

# ART CLASS newsletter

Hi! I'm Megan Scarborough, and I'm the new art teacher at IIS. It's so great to "meet" all the grownups behind the amazing kiddos I get to work with every day! Since I'm new, I'm still trying to build my network of artists and creatives

so if you have a skill you'd like to share with the kids, or feel passionately about something in particular being taught to your kid(s) please connect with me!

## September in Review

Our year is off and running in the art room! There's been smiles and giggles, and oodles of creating all day long which makes my art teacher heart happy. The kids have been working on a school-wide installation project about identity, each making drawings about places, people, and things that they feel define them. Our key artist was Raúl de Nieves, and we studied how the imagery in his art tells a story about his identity. Some questions to chat about at home are "What is important to me?" "What connects me to my environment, family, and culture?"
