of child abuse or neglect where they work are immune from discharge, retaliation, or other disciplinary action for that reason alone unless it is proven that the report is malicious. All teaching staff complete “Mandatory Reporter: Child and Dependent Adult Abuse” at least every five years and within six months of employment.

The school district does not tolerate employees physically, or sexually abusing or harassing students. Students who are physically or sexually abused or harassed by an employee should notify their parents, legal guardians, teacher, principal, or another employee. The Iowa Department of Education has established a two-step procedure for investigating allegations of physical or sexual abuse of students by employees. That procedure requires the school district to designate an independent investigator to look into the allegations. The school district has designated (name of person) at (phone number). The alternate investigator is (name of person) and may be reached at (phone number).

Substance Abuse

Persons under the influence of drugs or alcohol will not be permitted on the premises of any Boone Community Preschool Program. At no time will children be released to a person under the influence of alcohol or drugs.

Volunteers QPPS 10.15, 10.17

Parents, friends, grandparents, and other adults are encouraged to take an active part in the educational process of the children. Please contact the teacher if you would like to be a school volunteer. We have a volunteer job description that defines the role and responsibilities of a volunteer. For safety’s sake, if a volunteer will be working with children, he/she will be expected to execute and submit an affidavit of clearance from any and all crimes against a child or families. In addition no person with a substantiated report of child abuse or neglect will come in contact with children in the program or have responsibility for children. If a volunteer works more than 40 hours per month with children, he/she will also need to provide a current health assessment, not more than one year old.

VIII. STAFF GENERAL INFORMATION QPPS 10.15 - 10.20

General Information

The Boone Community School district has written personnel policies that define the roles and responsibilities, qualifications, and specialized training required of staff and volunteer positions. The policies outline nondiscriminatory hiring procedures and policies for staff evaluation. Policies detail job descriptions for each position, including reporting relationships; salary scales with increments based on professional qualification, length of employment, and performance evaluation; benefits; and resignation, termination, and grievance procedures. Personnel policies provide for incentives based on participation in professional development opportunities. The policies are provided to each employee upon hiring.

Hiring procedures include completion of the following checks: criminal-record check, free from history of substantiated child abuse or neglect check, education credentials, verification of age, completion of high school or GED, personal references and a current health assessment.

Health Assessment

The preschool program maintains current health information from documented health assessments for all paid preschool staff and for all volunteers who work more than 40 hours per month and have contact with children. A current health assessment (not more than one-year-old) is received by the program before an employee starts work or before a volunteer has contact with children. The health assessment is updated every two years.

Documented health assessments include: Capacities and limitations that may affect job performance Documentation by a licensed health professional of TB skin testing using the Mantoux method and showing the employee to be free from active TB disease. For those who have a positive TB skin test and who develop a persistent cough or unexpected fever, immediate assessment by a licensed physician is required. For those who have increased risk of TB according to the Centers for Disease Control (CDC), documentation is required annually by a licensed health professional showing that the employee is free from active TB disease.

Confidential personnel files, including applications with record of experience, transcripts of education, health-assessment records, documentation of ongoing professional development, and results of performance evaluation, are kept in a locked filing cabinet in the Superintendent's office.

Orientation QPPS 6.2

Employees must know their role and duties. New preschool teaching staff will be required to

participate in an initial orientation program that introduces them to fundamental aspects of the program operation including:

Program philosophy, mission, and goals; Expectations for ethical conduct; Individual needs of children they will be teaching or caring for; Accepted guidance and classroom management techniques; Daily activities and routines of the program; Program curriculum; Child abuse and reporting procedures; Program policies and procedures; Iowa Quality Preschool Program Standards and Criteria; Regulatory requirements. Follow-up training expands on the initial orientations. See Staff Orientation Checklist.

The employee's immediate supervisor should provide the new employee with a review of the employee's responsibilities and duties. The superintendent will explain payroll procedures, employee benefit programs and accompanying forms to the employee. Regular employees ineligible for the school district's group health plan will be given information regarding where they can obtain health care or health care insurance.

Staffing patterns and schedule

The preschool program is in compliance with staff regulations and certification requirements. Our program follows requirements for staffing for Iowa's Quality Preschool Program Standards of maintaining an adult/ child ratio of at least 1:10 (4 year old preschool) and 1:8 (3 year old preschool) at all times. The program administrator will maintain lists of current substitutes for both the preschool teacher and the preschool teaching assistant in case of absence. If one of the teaching staff needs to temporarily leave the classroom, the person will call the elementary office to arrange for coverage in order to maintain the adult/child ratio.

Staff are provided space and time away from children during the day. Should staff work directly with children for more than four hours, staff are provided breaks of at least 15 minutes in each four-hour period. In addition, staff may request temporary relief when they are unable to perform their duties.

Staff development activities QPPS 6.6, 10.15

Personnel policies provide for incentives based on participation in professional development opportunities. All teaching staff continuously strengthen their leadership skills and relationships with others and work to improve the conditions of children and families within their programs, the local community, and beyond. Teaching staff are encouraged to participate in informal and formal ways in local, state, or regional public- awareness activities. They may join an early childhood group or organization, attend meetings, or share information with others both at and outside the program.

Teaching staff will be informed of professional development activities provided by Child Care Resource and Referral, the local Empowerment areas, and the area education agency. Staff are

expected to attend all staff trainings and meetings throughout the year. Trainings will focus on early childhood topics relevant to the program and community.

Evaluation and Professional Growth Plan QPPS 6.5, 6.6

All staff are on cycle for evaluation by an appropriate supervisor or, in the case of the program administrator, by the superintendent. Staff also evaluate and improve their own performance based on ongoing reflections and feedback from supervisors, peers, and families. From this, they develop an annual individualized professional development plan with their supervisor and use it to inform their continuous professional development.

Boone Community School District Preschool

Acknowledgement of Receipt of Handbook

This handbook represents the policies and procedures adopted by the Boone Preschool for the 2022-2023 school year.

Parents are strongly encouraged to read and discuss any questions or concerns with the Elementary Principal, Autumn Seiler or your child's teacher.

Lincoln: 515-433-0800

Page: 515-433-0804

I have received a copy of the Parent Handbook, which describes the policies and procedures for the Boone Preschool Program for the 2022-2023 school year. If there are any changes to these policies or procedures during the school year, parents will be notified in writing and asked to sign for the updated information.
