Minutes

Mrs. Nelson went over our mid-year data for our Trustlands goal. We are on track to meet our goals!

After talking with teachers, Mrs. Nelson proposed that in the coming year we shift our goal from BEPAST/BEPA data, which has looked really good over the last few years, to an Acadience goal. This is where the teachers and Mrs. Nelson would like to focus their attention. Mrs. Nelson discussed writing a growth goal by taking the average of the last three years' worth of data and adding 3-5%.

Bradi Holder, Willard's instructional coach, was a visitor to the meeting. She shared what the instructional paraprofessionals do and how valuable they are to helping meet student need and our Trustlands goals. Mrs. Nelson proposed that we continue putting our Trustlands money towards paraprofessionals.

Mrs. Nelson will draft a Trustlands plan for the council to review at our next meeting.

Next meeting: writing Trustland plan for the coming year.
