

### ***TRACY RICHEY – Paris School Board***

I was born in Ozark and raised in Paris, AR. My husband is Jason Richey, a family physician at Cooper Clinic in Paris. I work at home, raising my three children. Two of my children attend Paris Schools and the oldest is a graduate of Paris School District. Jason and I both graduated from Paris Schools and both graduated from Arkansas Tech University in Russellville. At ATU, I obtained a bachelor's degree in Elementary Education. I obtained my Master's Degree in elementary counseling from the University of Central Arkansas in Conway. Prior to having my own children, I was a kindergarten teacher for seven years in North Little Rock and Jonesboro. I have been on the Paris School Board for 19 years. I believe learning is life-long and begins at birth. Every decision I make as a school board member is based on what I believe is best for our children.
