

**For All Ages:** Oceans are massive bodies of water that are teeming with plant and animal life still waiting to be discovered. We could say the same about your local library. It contains books of many genres and authors. Some you have read and become familiar with, but what about those you have not tried? This summer it is time to broaden your horizons and explore other parts of your library. We are challenging patrons of ALL AGES to

Read 26 books. Each book should have an author's name representing a different letter of the alphabet. Pick up your form at the library to track your way through the alphabet.

### *Young Author's Workshop*

*Be the author and illustrator of your own hardcover book! Our Young Author's Workshop is back by popular demand. The library has added two large technology embedded tables so you can spread your supplies out and get creative. Stop in and work on your book anytime during library hours, or work on it at home and bring it in to the library to be published.*

### For PK-6<sup>th</sup> Grade
