76 Family Court authorizes to receive or review the record.

SYNOPSIS

This Act permits multidisciplinary team members to share information freely amongst themselves to better protect the welfare of abused children in the State of Delaware. This Act also establishes a framework for parties in Family Court civil proceedings to have access to records created and maintained by a child advocacy center related to forensic interviews it conducts such that the Family Court can utilize those records to avoid retraumatizing children by having to interview them again as part of court proceedings.
