5 Use of Federal Title I Funds

6

7 The School District will ensure that federal Title I funds, are used only to supplement, and not
8 supplant, state and local funds that would, in the absence of federal funds, be spent on Title I
9 programs, or services supported by federal funds.

10

11 Title I funds will not take the place of funds supporting education services that are to be provided
12 to all students. The School District uses Title I funds only to supplement funds that would, in the
13 absence of Title I funds, be made available from state and local non-Federal sources for the
14 education of children participating in Title I programs.

5 Use of Federal Title I Funds Methodology

6
7 In accordance with the Every Student Succeeds Act (ESSA), the School District has adopted this
8 procedure to ensure that Title I-A federal funds are supplementing District resources and not
9 supplanting District resources. The procedure documents that the School District's neutrally
10 determined distribution of state and local funds to each school within the boundaries of the
11 School District is in compliance with federal law.

12
13 School District is a district with multiple schools per grade spans and adopts this methodology in
14 accordance with ESSA. For the purposes of this methodology elementary means grades K-8 and
15 secondary means grades 9-12.

16
17 The School District determines the resource allocation on total enrollment for each school as if
18 the state and local funds are the only resources each school is receiving. Each school is given
19 additional allocations for other needs such as technology, supplies, and additional necessary
20 costs.

21
22 The School District groups schools by elementary or secondary grade span. Each grade span may
23 receive a different per student amount, but all schools are treated the same whether or not these
24 schools are served under Title I-A.
