The Au Gres-Sims School District's bond proposal is primarily focused on making our schools **safe, secure, and up-to-date**. In addition to **remodeling and updating classrooms**, the bond proposal will fund construction of secure entrances, a new heating, ventilation, and air conditioning (HVAC) system to replace outdated boilers, and installation of a secure bus loop and parking lot to improve safety and traffic flow.

The bond proposal was designed to protect the community's investment in its schools, and to reflect positively on homeowner property values. If the bond proposal is approved by voters, **there will be no change in the current tax rate. None!**
