

Pupil Transportation Parental Permission Form

Alternative Method of Providing Transportation

Your child will be transported to and/or from school via alternative transportation such as District owned/leased vehicle or privately owned vehicle. The District certifies that the vehicle will transport 9 or less passengers at any given time; is properly inspected and insured; and that the driver is a District employee that has undergone appropriate background checks. This transportation is provided to you at no cost.

As the Parent or Guardian of the pupil being transported, you acknowledge (through your signature) that:

- 1) You are aware that your child is transported using alternative transportation and not by school bus;
- 2) You give permission for your child to be transported in such a manner;
- 3) You support the school's behavior guidelines for students being transported by alternative transportation. These guidelines include: sitting in the seat, listening and obeying instructions from the driver; keeping hands to themselves; and using a soft voice while talking with peers.

Please fill out the information below and return to Mrs. Eileen Coleman, Principal's Secretary.

Parent/Guardian Name _____

Address: _____
