Garden Valley Schools Baseball Field Construction

- Optimal site is behind and to the left of the football field bleachers (See attached sketch)
- Surveying complete with layout of the field for optimum drainage and site orientation
- Adequate dirt is available on the property for excavation requirements for proper drainage
- Current slope of land requires additional dirt to bring the slope up to an acceptable drainage rate over the length of the baseball field (see attached quote on excavation for \$19,150)
- State Dept of Education has approved up to \$19,750 for excavation of the new field from ESSER funds
- After initial excavation to create proper drainage and slope of the property, we will begin securing quotes for the construction of ---
 - the infield grass area
 - the outfield grass area
 - sprinkler installation
 - fencing
 - dugouts
 - electricity supply points for scoreboard, loudspeakers, etc...
- We have already secured a donation of block for the construction of dugouts & backstop
- Working with contractors now for donation of labor for dugout and backstop construction
- We have raised funds in excess of \$30,000 for our baseball program (see attached fundraising list)
- We have start-up expenditures for equipment and uniforms in excess of \$17,000 (see attached list)
- Currently approximately \$13,000 will be available for use on the construction of the field.
- Fundraising efforts will continue
- The first and important step is to get the excavation completed so that we have a site to work with
- We will keep the board completely apprised of our progress
