### School Sports Pre-Participation Examination – Suggested Exam Protocol for Medical Provider Revised May 2017

#### MUSCULOSKELETAL

Have patient:

1. Stand facing examiner

2. Look at ceiling, floor, over shoulders, touch ears to shoulders

3. Shrug shoulders (against resistance)

4. Abduct shoulders 90 degrees, hold against resistance

5. Externally rotate arms fully

6. Flex and extend elbows

7. Arms at sides, elbows 90 degrees flexed, pronate/supinate wrists

8. Spread fingers, make fist

9. Contract quadriceps, relax quadriceps

10. "Duck walk" 4 steps away from examiner

11. Stand with back to examiner

12. Knees straight, touch toes

13. Rise up on heels, then toes

To check for:

AC joints, general habitus Cervical spine motion

Trapezius strength Deltoid strength Shoulder motion

Elbow motion

Elbow and wrist motion

Hand and finger motion, deformities
Symmetry and knee/ankle effusion

Hip, knee and ankle motion Shoulder symmetry, scoliosis Scoliosis, hip motion, hamstrings Calf symmetry, leg strength

MURMUR EVALUATION – Auscultation should be performed sitting, supine and squatting in a quiet room using the diaphragm and bell of a stethoscope.

Auscultation finding of:

1. S1 heard easily; not holosystolic, soft, low-pitched

2. Normal S2

3. No ejection or mid-systolic click

4. Continuous diastolic murmur absent

5. No early diastolic murmur

6. Normal femoral pulses

(Equivalent to brachial pulses in strength and arrival)

Rules out

VSD and mitral regurgitation

Tetralogy, ASD and pulmonary hypertension Aortic stenosis and pulmonary stenosis

Patent ductus arteriosus
Aortic insufficiency
Coarctation

#### **CONCUSSION** -- When can an athlete return to play after a concussion?

After suffering a concussion, no athlete should return to play or practice on the same day. Previously, athletes were allowed to return to play if their symptoms resolved within 15 minutes of the injury. Studies have shown that the young brain does not recover that quickly, thus the Oregon Legislature has established a rule that no player shall return to play following a concussion on that same day and the athlete must be cleared by an appropriate health care professional before they are allowed to return to play or practice.

Graduated, Step-wise Return-to-Participation Progression: A medical release is required by ORS 336.485, ORS 417.875 before returning to participation.

- 1. <u>Symptom-Limited Activity</u>: Relative rest up to 48-72 hours. Allow low intensity physical and cognitive activity. May include staying home or limiting school hours and/or homework. Gradually reintroduce very light activity while limiting symptoms.
- 2. <u>Light Aerobic Exercise</u>: Walking or stationary bike at low to moderate intensity; no contact, resistance or weight training.
- 3. Sport Specific Exercise: Sprinting, dribbling basketball or soccer; no helmet or equipment, no head impact activities.
- 4. <u>Non-Contact Training</u>: More complex drills in full equipment. Weight training or resistance training may begin.

\*\*Before moving to the next stage, the athlete must be fully recovered, medically cleared, and in school full-time without accommodations.

- 5. Full-Contact Practice: Participate in normal full-contact training activities.
- 6. <u>Unrestricted Return-to-Participation / Full Competition</u>: Game play against opposing team.

The athlete should spend a minimum of one day at each step. If symptoms re-occur, the athlete must stop the activity and contact their athletic trainer or other health care professional. Depending upon the specific type and severity of the symptoms, the athlete may be told to rest for 24 hours and then resume activity one-step below the level when the symptoms occurred. Graduated progression applies to all activities including sports and PE classes.

### 581-021-0041 Form and Protocol for Sports Physical Examinations

- 1. The State Board of Education adopts by reference the form entitled "School Sports Pre-Participation Examination " dated April 2023 that must be used to document the physical examination and sets out the protocol for conducting the physical examination. The form may be used in either a hard copy or electronic format. Medical providers may use their electronic health records systems to produce the electronic form. Medical providers conducting physicals of students who participate in extracurricular activities in grades 7 through 12 must use the form.
- 2. If the form is produced from an electronic medical record, it must contain the following statement above the medical provider's signature line:

  This form is an exact duplicate of the current form required by the State Board of Education containing the same history questions and physical examination findings. I have also reviewed the "Suggested Exam Protocol".
- 3. Medical providers conducting physicals on or after May 1, 2018 and prior to May 1, 2023 must use the form dated May 2017.
- 4. Medical providers conducting physicals on or after May 1, 2023 and prior to May 1, 2024 may use either the form dated May 2017 or the form dated April 2023.
- 5. Medical providers conducting physicals on or after May 1, 2024 must use the form dated April 2023.

NOTE: The form can be found on the Oregon School Activities Association (OSAA) website at <a href="https://www.osaa.org/health-safety">https://www.osaa.org/health-safety</a>.
