OCTOBER

Learning Tip

Grab and Count

Gather a set of objects, such as toy cars, blocks, or cotton balls. Ask your child to grab a handful and count how many they grabbed. Then, ask your child to predict whether you will be able to grab more or less. Try it and find out. Your child can also grab two handfuls and see which holds more, the left hand or the right.

Learning Corner

Last month we had our first fire drill at school. This month we will learn more about fire safety for school and home.

Reading Goals

- *I can identify and match the common sounds that letters represent. (li, Nn, Bb, Rr)
- * I can read realistic fiction.
- *I can use words to tell about stories and make connections.
- *I can draw and write.
- *I can read high frequency words. (he, have, is, my, we, make, for, me, with)

Math Goals

- *I can use strategies for accurately counting quantities from 1-10 and connecting those quantities to number.
- *I can compare the length of objects and the quantities of different sets.

Halloween

A party is being planned for the afternoon of the 31st. If you would like to send in something, please check with me to avoid any duplication.
