State law requires all students to have their school entrance physical (PreK and K only) and immunizations (shots) up to date prior to original enrollment and progression into the applicable grade.

Immunization requirements and Physical forms are listed on the division website: school health tab

Immunizations are needed for students in grades PreK, K, 7th and 12th grade

PreK requires: Diphtheria, Tetanus, & Pertussis (DTaP, DTP, or Tdap), Hepatitis A (HAV), Hepatitis B, Haemophilus Influenzae Type b (Hib), Measles, Mumps, Rubella (MMR), Pneumococcal (PCV), Polio (IPV), and Varicella (Chickenpox)

K requires: A second shot of Measles, Mumps, & Rubella (MMR) and Varicella (Chickenpox)

7th grade requires: Diphtheria, Tetanus, & Pertussis (DTaP, DTP, or Tdap) booster, Meningococcal Conjugate (MenACWY), and Human Papillomavirus (HPV)

* For 7th graders the HPV shot can be declined by parent request.

Please see the informational education letter on the website

12th grade requires: A second shot of Meningococcal Conjugate (MenACWY)

*Students born between 9/30/2004 - 9/30/2009 may only have received one shot (due to the effective date of the requirement)

Please check with your child or children's medical provider to make sure they are up to date and have a copy of their immunizations (shot record) and physical (PreK and K only) either dropped off to their school or sent directly to the school from the office by fax prior to starting school in the fall.

Clinic contact information is listed on the website by school
