

Dear Mattakeesett Parents and Students,

April 4th, 2022

We are beginning our study of weather! We are asking that students work on a project at home, due the week of May 23th. They will present it to the class the last week in May.

Following are some suggestions and potential topics, but please don't let these stop your creativity.

Virtually any type of project is acceptable as long as it enhances and deepens your child's understanding of the study of weather. Please call/e-mail us if you have any questions.

Katie and Lilly

<u>Possible Topics</u>	<u>Project Ideas</u>
Atmosphere	Make a collage
Weather	Video yourself giving a weather report
Seasons	Write a song or rap
Clouds	Make a mural
Typhoons	Create a sculpture of person/place/event
Hurricanes	Write a diary as though you were in an event
Water Cycle	Puppet show
Winds	Make a diorama
Weather Instruments	Make a poster
Blizzards	Create a map
Tornadoes	Research Report
Climate Zones	Write a script and dramatize an event
Biomes	Build a model, drawing
Weather Symbols	Write/recite a poem or passage
Predicting Weather	Book Report
Rain, Thunder, Lightning	Biography
Meteorology	Interview an expert
Historic Storms	Demonstration or experiment

Students should practice their presentation at home and be prepared to discuss the following:

- At least two resources were used to research their project.
- Materials that were used.
- Reasons for choosing their topic.
- Be able to answer who, what, where, when, and why questions that pertain to their projects.
- 2nd and 3rd years need a written report to accompany their project.

Please fill out the slip below and return it signed by Thursday, April 14th
