1pm-Done	Occohannock Elementary	Clinic	register here

Dear NCPS Parents, Guardians and Staff,

As a school division we will be offering weekly Covid-19 testing to all our students and staff. This program is completely **voluntary**, and you are not required to test to attend school this year 22-23!

Therefore, if you would like to sign up:

Staff: please use the link associated with your school to create a profile and register
Parents/Guardians: please use the link for your student’s school to create a profile and register them

Students and Staff can be tested every week, every other week, or once a month.
The testing program will begin Thursday, September 8, 2022

At any time if testing is no longer wanted you can be withdrawn from the program without the need to cancel the registration. Simply contact the school clinic and ask for the name to be removed from the location testing list.

Northampton County Public Schools Phone Number – 757-678-5151
