

LEGO® WeDO Easter Egg Decorating Machine made by Robocik.eu®

Instruction #R201602

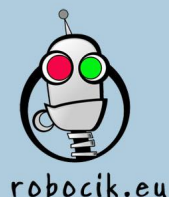

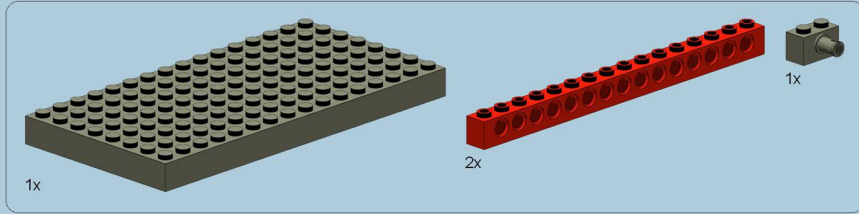

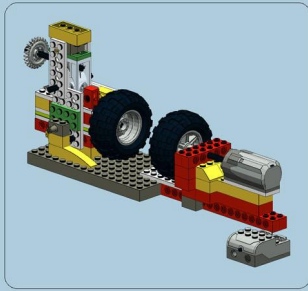

For this instruction you need basic WeDO set - 158 pcs
plus two extra tyres, best with Technic wheel rim.
I used here wheel rim 20 x 30 and tyre 26 / 56 - all from
Mindstorms NXT set.

However, in this instruction, based upon MLCad library,
you can see tyre 26 / 52 x 30 off road type.

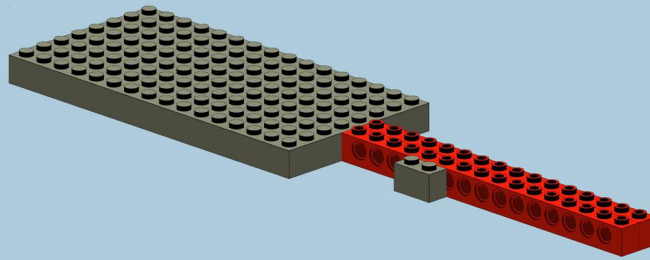

Should you have any questions or comments to this instruction,
feel free to contact me: krzysztof@robocik.eu
