The Ione School District is one step closer to opening the Fitness Center to the community. In March, Alpine Alarm was able to complete installation of our security system, including security cameras, fiber connection, control panel installation, and card reader system.

We have received many donations and contributions for this entire project. Specifically for the security system, we received a grant from The Wildhorse Foundation, Morrow County Grain Growers, The Land O'Lakes Foundation, and ICABO. The security system cost over \$30,000, and we are thankful for all the support from the community and regional organizations that helped us fund this security system.

We will create procedures and protocols for community use of this facility, execute staff training on the card system, schedule an official ribbon cutting, and we will inform the community when we have our procedure in place to apply for a key card and be properly trained on safe use of the facility.

"Never doubt that a small group of thoughtful, committed citizens can change the world"
