- 2.) Open ConnectEd then click on and open the Teacher Edition:

Below the header, there are two main sections: "Leveled Reader Library Teacher Edition" and "Leveled Reader Library Student Edition". Each section has a "Manage Content" link with a gear icon. Below these, there's a section for "Wonders Grade 2 Teacher Edition" which is highlighted with a red box. A large red arrow points from this box to the right. At the bottom, there's a note: "Additional content is active for this program."

4.) In the top navigation, hover over “Manage & Assign” then select “Class Details”

5.) In the next page that opens up, make sure you’re still in the old class you want to remove and under the “class details” tab. Click the “remove” button on the right hand side. Wonders will prompt you, if you’re sure you want to remove this class. Click OK.

6.) After, just refresh the window and you’ll notice you are now in the current class and that last year’s class is removed from the drop down.
