INDEPENDENT AUDITOR'S REPORT

School Board Lennox School District No. 41-4 Lincoln County, South Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Lennox School District No. 41-4, Lincoln County, South Dakota, as of June 30, 2021 and for the year then ended, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

The Lennox School District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Lennox School District No. 41-4 as of June 30, 2021,

and the respective changes in financial position and, where applicable cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedules, the Management Discussion and Analysis (MD&A), the Schedule of Changes in OPEB, the Schedule of the Proportionate Share of the Net Pension Liability (Asset), and the Schedule of the School District Contributions as listed in the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during the audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Lennox School District's basic financial statements. The Schedule of Expenditures of Federal Awards, which is required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) listed in the Table of Contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 8, 2022, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Lennox School District 41-4's annual financial report presents our discussion and analysis of the school's financial performance during the fiscal year ended on June 30, 2021. Please read it in conjunction with the school district's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- During the year, the district's revenues generated from taxes and other revenues of the
 governmental and business-type programs were \$1,645,781 more than the \$13,201,256
 governmental and business-type program expenditures. This is an increase of 62%. This
 was primarily due to an increase in Federal revenue received due to the Covid-19
 pandemic.
- The total cost of the district's programs increased by 7%. This was due primarily to the market increases for administration, the \$2,000 increase to certified staff salaries, and a 4% increase to classified staff, along with the related increase in payroll tax and retirement expense.
- The district received a 2% increase to the general fund state aid formula which increased the target average teacher salary to \$51,361.47 and increased the overhead rate to 34.93%.
- The district's general fund total expenditures came in under budget even with the salary and benefit increases due to less expended on utilities and fuel.
- For FY 2021, the district adopted a balanced general fund budget with the use of \$101,631 of fund balance. However, the general fund ended the year with a \$235,156 increase in fund balance with an ending fund balance of \$2,405,800. The increase was due primarily to the receipt of additional revenue than what was budgeted for state apportionment and bank franchise tax. We also spent less for staff health insurance, workman's compensation insurance, utilities, and we had lower fuel costs.
- The district received a 2.5% increase to disability allocations for Special Education State
 Aid. Additionally, the district received no revenue from the extra-ordinary cost fund for the
 special education fund.
- The food service fund's net income was \$55,163 of which \$20,706 was depreciation expense which is a non-cash expense. Due to the pandemic, the Federal Government extended the option to serve students breakfast and lunch through the National School Lunch Program (NSLP) Seamless Summer Option (SSO). With this option, breakfast and lunches are free to all students and the district receives payment for the meals from the federal government. For FY 2021, overall food service revenue increased by 34.9% from the prior year due to the receipt of NSLP SSO revenue compared to families paying for breakfast and lunch themselves. In addition, meals were prepared during the summer months too for families to receive. Operating expenses increased by 18.3% due to the increase in food purchased during the summer months and for increased meals served during the school year.
- The OST/preschool fund had net income of \$6,242. Preschool tuition and Totally Kids daycare revenue rebounded in FY 2021 after being shut down part of the FY 2020. Expenses increased slightly for staff raises and related payroll tax/retirement expense.

OVERVIEW OF THE FINANCIAL STATEMENTS

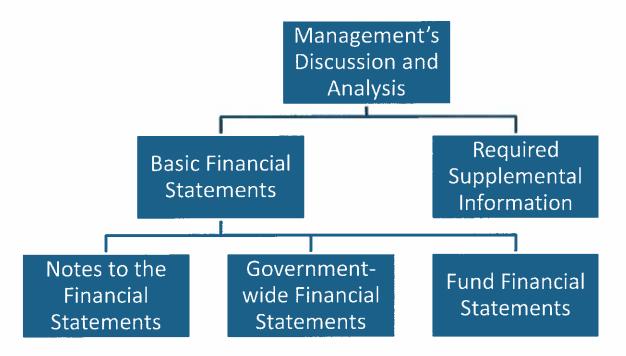

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the school:

- The first two statements are government-wide financial statements that provide both longterm and short-term information about the school district's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the school government, reporting the school's operations in more detail than the governmentwide statements.

- The governmental funds statements tell how general government services were financed in the short-term as well as what remains for future spending.
- Proprietary fund statements offer short- and long-term financial information about the
 activities that the school operates like businesses. There are two proprietary funds
 operated by the school which are the food service and the Out of School
 Time/preschool.
- Fiduciary fund statements provide information about the financial relationships like scholarship plans for graduating students in which the school acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and relate to one another.

Figure A-1
Required Components of Lennox School District's Annual Financial Report

The following summarizes the major features of the school's financial statements, including the portion of the school government covered and the types of information contained. The remainder of the overview section of the management's discussion and analysis explains the structure and contents of each of the statements:

	Government-wide		Fund Statements	
	Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire School government (except fiduciary funds and the School's component units	The activities of the School that are not proprietary or fiduciary, such as elementary and high school education programs.	Activities the School operates simmilar to private businesses, the food service operation.	instances in which the School is the trustee or agent for someone else's resources.
Required Financial Statements	*Statement of Net Position *Statement of Activities	*Balance Sheet *Statement of Revenues, Expenditures and Changes in Fund Balances	*Balance Sheet *Statement of Revenues, Expenses and Changes in Net Position *Statement of Cash Flows	*Statement of Fiduciary Net Position *Statement of Changes in Fiduciary Net Position
Accounting Basis and Measurement Focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of Asset/Liability Information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the School's funds do not currently contain capital asset although they can
Type of Inflow/Outflow Information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year, expenditures when goods or services have been received and payment is due during the year or soon themselver.	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

Government-wide Statements

The government-wide statements report information about the school as a whole using accounting methods similar to those used by private-sector companies. The statement of Net Position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the school's net position and how it has changed. Net position – the difference between the school's assets and liabilities – is one way to measure the school's financial health or position.

- Increases or decreases in the school's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the school you need to consider additional non-financial factors such as changes in the school's property tax base and changes in the state school aid funding formula from the State of South Dakota.

The government-wide financial statements of the school are reported in two categories:

 Governmental Activities - This category includes the school's basic instructional services, such as elementary and high school educational programs, support services (guidance counselor, executive administration, board of education, fiscal services, etc.), debt service payments, extracurricular activities (sports, debate, music, etc.) and capital equipment

- purchases. Property taxes, state grants, federal grants and interest earnings finance most of these activities.
- Business-type Activities The school charges a fee to students to help cover the costs of
 providing hot lunch and breakfast services to all students. The food service fund also
 receives federal and state assistance to subsidize the food service program. The
 OST/preschool program receives most of its funds from student fees.

Fund Financial Statements

The fund financial statements provide more detailed information about the school's most significant funds – not the school as a whole. Funds are accounting devices that the school uses to keep track of specific sources of funding and spending for particular purposes.

- State Law requires some of the funds.
- The School Board establishes other funds to control and manage money for particular purposes (like the Scholarship Trust).

The school has three kinds of funds:

- Governmental Funds Most of the school's basic services are included in the governmental funds, which focus on (1) how cash and other financial assets that can readily converted to cash flow in and out and (2) the balances left at the year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the school's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statements, or on the subsequent page, that explains the relationship (or differences) between them.
- Proprietary Funds Services for which the school charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both short- and long-term financial information. The Food Service Enterprise Fund and the Out of School/Preschool program are the only proprietary funds maintained by the school.
- Fiduciary Funds The school is the trustee, or fiduciary, for various external and internal
 parties. The school is responsible for ensuring that the assets reported in these funds are
 used for their intended purposes. All of the school's fiduciary activities are reported in a
 separate statement of fiduciary net position and a statement of changes in fiduciary net
 position. We exclude these activities from the school's government-wide financial
 statements because the school cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL AS A WHOLE

Net Position

The school's combined net position increased as follows:

(Decrease) in Net Position for						
for 2020 and 2021.	6%	9%	-16%	21%	6%	9%

The Statement of Net Position reports all financial and capital resources. The statement presents the assets and liabilities in order of relative liquidity. The liabilities with average maturities greater than one year are reported in two components – the amount due within one year and the amount due in more than one year. The long-term liabilities of the school, consisting of other post-employment benefits payable, early retirement benefits payable, capital outlay certificates payable, and general obligation bonds, have been reported in this manner on the Statement of Net Position. The difference between the school's assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is its net position.

The decrease in current assets is primarily due the payment of the Lennox Elementary Addition expenditures as the project nears completion. The increase in capital assets is primarily due to the purchase of assets offset by the depreciation of assets and the Lennox Elementary Addition. The decrease in long-term liabilities is mainly due to the payment of principal on our debt. Net position increased by 8% for governmental activities as a result of these changes. Net position for business-type activities increased by 21% primarily due to food service breakfast/lunch

revenue, preschool tuition, and Totally Kids daycare payments returning to normal or higher levels.

Changes in Net Position

The school's total revenues (excluding special items) totaled \$14,979,124. (See Table 1) Approximately 48% of the school's revenue comes from property and other taxes, with another 30% coming from state aid. (See Chart 1) The school's expenses cover a range of services, encompassing instruction, support services, co-curricular, debt service, OST and food services. (See Chart 2)

Chart 1
Lennox School District 41-4
Sources of Revenue for Fiscal Year 2021

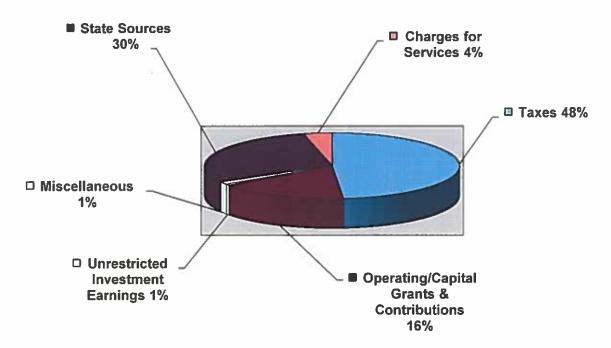

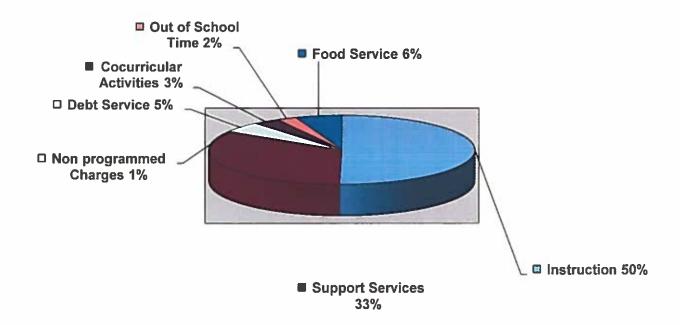

Chart 2
Lennox School District 41-4
Functional Expenses for Fiscal Year 2021

GOVERNMENTAL ACTIVITIES

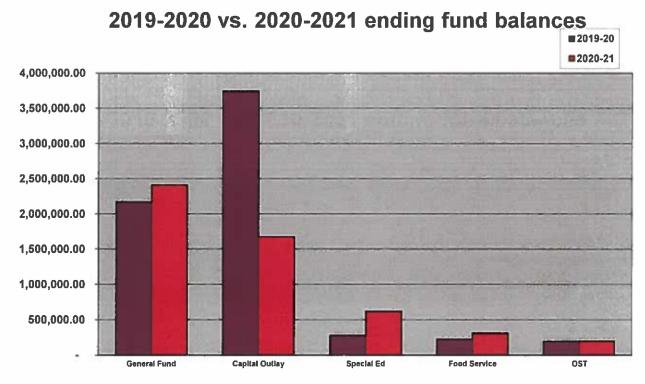

Revenues for the governmental activities increased by approximately 10.6% due to an increase in Federal funding received due to the Covid-19 pandemic. Expenses increased by 6.4% due to salary increases along with the related increase in payroll tax and retirement

BUSINESS-TYPE ACTIVITIES

The school's food service fund revenue increased 33% due to the receipt of NSLP SSO revenue for students' free breakfast and lunch. Additionally, more meals were served during the summer months that generated additional revenue. The food service fund expenses increased by 18.3% due to the increase in food purchased during the summer months and for increased meals served during the school year. The OST/preschool program revenue increased 25.6% due to the programs being in service for the entire fiscal year as opposed to being shut down part of the year in FY 2020. Their expenses increased 8.9% mainly due to the 4% increase to classified staff salaries along with the related increase to benefits.

FINANCIAL ANALYSIS OF THE SCHOOL'S FUNDS

The general fund, special education fund, food service fund and the OST/preschool fund did not have any significant changes in fund balance for the year. However, the capital outlay fund decreased by \$2,331,610 due to a cash payment on the crossover refunding capital outlay certificates. The changes in the other different funds are explained in the two sections above.

BUDGETARY HIGHLIGHTS

Over the course of the year, the school board revised the school budget several times. These amendments fall into three categories:

- Supplemental appropriations and contingency transfers approved for unanticipated, yet necessary, expenses to provide for items necessary for the education program of this district.
- Increases in appropriations, primarily by contingency transfer, to prevent budget overruns.

The budget was supplemented with additional grants, donations, capital outlay certificate escrow proceeds, Coronavirus Relief Funds and fund balance. Other than these items, there were no other significant budget changes or budget variances for the year.

CAPITAL ASSET ADMINISTRATION

By the end of 2021, the school had invested \$30,797,292 a broad range of capital assets, including, land, buildings, improvements, and various machinery and equipment. (See Table 2). This amount represents a net increase (including additions and deductions) of \$2,493,838 or approximately 8.8%, above last year resulting mainly from the Lennox Elementary addition project, the purchase of other assets, and depreciation.

This year's major capital asset purchases consisted of district-wide parking lot projects, LWC Intermediate School/Lennox Elementary partial reroof, Worthing Elementary boiler project, Lennox Elementary addition, 2 - Blue Bird buses, refinishing of the tennis courts and high school gym floor, LWC Intermediate School playground concrete, suburban, car, min-van, mower, floor scrubbers, band instruments, and Lennox Elementary playground equipment.

LONG-TERM DEBT

At year-end the school had \$16,083,402 in bonds payable, capital outlay certificates and other long-term obligations. This is a decrease of 17.79% as shown on Table A-4 below which is due primarily to the principal payments on the debt.

Table A-4

LENNOX SCHOOL DISTRICT 41-4 - Outstanding Debt and Obligations

							Total	Total
	Gover	nment	al	Busi	ess	s-type	Dollar	Percentage
	 Act	ivities		Ac	tivit	ies	 Change	Change
	2020		2021	2020	#	2021	2020-2021	2020-2021
Bonds Payable	\$ 3,320,000	\$	2,295,000				\$ (1,025,000)	-30.87%
Capital Outlay Certificates	15,690,000		12,975,000				(2,715,000)	-17.30%

Financing Lease	0		61,829				61,829	100.00%
OPEB Liability	511,048		676,853				165,805	32.44%
Total Outstanding Debt								
and Obligations	\$ 19,562,808	\$	16,083,402				\$ (3,479,406)	-17.79%

There are currently no administrators that have met the requirements to have accrued admin leave.

The school also maintains an early retirement plan, which allows those meeting certain qualifications, to retire early and receive 80% of their last year's salary in 6 equal payments spread over the next three years. This plan allows the school to reduce the overall program cost by hiring lower paid teachers to replace the higher paid teachers.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

For the 2021-22 school year, the district gave market adjustment increases to administrative/director staff, \$1,500 salary increase to certified staff, increased all classified staff to \$15/hour and gave a 2.4% increase to all other classified staff that already make at least \$15/hour. The district increased the contribution rates for health insurance to \$483/month for single and \$900/month for family plans. The district reduced the sections of 1st grade at Lennox Elementary from three to two due to low enrollment and increased kindergarten from 2 to 3 sections due to increased enrollment. The district also added a junior high/high school assistant principal, .45 elementary music teacher, junior high/high school library aide, and an additional custodian for Lennox Elementary.

The district received a 2.4% increase to the state aid formula which increased the target average teacher salary to \$52,600.29 and increased the overhead rate to 37.30%. The district budgeted no increase to enrollment. The district's cash balance percentage at the end of FY 2021 was at 22.34%. The allowable general fund cash balance percentage by law for our school size is 25%. The district's cash balance percentage has continued to increase every year. As a result of this, the board has made the decision to spend down the district's cash each year through deficit spending. The district will be using \$404,859 of fund balance/cash reserves to adopt a balanced budget for the 2021-2022 school year.

Preliminary valuation figures show that the district experienced an increase in total property valuation of \$60,420,108 or 8.29% from the prior year. The maximum dollar amount that can be collected in the capital outlay fund can only increase annually by 3% or the CPI, whichever is less, plus the district's average growth percentage. The current year CPI is at 3% and our current average growth percentage is 1.2%. These increases will generate a \$88,712 increase in property tax revenue for the capital outlay fund. The increase in valuation will increase the revenue generated from property taxes in the special education fund by approximately \$101,902.

CONTACTING THE SCHOOL'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the school's finances and to demonstrate the school's accountability for the money it receives. If you have questions about this report or need additional information, contact the Lennox School District's Business Office, 305 W. 5th Ave, P.O. Box 38, Lennox, SD 57039.

LENNOX SCHOOL DISTRICT NO. 41-4 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2021

Not Observe in French Balances - Total Oncommental French		E (0.004.740.40)
Net Change in Fund Balances - Total Governmental Funds		\$ (3,961,748.18)
Amounts reported for governmental activities in the statement of activities are different because:		
In the statement of activities, gains and losses on disposal of capital assets are reported, whereas, in the governmental funds, the proceeds from the disposal of capital assets is reflected, regardless of whether a gain or loss is realized.		(132,087.11)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The amount by which capital outlay expense exceeds depreciation expense in the period is:		
Capital Outlay Depreciation Expense	\$ 3,217,809.52 (699,035.31)	2,518,774.21
Payment of principal on long-term debt is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Position.		
General Obligation Bonds	1,025,000.00	
Capital Outlay Certificates	2,715,000.00	
Intangible Leases	29,552.47	3,769,552.47
The receipt of donated capital assets is not reported on the fund statements, but is reported as a program revenue on the government wide statements.		5,650.00
Because some property taxes will not be collected for several months after the district's fiscal year ends, they are not considered available revenues and are deferred in the governmental funds. Deferred tax		
revenues changed by this amount this year.		(28,640.59)
In the statement of activities, certain operating expenses (compensated absences and early retirement benefits) are measured by the amounts earned and paid during the year. In the governmental funds however, expenditures for these items are different than the amount of financial resources used. This year the changes in these accounts are:		
Other Post Employment Benefits	(75,955.00)	
Early Retirement Benefits	(32,960.00)	(108,915.00)
Changes in the pension related deferred outflows/inflows are direct components of pension (asset) and are not reflected in the		
governmental funds.		(503,866.49)
Change in Net Position of Governmental Activities		\$ 1,558,719.31

LENNOX SCHOOL DISTRICT NO. 41-4 NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the School District conform to generally accepted accounting principles applicable to government entities of the United States of America.

a. Financial Reporting Entity:

The reporting entity of Lennox School District No. 41-4, consists of the primary government (which includes all of the funds, organizations, institutions, agencies, departments, and offices that make up the legal entity, plus those funds for which the primary government has a fiduciary responsibility, even though those fiduciary funds may represent organizations that do not meet the criteria for inclusion in the financial reporting entity); those organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete.

Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The School District is financially accountable if its Governing Board appoints a voting majority of another organization's governing body and it has the ability to impose its will on that organization, or there is a potential for that organization to provide specific financial benefits to, or impose specific financial burdens on, the School District (primary government). The School District may also be financially accountable for another organization if that organization is fiscally dependent on the School District.

The School District participates in a cooperative service unit with several other school districts. See detailed note entitled "Joint Ventures" for specific disclosures. Joint ventures do not meet the criteria for inclusion in the financial reporting entity as a component unit, but are discussed in these notes because of their relationship with the School District.

b. Basis of Presentation:

Government-wide Financial Statements:

The Statement of Net Position and Statement of Activities display information about the reporting entity as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Net Position reports all financial and capital resources, in a net position form (assets and deferred outflows, minus liabilities and deferred inflows equal net position). Net position is displayed in three components, as applicable, investment in capital assets, restricted (distinguishing between major categories of restrictions), and unrestricted.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function of the School District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or

services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements:

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the School District or it meets the following criteria:

- 1. Total assets and deferred outflows, liabilities and deferred inflows, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- 2. Total assets and deferred outflows, liabilities and deferred inflows, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined, or
- Management has elected to classify one or more governmental or enterprise funds as major for consistency in reporting from year to year, or because of public interest in the fund's operations.

The funds of the School District financial reporting entity are described below within their respective fund types:

Governmental Funds:

General Fund - A fund established by South Dakota Codified Laws (SDCL) 13-16-3 to meet all the general operational costs of the school district, excluding capital outlay fund and special education fund expenditures. The General Fund is always a major fund.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Outlay Fund--A fund established by SDCL 13-16-6 to meet expenditures which result in the lease of, acquisition of or additions to real property, plant or equipment, textbooks and instructional software. This fund is financed by property taxes. This is a major fund.

Special Education Fund--A fund established by SDCL 13-37-16 to pay the costs for the special education of all children in need of special assistance and prolonged assistance who reside within the district. This fund is financed by grants and property taxes. This is a major fund.

Debt Service Funds - Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Bond Redemption Fund - Fund established by SDCL 13-16-13 to account for the proceeds of a special property tax restricted to use for the payment of principal and interest on general obligation bonded debt. The 2019 General Obligation Bonds are paid from the High School Bond Redemption Fund. This is a major fund.

Capital Projects Funds – Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

The Lennox Elementary Addition Project is the current capital project maintained by the school.

Proprietary Funds:

<u>Enterprise Funds</u> – Enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. Activities are required to be reported as enterprise funds if any one of the following criteria is met.

- a. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity. Debt that is secured by a pledge of net revenues from fees and charges and the full faith and credit of a related primary government or component unit—even if that government is not expected to make any payments—is not payable solely from fees and charges of the activity. (Some debt may be secured, in part, by a portion of its own proceeds but should be considered as payable "solely" from the revenues of the activity.)
- b. Laws or regulations require that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues.
- c. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

Food Service Fund--A fund used to record financial transactions related to food service operations. This fund is financed by user charges and grants. This is a major fund.

OST/Preschool Fund--A fund used to record financial transactions related to OST/Preschool programs conducted for the benefit of the children. This fund is financed by user charges and grants. This is a major fund.

Fiduciary Funds:

Fiduciary funds consist of the following sub-categories and are never considered to be major funds:

<u>Private-Purpose Trust Fund</u> - Private-purpose trust funds are used to account for all other trust arrangements under which principal and income benefit individuals, private organizations, or other governments. The School District maintains private-purpose trust funds for scholarships.

<u>Custodial Funds</u> - Custodial funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds. The School District maintains custodial funds to hold assets as an agent in a trustee capacity for various classes, clubs, and so on.

c. Measurement Focus and Basis of Accounting:

Measurement focus is a term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

Measurement Focus:

Government-wide Financial Statements:

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus, applied on the accrual basis of accounting.

Fund Financial Statements:

In the fund financial statements, the "current financial resources" measurement focus and the modified accrual basis of accounting are applied to governmental funds, while the "economic resources" measurement focus and the accrual basis of accounting are applied to the proprietary and fiduciary fund types.

Basis of Accounting:

Government-wide Financial Statements:

In the government-wide Statement of Net Position and Statement of Activities, governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues and related assets generally are recorded when earned (usually when the right to receive cash vests); and, expenses and related liabilities are recorded when an obligation is incurred (usually when the obligation to pay cash in the future vests).

Fund Financial Statements:

All governmental fund types are accounted for using the modified accrual basis of accounting. Their revenues, including property taxes, generally are recognized when they become measurable and available. "Available" means resources are collected or to be collected soon enough after the end of the fiscal year that they can be used to pay the bills of the current period. The accrual period does not exceed one bill-paying cycle, and for the Lennox School District No. 41-4, the length of that cycle is 60 days. Revenues accrued at June 30, 2021 are amounts due from grants, accrued interest, and other receivables.

Under the modified accrual basis of accounting, receivables may be measurable but not available. Available means collectable within the current period or soon enough thereafter to be used to pay liabilities of the current period. Unavailable revenues, where asset recognition criteria have been met, but for which revenue recognition criteria have not been met, are reported as a deferred inflow of resources.

Expenditures generally are recognized when the related fund liability is incurred. Exceptions to this general rule include principal and interest on general long-term debt which are recognized when due.

All proprietary fund and fiduciary fund types are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

d. Interfund Eliminations and Reclassifications:

Government-wide Financial Statements:

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances in the fund financial statements have been eliminated or reclassified, as follows:

1. In order to minimize the grossing-up effect on assets and liabilities within the governmental and business-type activities columns of the primary government, amounts reported as interfund receivables and payables have been eliminated in the governmental and business-type activities columns, except for the net, residual amounts due between governmental and business-type activities, which are presented as Internal Balances.

e. Deposits and Investments:

For the purpose of financial reporting, "cash and cash equivalents" includes all demand and savings accounts and certificates of deposit or short-term investments with a term to maturity at date of acquisition of three months or less. Investments in open-end mutual fund shares, or similar investments in external investment pools, are also considered to be cash equivalents.

Investments classified in the financial statements consist entirely of certificates of deposit whose term to maturity at date of acquisition exceeds three months, and/or those types of investment authorized by South Dakota Codified Law (SDCL) 4-5-6.

f. Capital Assets:

Capital assets include land, buildings, machinery and equipment, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period.

The accounting treatment over capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Financial Statements

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair value on the date donated. Reported cost values include ancillary charges necessary to place the asset into its intended location and condition for use. Subsequent to initial capitalization, improvements or betterments that are significant and which extend the useful life of a capital asset are also capitalized.

For governmental activities Capital Assets, construction-period interest is not capitalized, in accordance with USGAAP, while for capital assets used in business-type activities/proprietary fund's operations, construction period interest is capitalized in accordance with USGAAP.

The total June 30, 2021 balance of capital assets for governmental activities includes approximately 1.75 percent for which costs were determined by estimates of the original cost. These estimated original costs were established by appraisals. The total June 30, 2021 balance of capital assets for business-type activities are valued at original costs.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the government-wide Statement of Activities, with net capital assets reflected in the Statement of Net Position. Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	Capitalization	Depreciation	Estimated
	Threshold	Method	Useful Life
Land	All	N/A	N/A
Improvements	\$ 15,000.00	Straight Line	10-25 Years
Buildings	50,000.00	Straight Line	50 Years
Machinery and Equipment	5,000.00	Straight Line	5-20 Years
Food Service Machinery and Equipment	1,000.00	Straight Line	12 Years

Land is an inexhaustible capital asset and is not depreciated.

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital expenditures of the appropriate governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for on the accrual basis, the same as in the government-wide statements.

g. Long-Term Liabilities:

The accounting treatment of long-term liabilities depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term liabilities to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term liabilities primarily consist of accrued leave payable, capital outlay certificates payable, early retirement payable, leases payable, and bonds payable.

In the fund financial statements, debt proceeds are reported as revenues (other financing sources), while payments of principal and interest are reported as expenditures when they become due. The accounting for proprietary fund long-term debt is on the accrual basis, the same in the fund statements as in the government-wide statements.

h. Leases:

Lessee:

The School District is a lessee for a noncancellable lease of 12 copiers. The School District recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The School District recognizes lease liabilities with an initial, individual value of \$91,381.34 or more.

At the commencement of a lease, the School District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease

asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the School District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The School District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the School District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the School District is reasonably certain to exercise.

The School District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

i. Program Revenues:

In the Government-wide Statement of Activities, reported program revenues derive directly from the program itself or from parties other than the District's taxpayers or citizenry, as a whole. Program revenues are classified into three categories, as follows:

- Charges for services These arise from charges to customers, applicants, or others who
 purchase, use, or directly benefit from the goods, services, or privileges provided, or are
 otherwise directly affected by the services.
- 2. Program-specific operating grants and contributions These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program.
- 3. Program-specific capital grants and contributions These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for the acquisition of capital assets for use in a particular program.

j. Proprietary Funds Revenue and Expense Classifications:

In the proprietary fund's Statement of Revenues, Expenses, and Fund Net Position, revenues and expenses are classified in a manner consistent with how they are classified in the Statement of Cash Flows. That is, transactions for which related cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are not reported as components of operating revenues or expenses.

k. Cash and Cash Equivalents:

The School District pools its cash resources for depositing and investing purposes. Accordingly, the enterprise funds have access to their cash resources on demand. Accordingly, all reported enterprise fund deposit and investment balances are considered to be cash equivalents for the purpose of the Statement of Cash Flows.

I. Equity Classifications

Government-wide Statements:

Equity is classified as Net Position and is displayed in three components:

- 1. Net Investment in Capital Assets Consists of capital assets, including restricted capital assets, net of accumulated depreciation (if applicable) and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- 2. Restricted Net Position Consists of net position with constraints places on their use either by (a) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
- 3. Unrestricted Net Position All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

Fund Financial Statements:

Governmental fund equity is classified as fund balance, and is distinguished between Nonspendable, Restricted, Committed, Assigned or Unassigned components. Proprietary fund equity is classified the same as in the government-wide financial statements. Fiduciary fund equity is reported as net position.

m. Application of Net Position:

It is the School District's policy to first use restricted net position, prior to the use of unrestricted net position, when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

n. Deferred Inflows and Deferred Outflows of Resources:

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. Deferred outflows of resources represent consumption of net position that applies to a future period or periods. These items will not be recognized as an outflow of resources until the applicable future period.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent acquisitions of net position that applies to a future period or periods. These items will not be recognized as an inflow of resources until the applicable future period.

o. Fund Balance Classification Policies and Procedures:

In accordance with Government Accounting Standards Board (GASB) No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the School District classifies governmental fund balances as follows:

- <u>Nonspendable</u> includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.
- Restricted includes fund balance amounts that are constrained for specific purposes which
 are externally imposed by providers, such as creditors or amounts constrained due to
 constitutional provisions or enabling legislation.

- <u>Committed</u> includes fund balance amounts that are constrained for specific purposes that
 are internally imposed by the government through formal action of the highest level of
 decision-making authority and does not lapse at year-end.
- <u>Assigned</u> includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted nor committed. Fund Balance may be assigned by the School Board, Superintendent, or Business Manager.
- <u>Unassigned</u> includes positive fund balance within the General Fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The Nonspendable Fund Balance is comprised of the following:

• Amount reported in non-spendable form such as inventory, prepaid expenses and deposits.

The School District uses restricted/committed amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the Government would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The Government does not have a formal minimum fund balance policy.

A schedule of fund balances is provided as follows:

LENNOX SCHOOL DISTRICT NO. 41-4 DISCLOSURE OF FUND BALANCES REPORTED ON BALANCE SHEET GOVERNMENTAL FUNDS June 30, 2021

Fund Balance: Nonspendable:	General Fund	Capital Outlay Fund	Special Education Fund	Bond Redemption Fund	Capital Projects Fund	Total Governmental Funds
Prepaid Items Deposits	\$ 62,067.63 64,850.00	\$	\$ 5,336.63 10,550.00	\$	\$	\$ 67,404.26 75,400.00
Restricted for: Capital Outlay Special Education Activity Debt Service Capital Projects	31,373.44	1,674,876.09	603,084,97	233,229.43	11,787,19	1,674,876.09 603,084.97 31,373.44 233,229.43 11,787,19
Assigned for: Unemployment Next Year's Budget Unassigned:	4,193.58 404,860.00 1,838,455.72			F2		4,193.58 404,860.00 1,838,455.72
Total Fund Balances	\$ 2,405,800.37	\$ 1,674,876.09	\$ 618,971.60	\$ 233,229.43	\$ 11,787.19	\$ 4,944,664.68

o. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense (revenue), information about the fiduciary net position of the South Dakota Retirement System (SDRS) and additions to/deletions from SDRS's fiduciary net position have been determined on the same basis as

they are reported by SDRS. School District contributions and net pension liability (asset) are recognized on an accrual basis of accounting.

NOTE 2 – IMPLEMENTATION OF NEW ACCOUNTING STANDARD

In 2021, the School District implemented the provisions of Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities accounting standard. This statement improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The implementation of this standard required that the School District present a Statement of Changes in Fiduciary Net Position for Custodial Funds for 2021. The implementation of this standard required the School District to reclassify previously reported agency funds as custodial funds. The impact to the School District resulted in certain activities previously reported as fiduciary not being considered fiduciary under GASB 84. The effect of the implementation of this standard on beginning net position is disclosed in Note 15.

In 2021, the School District implemented the provisions of Governmental Accounting Standards Board (GASB) Statement No. 87, Leases. This statement improves accounting and financial reporting for leases; enhances the comparability of financial statements between governments; and also enhances the relevance, reliability, and consistency of information about the leasing activities of governments.

NOTE 3 - DEPOSITS AND INVESTMENTS CREDIT RISK, CONCENTRATIONS OF CREDIT RISK AND INTEREST RATE RISK

The School District follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below:

Deposits - The School District's deposits are made in qualified public depositories as defined by SDCL 4-6A-1, 13-16-15, 13-16-15.1 and 13-16-18.1. Qualified depositories are required by SDCL 4-6A-3 to maintain at all times, segregated from their other assets, eligible collateral having a value equal to at least 100 percent of the public deposit accounts which exceed deposit insurance such as the FDIC and NCUA. In lieu of pledging eligible securities, a qualified public depository may furnish irrevocable standby letters of credit issued by federal home loan banks accompanied by written evidence of that bank's public debt rating which may not be less than "AA" or a qualified public depository may furnish a corporate surety bond of a corporation authorized to do business in South Dakota.

Investments – In general, SDCL 4-5-6 permits school funds to be invested in (a) securities of the United States and securities guaranteed by the United States Government either directly or indirectly; or (b) repurchase agreements fully collateralized by securities described in (a) above; or in shares of an open-end, no-load fund administered by an investment company whose investments are in securities described in (a) above and repurchase agreements described in (b) above. Also, SDCL 4-5-9 requires that investments shall be in the physical custody of the political subdivision or may be deposited in a safe-keeping account with any bank or trust company designated by the political subdivision as its fiscal agent. As of June 30, 2019, the school districts investments consist of certificates of deposit.

As of June 30, 2021, the School District did not have any investments. The investments reported in the financial statements consist of only certificates of deposit.

Interest Rate Risk – The school district does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk – State law limits eligible investments for the school district, as discussed above. The school district has no investment policy that would further limit its investment choices.

Concentration of Credit Risk – The School District places no limit on the amount that may be invested in any one issuer. The school district does not have any investments with an external investment pool as of June 30, 2021.

Assignment of Investment Income – State law allows income from deposits and investments to be credited to either the General Fund or the fund making the investment. The District's policy is to credit all income from deposits and investments to the General Fund except the Food Service Fund. USGAAP, on the other hand, requires income from deposits and investments to be reported in the fund whose assets generated that income. Where the governing board has discretion to credit investment income to a fund other than the fund that provided the resources for investments, a transfer to the designated fund is reported. Accordingly, in the fund financial statements, interfund transfers of investment earnings are reported, while in the government-wide financial statements, they have been eliminated, except for the net amounts transferred between governmental activities and business-type activities. These interfund transfers are not violations of the statutory restriction on interfund transfers.

NOTE 4 - RECEIVABLES AND PAYABLES

Receivables and payables are not aggregated in these financial statements. The School District expects all receivables to be collected within one year. No allowance for estimated uncollectible accounts has been established, as the School District believes all receivables are ultimately collectable.

NOTE 5 – INVENTORY

Inventory held for consumption is stated at cost.

Inventory for resale is valued at the lower of cost or market. The cost valuation method is the first in, first out method. Donated commodities are valued at estimated market value based on the USDA price list at date of receipt.

In the government-wide and in the enterprise fund financial statements, inventory items are initially recorded as assets and charged to expense in the various functions of government as they are consumed.

In the government fund financial statements, inventories in the General Fund and Special Revenue Funds consist of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are purchased. Reported inventories are equally offset by a nonspendable fund balance classification which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

NOTE 6 - PROPERTY TAXES

Property taxes are levied on or before each October 1, attach as an enforceable lien on property, and become due and payable as of the following January 1, and are payable in two installments on or before the following April 30 and October 31. The county bills and collects the School District's taxes and remits them to the School District.

School District property tax revenues are recognized to the extent that they are used to finance each year's appropriations. Revenue related to current year property taxes receivable which is not intended to be used to finance the current year's appropriations and therefore are not susceptible to accrual has been reported as deferred inflows of resources in both the fund financial statements and the government-wide financial statements. Additionally, in the fund financial statements, revenue from property taxes may be limited by any amount not collected during the current fiscal period or within the "availability period".

NOTE 7 - CHANGES IN CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2021 is as follows:

Capital Assets, not depreciated							
Land	\$	445,534.14	\$		\$	\$	445,534.14
Construction Work in Process	_	5,586,055.41	_	2,416,592.42	(7,981,352.92)		21,294.91

NOTE 8 - LONG-TERM LIABILITIES

A summary of the changes in long-term liabilities for the year ended June 30, 2021 is as follows:

Primary Government:	Balance June 30, 2020	Additions	Deletions	Balance June 30, 2021	One Year
Governmental Activities: Capital Outlay Certificates	\$ 15,690,000.00		\$ (2,715,000.00)	\$ 12,975,000.00	\$ 755,000.00
General Obligation Bonds	3,320,000.00		(1,025,000.00)	2,295,000.00	1,110,000.00
Leases		91,381.34	(29,552.47)	61,828.87	30,451,35
Early Retirement Payable	41,760,00	46,880.00	(13,920.00)	74,720.00	29,546.66
Other Post-Employment Benefits	511,048.00	173,379.00	(7,574.00)	676,853.00	
Total Governmental Activities	\$ 19,562,808.00	\$ 311,640.34	\$ (3,791,046.47)	\$ 16,083,401.87	\$ 1,924,998.01

Compensated absences, early retirement benefits and other post-employment benefits typically have been liquidated from the General Fund.

Liabilities payable at June 30, 2021 are comprised of the following:

Governmental Activities:

General Obligation Bonds:

Series 2019 General Obligation Refunding Bonds, Final maturity July 2023, Interest rates of .6 to 2.50%, dependent on the length to maturity of the bond. Payments from the High School Bond Redemption Fund.

\$ 2,295,000.00

Capital Outlay Certificates:

Series 2017A Capital Outlay Crossover Refunding Certificates. Final maturity in August 2030. Interest rates at 1.35 to 3.00%, dependent on the length to maturity. Payments from the Capital Outlay Fund.

2,400,000.00

Series 2017B Capital Outlay Refunding Certificates. Final maturity in August 2033. Interest rates at 1.20 to 3.00%, dependent on the length to maturity. Payments from the Capital Outlay Fund.

2,775,000.00

Series 2018 Capital Outlay Certificates. Final maturity in August 2038. Interest rates at 3.00 to 4.00%, dependent on the length to maturity. Payments from the Capital Outlay Fund.

7,800,000.00

Early Retirement Benefits:

Retirement benefits payable to participating employees; Semi-annual payments are made from the General Fund.

74,720.00

Other Post-Employment Benefits

Obligations to individuals who are retired or will retire from the School District and will receive post-employment benefits. Payments are made from the General Fund.

676,853.00

Leases:

Equipment Lease due in annual installments of \$31,889.76 including interest at 3%; Final maturity in June 2023; Payments from the Capital Outlay Fund.

61,828.87

The annual debt service requirements to maturity for all debt outstanding, other than other postemployment benefits, as of June 30, 2021 are as follows:

Year			Ge	neral	
Ending	Capital	Outlay	Obligati	on Bonds	
June 30,	Certifi	cates	Pa	yable	<u></u>
	Principal	Interest	Principal	Interest	
2022	\$ 755,000	\$ 400,263	\$1,110,000	\$ 91,800	
2023	740,000	379,840	1,185,000	47,400	
2024	720,000	359,946

	\$ 74,721	\$ 61,829	\$ 1,950	\$ 15,406,549	\$ 3,756,642

In prior years the School District defeased certain long-term debt by placing the proceeds of new debt in an irrevocable trust to provide for all future debt service payments on the old debt. On July 15, 2020, the School District had \$2,331,609.84 on deposit with the escrow agent in this irrevocable trust to retire \$2,345,000.00 of old debt still outstanding, therefore the old debt is now considered to be defeased.

NOTE 9 - INDIVIDUAL FUND INTERFUND RECEIVABLE AND PAYABLE BALANCES

Fund	Interfund Receivables	Interfund Payables
General Fund Food Service Fund	\$ 735.31	\$ 735.31
Total	\$ 735.31	\$ 735.31

During the fiscal year 2021, the general fund will transfer an amount to the Food Service Fund per short term agreement.

NOTE 10 - RESTRICTED NET POSITION

The following table shows the net position restricted as shown on the Statement of Net Position:

Major Purposes:	Restricted By:	Amount:
Capital Outlay Purposes	Law	\$ 1,625,692.98
Special Education Purposes	Law	626,236.51
Health Insurance Purposes	Law	75,400.00
Activity Purposes	Donor Stipulation	31,373.44
Debt Service Purposes	Debt Covenants	240,718.41
SDRS Pension Purposes	Law	368,900.06
Total Restricted Net Position:		\$ 2,968,321.40

NOTE 11 - INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2021 were as follows:

	Transfers to:			
Transfer From:		General Fund	Food Service Fund	
Capital Outlay Fund Special Education Fund High School Bond Redemption Fund OST/Preschool Fund	\$	11,341.21 5,790.39 8,274.12 3,152.51	\$ 28,809.00	
	\$	28,558.23	\$28,809.00	

The School District typically uses transfers to transfer earnings on deposits and investments to the General Fund from the other funds. The Capital Outlay Fund purchased equipment for the Food Service Fund.

NOTE 12 - PENSION PLAN

Plan Information:

All employees, working more than 20 hours per week during the school year, participate in the South Dakota Retirement System (SDRS), a cost sharing, multiple employer defined benefit pension plan administered by SDRS to provide retirement benefits for employees of the State of South Dakota and its political subdivisions. The SDRS provides retirement, disability, and survivors' benefits. The right to receive retirement benefits vests after three years of credited service. Authority for establishing, administering and amending plan provisions are found in SDCL 3-12. The SDRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at http://www.sdrs.sd.gov/publications/ or by writing to the SDRS, P.O. Box 1098, Pierre, SD 57501-1098 or by calling (605) 773-3731.

Benefits Provided:

SDRS has three different classes of employees, Class A general members, Class B public safety and judicial members, and Class C Cement Plant Retirement Fund members.

Members that were hired before July 1, 2017, are Foundation members. Class A Foundation members and Class B Foundation members who retire after age 65 with three years of contributory service are entitled to an unreduced annual retirement benefit. An unreduced annual retirement benefit is also available after age 55 for Class A Foundation members where the sum of age and credited service is equal to or greater than 85 or after age 55 for Class B Foundation judicial members where the sum of age and credited service is equal to or greater than 80. Class B Foundation public safety members can retire with an unreduced annual retirement benefit after age 55 with three years of contributory service. An unreduced annual retirement benefit is also available after age 45 for Class B Foundation public safety members where the sum of age and credited service is equal to or greater than 75. All Foundation retirements that do not meet the above criteria may be payable at a reduced level.

Members that were hired on/after July 1, 2017 are Generational members. Class A Generational members and Class B Generational judicial members who retire after age 67 with three years of contributory service are entitled to an unreduced annual retirement benefit. Class B Generational public safety members can retire with an unreduced annual retirement benefit after age 57 with three years of contributory service. At retirement, married Generational members may elect a single-life benefit, a 60 percent joint and survivor benefit, or a 100 percent joint and survivor benefit. All Generational retirement benefits that do not meet the above criteria may be payable at a reduced level. Generational members will also have a variable retirement account (VRA) established, in which they will receive up to 1.5 percent of compensation funded by part of the employer contribution. VRAs will receive investment earnings based on investment returns.

Legislation enacted in 2017 established the current COLA process. At each valuation date:

- Baseline actuarial accrued liabilities will be calculated assuming the COLA is equal to long-term inflation assumption of 2.25%.
- If the fair value of assets is greater or equal to the baseline actuarial accrued liabilities, the COLA will be:
 - o The increase in the 3rd guarter CPI-W, no less than 0.5% and no greater than 3.5%.
- If the fair value of assets is less than the baseline actuarial accrued liabilities, the COLA will be:
 - o The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than a restricted maximum such that, that if the restricted maximum is assumed for future COLAs, the fair value of assets will be greater or equal to the accrued liabilities.

All benefits except those depending on the Member's Accumulated Contributions are annually increased by the Cost-of-Living Adjustment.

Contributions:

Per SDCL 3-12, contribution requirements of the active employees and the participating employers are established and may be amended by the SDRS Board. Covered employees are required by state statute to contribute the following percentages of their salary to the plan; Class A Members, 6.0% of salary; Class B Judicial Members, 9.0% of salary; and Class B Public Safety Members, 8.0% of salary. State statute also requires the employer to contribute an amount equal to the employee's contribution. The School District's share of contributions to the SDRS for the fiscal years ended June 30, 2021, 2020, and 2019, were \$391,385.53, \$353,533.26, and \$344,871.87, respectively, equal to the required contributions each year.

<u>Pension Liabilities (Assets), Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions:</u>

At June 30, 2020, SDRS is 100.04% funded and accordingly has a net pension asset. The proportionate shares of the components of the net pension asset of South Dakota Retirement

System, for the School District as of the measurement period ending June 30, 2020 and reported by the School District as of June 30, 2021 are as follows:

Proportionate share of pension benefits	\$ 33,004,393.45
Less proportionate share of net pension restricted for pension benefits	 33,016,053.54
Proportionate share of net pension benefits	\$ (11,660.09)

At June 30, 2021, the School District reported an asset of \$11,660.09 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2020 and the total pension liability (asset) used to calculate the net pension liability (asset) was based on a projection of the School District's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2020, the School District's proportion was .26848130%, which is a decrease of .0018530% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the School District recognized pension expense (reduction of expense) of \$503,866.49. At June 30, 2021, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources		
Difference between expected and actual experience	\$	44,606.20	\$	9,134.21	
Changes in assumption		375,580.72		1,514,738.17	
Net difference between projected and actual earnings on pension plan investments		1,083,748.31			
Changes in proportion and difference between District contributions and proportionate share of contributions		15,730.60		29,939.01	
District contributions subsequent to the measurement date		391,385.53	_		
TOTAL	\$	1,911,051.36	\$	1,553,811.39	

\$391,385.53 reported as deferred outflow of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

Year	Ended	June	30.
1 501	LIIUCU	Julie	JU.

(19,937.14)
02,040.00
16,391.52
03,778.84)
34,589.81)
1

Actuarial Assumptions:

The total pension liability (asset) in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.25 percent

Salary Increases 6.50% at entry to 3.00% after 25 years of service

Investment Rate of Return 6.50% net of plan investment expense

Future COLAs 1.41%

Mortality rates were based on 97% of the RP-2014 Mortality Table, projected generationally with Scale MP-2016, white collar rates for females and total dataset rates for males. Mortality rates for disabled members were based on the RP-014 Disabled Retiree Mortality Table, adjusted to 2006 and projected generationally with Scale MP-2016.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period of July 1, 2011 to June 30, 2016.

Investment portfolio management is the statutory responsibility of the South Dakota Investment Council (SDIC), which may utilize the services of external money managers for management of a portion of the portfolio. SDIC is governed by the Prudent Man Rule (i.e., the council should use the same degree of care as a prudent man). Current SDIC investment policies dictate limits on the percentage of assets invested in various types of vehicles (equities, fixed income securities, real estate, cash, private equity, etc.). The long-term expected rate of return on pension plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2020 (see the discussion of the pension plan's investment policy) are summarized in the following table using geometric means:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	58.0%	5.1%
Fixed Income	30.0%	1.5%
Real Estate	10.0%	6.2%
Cash	2.0%	1.0%
Total	100.0%	

Discount Rate:

The discount rate used to measure the total pension liability (asset) was 6.5 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that matching employer contributions from will be made at rates equal to the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability (asset).

Sensitivity of liability (asset) to changes in the discount rate:

The following presents the School District's proportionate share of net pension liability (asset) calculated using the discount rate of 6.50%, as well as what the School's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower (5.50%) or 1-percentage point higher (7.50%) than the current rate:

	Current				
		1%		Discount	1%
		Decrease		Rate	Increase
School District's proportionate share of the					
net pension liability (asset)	\$	4,523,342.22	\$	(11,660.09) \$	(3,721,202.66)

Pension Plan Fiduciary Net Position:

Detailed information about the plan's fiduciary net position is available in the separately issued SDRS financial report.

NOTE 13 - POSTEMPLOYMENT HEALTHCARE PLAN

Plan Description: Lennox School District has a pooled defined benefit medical plan administered by either the Sanford Health Plan or DakotaCare. The Plan provides medical and prescription drug insurance benefits to eligible retires and their spouses. After eligibility for retiree benefits is established, retirees must pay premiums until they are eligible for Medicare. SDCL 6-1-16 specifically allows any school district to provide health insurance for retiring employees and their immediate families. The liability exists because of an implicit subsidy of costs of the benefits to retirees of the district. The Plan issues a publicly available actuarial report that includes required supplementary information. That report may be obtained by writing to the Lennox School District, P.O. Box 38, Lennox, SD 57039 or by calling 1 (605) 647-2202.

Funding Policy: The district funds the postemployment benefits on a pay-as-you-go basis. Because the district does not use a trust fund to administer the financing of other postemployment benefits, no separate financial statements are required.

Employees covered by benefit terms: At June 30, 2021, the following employees were covered by the benefit terms:

Retirees currently receiving benefit payments	4
Active employees	138
	142

Actuarial Methods and Assumptions: Where consistent with the terms of the plan, actuarial assumptions have utilized the assumptions for the South Dakota Retirement System (SDRS as provided in the June 30, 2020 Actuarial Valuation Report. See Note 12 – Pension Note.

Changes in the Total OPEB Liability:

Beginning of Year Balances	\$	511,048
Service Cost		69,323
Interest		20,182
Effect of assumptions changes or inputs		83,874
Benefit payments	_	(7,574)
End of Year Balances	\$	676,853

Sensitivity of liability (asset) to changes in the discount rate:

The following presents the total OPEB liability of the District calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate of 2.21%:

		Current				
		1%				1%
		<u>Decrease</u>		Rate		<u>Increase</u>
Total OPEB Liability	\$	769,761.00	\$	676,853.00	\$	598,753.00

For the year ended June 30, 2021, the School District recognized OPEB expense of \$83,529. At June 30, 2021 the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	 Deferred Outflows of Resources		Deferred Inflows of Resources	
Changes in assumption	\$ 97,100.00	\$	126,593.00	

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense (revenue) as follows:

Year Ended June 30:	
2022	\$ (5,976.00)
2023	(5,976.00)
2024	(5,976.00)
2025	(5,976.00)
2026	(5,976.00)
Thereafter	 387.00
TOTAL	\$ (29,493.00)

NOTE 14 - JOINT VENTURES

The school district participates in the East Dakota Educational Cooperative, a cooperative service unit (co-op) formed for the purpose of providing education services to the member school districts.

The members of the co-op and their relative percentage participation in the co-op are as follows:

Lennox	15.0%
Brandon Valley	65.0%
West Central	20.0%

The co-op's governing board is composed of one representative from each member school district, who is also a school board member. The board is responsible for adopting the co-op's budget and setting service fees at a level adequate to fund the adopted budget.

The school district retains no equity in the net position of the co-op, but does have a responsibility to fund deficits of the co-op in proportion to the relative participation described above.

At June 30, 2021, this joint venture had total assets of \$2,395,295.79, total deferred outflows of 787,759.81, total liabilities of \$711,141.87, total deferred inflows of 608,028.24, and net position of \$1,863,885.49 in the General and Special Education Funds.

NOTE 15 - RISK MANAGEMENT

The school district is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the period ended June 30, 2021, the school district managed its risks as follows:

Employee Health Insurance:

The School District joined the Northern Plains Insurance Pool. This is a risk pool currently operating as a common risk management and insurance program for local government entities. The school District pays a monthly premium to the pool to provide health insurance coverage for its employees. The pool purchases coverage from either Sanford Health Plan or DAKOTACARE Administrative Services with the premiums it receives from the members. The coverage includes the option of four different plans with a deductible from \$2,000 to \$4,000.

The School District does not carry additional health insurance coverage to pay claims in excess of this upper limit. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Liability Insurance

The school district purchases liability insurance for risks related to torts; theft or damage to property; and errors and omissions of public officials from a commercial insurance carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Worker's Compensation

The school district purchase liability insurance for worker's compensation from a commercial carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Unemployment Benefits

The school has elected to be self-insured and retain all risk for liabilities resulting from claims for unemployment benefits.

The school district has assigned equity in the General Fund in the amount of \$4,193.58 for the payment of future unemployment benefits.

During the year ended June 30, 2021, no claims for unemployment benefits were paid. At June 30, 2021, no claims had been filed for unemployment benefits and none are anticipated in the next fiscal year.

NOTE 16 - EARLY RETIREMENT PLAN

The district maintains an early retirement plan for certified teachers and administrators. The plan is available to employees who choose early retirement between the ages of 54 and 61 for teachers or 55 and 64 for administrators and have at least fifteen years of continuous service with the district. Under the plan, the district will pay 80% of the current salary contract. Such amounts are payable in six equal installments, spread over the next three years following retirement. The district uses the expected future benefit payment amounts as the method for disclosure. During fiscal year 2021, 2 employees participated in the early retirement plan. The amount paid for such benefits during the year was \$13,920.

NOTE 17 - SIGNIFICANT CONTINGENCIES - LITIGATION

At June 30, 2021, the School District was not involved in any litigation.

NOTE 18 - IMPLEMENTATION OF NEW STANDARD AND RESTATEMENT

As of June 30, 2021, the School District implemented GASB Statement No 84, *Fiduciary Activities* (GASB 84). Certain agency funds previously accounted for activities that are not considered fiduciary in nature and are now reported in the General Fund and Capital Outlay Fund.

The School District restated the net position and fund balance of the General Fund and Capital Outlay Fund indicated below to appropriately reflect the July 1, 2020 balances as follows:

General Fund		
Net position at June 30, 2020, as previously stated	\$	2,134,158.69
Restatement - Implementation of GASB 84	_	36,485.43
Net Position July 1, 2020 As Restated	\$	2,170,644.12
Capital Outlay		
Net position at June 30, 2020, as previously stated	\$	3,727,329.57
Restatement - Implementation of GASB 84	_	13,404.92
Net Position July 1, 2020 As Restated	\$	3,740,734.49
Governmental Activities		
Net position at June 30, 2020, as previously stated	\$	18,437,280.75
Restatement - Implementation of GASB 84	_	49,890.35
Net Position July 1, 2020 As Restated	\$	18,487,171.10
Custodial Funds		
Net position at June 30, 2020, as previously stated	\$	0.00
Restatement - Implementation of GASB 84	_	74,378.19
Net Position July 1, 2020 As Restated	\$	74,378.19

LENNOX SCHOOL DISTRICT NO. 41-4 NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION Schedules of Budgetary Comparisons for the General Fund and for each major Special Revenue Fund with a legally required budget

NOTE 1 – BUDGET AND BUDGETARY ACCOUNTING

The School District followed these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Prior to the first regular board meeting in May of each year the school board causes to be prepared a proposed budget for the next fiscal year according to the budgetary standards prescribed by the Auditor General.
- 2. The proposed budget is considered by the school board at the first regular meeting held in the month of May of each year.
- 3. The proposed budget is published for public review no later than July 15 each year.
- 4. Public hearings are held to solicit taxpayer input prior to the approval of the budget.
- 5. Before October 1 of each year, the school board must approve the budget for the ensuing fiscal year for each fund, except fiduciary funds.
- 6. After adoption by the school board, the operating budget is legally binding and actual expenditures of each fund cannot exceed the amounts budgeted, except as indicated in number 8.
- 7. A line item for contingencies may be included in the annual budget. Such a line item may not exceed 5 percent of the total school district budget and may be transferred by resolution of the school board to any other budget category, except for capital outlay, that is deemed insufficient during the year.
- 8. If it is determined, during the year, that sufficient amounts have not been budgeted, state statute allows the adoption of supplemental budgets when moneys are available to increase legal spending authority.
- 9. Unexpended appropriations lapse at year-end unless encumbered by resolution of the school board.
- 10. Formal budgetary integration is employed as a management control device during the year for the General Fund and special revenue funds.
- 11. Budgets for the General Fund and each major special revenue fund are adopted on a basis consistent with generally accepted accounting principles (GAAP).

NOTE 2 - GAAP/BUDGETARY ACCOUNTING BASIS DIFFERENCES

The financial statements prepared in conformity with USGAAP present capital outlay expenditure information in a separate category of expenditures. Under the budgetary basis of accounting, capital outlay expenditures are reported within the function to which they relate. For example, the purchase of a new school bus would be reported as a capital outlay expenditure on the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances, however in the Budgetary RSI Schedule, the purchase of a school bus would be reported as an expenditure of the Support Services- Business/Pupil Transportation function of government, along with all other current Pupil Transportation related expenditures.

LENNOX SCHOOL DISTRICT NO. 41-4 NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION Schedules of the Proportional Share of the Net Pension Liability (Asset) and Schedule of Contributions

Changes from Prior Valuation

The June 30, 2020 Actuarial Valuation reflects no changes in actuarial methods from the June 30, 2019 Actuarial Valuation. One change in actuarial assumptions and two plan provision changes are reflected and described below.

The details of the changes since the last valuation are as follows:

Benefit Provision Changes

Legislation enacted in 2020 established a Qualified Benefit Preservation Arrangement (QBPA) under Section 415(m) of the Internal Revenue Code (IRC). The QBPA is effective July 1, 2020 and pays a portion of SDRS benefits that are restricted by IRC Section 415(b). The total benefits paid from SDRS and the QBPA will be limited to the applicable 415(b) annual limit, unreduced for early commencement if Members retire prior to age 62 and actuarially increased for late retirement up to age 70 if Members retire after age 65. The Actuarial Valuation considers benefits payable from both SDRS and the QBPA.

Legislation enacted in 2020 also brought the assets and the liabilities of the South Dakota Department of Labor and Regulation Plan into SDRS effective July 1, 2020. With the exception of the accounting results presented in Section 6 of this report, all exhibits include the assets, liabilities, and member counts of the former Department of Labor and Regulation Plan Members.

Actuarial Assumption Changes

The SDRS COLA equals the percentage increase in the most recent third calendar quarter CPI-W over the prior year, no less than 0.5% and no greater than 3.5%. However, if the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (currently 2.25%) is less than 100%, the maximum COLA payable will be limited to the increase that if assumed on a long-term basis, results in a FVFR equal to or exceeding 100%. That condition existed as of June 30, 2019 and exists again this year as of June 30, 2020. Future COLAs are assumed to equal the current restricted maximum COLA which was 1.88% as of June 30, 2019 and is 1.41% as of June 30, 2020.

The changes in actuarial assumptions due to the 1.41% restricted maximum COLA decreased the Actuarial Accrued Liability by \$595 million, or 4.6% of the Actuarial Accrued Liability based on the 1.88% restricted maximum COLA.

Actuarial assumptions are reviewed in depth periodically, with the next experience analysis anticipated before the June 30, 2022 Actuarial Valuation and any recommended changes anticipated to be first implemented in the June 30, 2022 Actuarial Valuation.

Actuarial Method Changes

No changes in actuarial methods were made since the prior valuation.

LENNOX SCHOOL DISTRICT NO. 41-4 SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS (continued) FOR THE YEAR ENDED JUNE 30, 2021

Note 1: Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the School District under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the School District.

Note 2: Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. The School District has elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 3: Federal Reimbursement

Federal reimbursements are not based upon specific expenditures. Therefore, the amounts reported here represent cash received rather than federal expenditures.

Note 4: Major Federal Financial Assistance Program

This represents a Major Federal Financial Assistance Program.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

School Board Lennox School District No. 41-4 Lincoln County, South Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lennox School District No. 41-4, Lincoln County, South Dakota, as of June 30, 2021 and for the year then ended, and the related notes to the financial statements, which collectively comprise Lennox School District's basic financial statements and have issued our report thereon dated February 8, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of Lennox School District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lennox School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Lennox School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

School Board Lennox School District No. 41-4 Lincoln County, South Dakota

Report on Compliance for Each Major Federal Program

We have audited the Lennox School District No. 41-4, South Dakota (School District) compliance with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021. The Lennox School District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Current Audit Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the comptroller General of the United States; and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).* Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the Lennox School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Lennox School District No. 41-4, Lincoln County, South Dakota complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the Lennox School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Lennox School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Lennox School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purposes. As required by South Dakota Codified Law 4-11-11, this report and our report on compliance for each major federal program are matters of public record and their distribution is not limited.
