Job Description: BISD is searching for an engaging nursing educator to be responsible for the education of current and future nursing students. A nurse educator is responsible for designing and presenting curriculum, teaching and guiding students in the health field.

Nurse Educator Responsibilities:

- Supervise a group of students in a variety of clinical settings, facilitate learning in order for students to become certified in CNA, Phlebotomy, EKG and other qualified certifications
- Teach procedures and protocols during class to ensure mastery of certifications
- Designing, delivering and evaluating educational curriculum
- Documenting student progress and advising them on their educational journey
- Researching and remaining current on clinical practices
- Preparing students to receive certifications
- Taking part of campus activities and events
- Act as a mentor and role model for students aspiring to be part of the medical community

Nurse Educator Requirements:

- A nursing License
- A strong clinical background
- A working knowledge of certifications offered in the Nursing Science Program of study
- Excellent communication, critical thinking, and leadership skills
