#### Announcements from Principals

Meridian Elementary Principal, Sarah Barratt, shared that nine Elementary staff members traveled to New Orleans for the New Tech Conference and five were in attendance at the Board meeting. She stated that they worked very hard to prepare for the upcoming school year at this training but there is much more work to be done. She also stated that in June and July, the Elementary ran their Summer Book

Buddy program and had 50-60 students come and exchange their books for new reading material. Each student received 5 to 10 books, depending on reading level, in exchange for the ones they brought back.

Meridian Junior High Principal, Kent Boxey, shared that thirteen of the Junior High staff traveled to New Orleans for the New Tech Conference and a lot of work was completed during this training. He also stated that the Junior High parent loop is almost completed.

Meridian High School Principal, Patrick Malley, stated that several of the High School staff went to the training and that two staff members, Mike Bilina and Joshua Hook, actually facilitated training at the conference. He stated that there will be a District-wide 'Critical Friends Training' in a couple weeks and tours and parent meetings will begin soon for the upcoming New Tech classes.

#### **Announcements/Communications from Board Members/Student Rep. or Superintendent**

Superintendent Carmoney stated that based on previous discussions with the Board and after meeting with the staffing committee, there is a definite need for added Elementary support. Superintendent Carmoney then shared two pieces of information with the Board. One item listed a description of a Director of Instructional Services in which the person in this position would handle all Special Education Services and Programs as well as all Evaluations on Special Education and Title I staff. This person would also be the State and Federal Testing Coordinator and the Curriculum Coordinator with an emphasis on K-8 grades and math and reading. This person would also be involved with Grant Writing, District School Improvement, and PBL Instructional Support. Superintendent Carmoney is recommending current Elementary Principal, Sarah Barratt, for the position of Director of Instructional Services. The other item Superintendent Carmoney shared was a detailed description of what the District is looking for in an Elementary Principal. It listed that the Principal will provide leadership which will increase student achievement and create a culture of personal and professional growth for all. He stated that we are looking for a leader with a growth mindset who can lead a 21<sup>st</sup> Century School and lead the implementation of Project-Based Learning. The Principal would also develop and administer the general school routine and coordinate all activities within the school building as well as evaluating, counseling, and motivating staff toward performances to attain the educational goals of the District.

Superintendent Carmoney stated that the Elementary Job Posting will go up as soon as possible because of the timeline necessary to have the new Elementary Principal in place before the start of the new school year. He stated that there will be a committee of about half a dozen people; staff members, administrators, and at least one board member, to conduct the interviews and he plans to have a recommendation for the Board of Education at their meeting on August 11, 2014.

Motion by Mike Bowen, supported by Becky Hitsman, "I move to adjourn at 7:34 p.m."

Vote: 5 – yes, 0 – no. Motion Carried.
