CONSTRUCTION CAREERS* (CTE Dual Credit Available)

AM SESSION 2 Semesters/3 HS Credits

PM SESSION 2 Semesters/3 HS Credits

Construction Careers prepares students for entry-level positions in the construction industry. This course combines theory and hands-on experiences that culminate in preparation for the workplace.

- Learn cost estimating, hand and power tool operation, blueprint reading, building code requirements, site preparation, footing and foundation construction, floor and ceiling construction, walls and partition framing, roof frame construction, and exterior finish
- Second year students hone skills in residential electrical and plumbing fundamentals, stair construction, energy conservation, and commercial carpentry
- Learn essential safety standards, industry expectations, and leadership skills

Career Opportunities: Skilled Craftsperson, Contractor, Construction Management, Surveyor, Architect, Engineer.

***Optional 2-year program**
