A new possible member at large within arts commission

Discipline:

When able to be handled, handled with restorative circles, remediation, meetings with counselor, and tier 2 pull outs. If policy mandates otherwise, we do follow through with policy. Kids are excited to be back, so there is an uptick in behaviors, but we are handling everything on a case by case basis and encouraging students to report to us and come to us with concerns. We can't address what we don't know, so keeping us informed is very important.

Policy:

At this time there are no additional recommendations to the 2000s policies.

Communication:

Currently using apptegy and social media as well as Schoology. Made aware of 9/28 family fun night with an LSIC table as well as the mums sale.

Attendance:

Attendance is low due to quarantines and regular illnesses. Discussed Schoology as well as how quarantines are coded. Students are able to reach out via schoology for help hours and google meets as needed.

Additions:

Discussed makerspace and upcoming tours as well as Unique Robinson, new social worker. Next scheduled meeting for 11/22. Will be notified with invitation via email.
