Here are the most
important points about
NWEA.

Forrestal gives the MAP Growth test three times per year – in fall, winter, and spring.

The test is online and adaptive.

As the student answers correctly, questions get harder. If the student answers incorrectly, the questions get easier. By the end of the test, students will have answered enough questions to inform a teacher about what they know and what they're ready to learn.

We test math and reading (Spanish and English).

The test is used to inform instructional needs and whether intervention is needed.

Results are given as a RIT score.

You'll be able to see your child's RIT score progress from test to test, and year to year.

What happens with the data?

The RIT score can be connected to standards and [online resources](#), such as [Khan Academy](#) for math exercises and [YourReadingPath.com](#) to determine what books might be at the appropriate reading level.

Math: Math K-12 (Growth: Math 2-5 CCSS 2010 V2)

Projected RIT 190

	FA21	WI22
Overall RIT Score	177	186
Goal Performance		
Operations and Algebraic Thinking	164-176	177-190
Number and Operations	170-182	178-190
Measurement and Data	164-176	172-184
Geometry	186-202	195-209

Student Action Plan: _____

Explanatory Notes

RIT ranges may indicate an **area of relative strength** or **area of possible concern** determined by comparing the student's Goal Performance score with the student's Overall RIT Score for the test event.

Language Arts: Reading (Growth: Reading 2-5 CCSS 2010 V4)

Projected RIT 181

	FA21	WI22
Overall RIT Score	168	192
Goal Performance		
Literary Text	167-179	190-202
Informational Text	157-169	186-198
Vocabulary	164-176	182-194
Lexile® Range	BR25L-125L	435L-585L

Student Action Plan: _____

Explanatory Notes

RIT ranges may indicate an **area of relative strength** or **area of possible concern** determined by comparing the student's Goal Performance score with the student's Overall RIT Score for the test event.

MAP Growth tracks student growth over time – wherever they are starting from and regardless of the grade they are in. For instance, if a third grader is actually reading like a fifth grader, MAP Growth will be able to identify that. Or, if a fifth grader is doing math like a third grader, MAP Growth will identify that, too. Both things are incredibly important for teachers to know so that they can plan instruction efficiently.

The Family Guide to MAP Growth is a quick resource you can use to introduce your students' families to the assessment process and how you'll be using data to support learning.

It's also available in these languages:

- Amharic
- Arabic
- Brazilian Portuguese
- Chinese
- Haitian
- Japanese
- Korean
- Nepalese
- Russian
- Somali
- Spanish
- Vietnamese
