## INDEPENDENT AUDITOR'S REPORT

School Board  
Beresford School District No. 61-2  
Union County, South Dakota

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Beresford School District No. 61-2, Union County, South Dakota, as of June 30, 2021 and for the year then ended, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the Table of Contents.

### *Management's Responsibility for the Financial Statements*

The Beresford School District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Basis for Qualified Opinions***

Management has elected not to record their long-term financial obligations and commitments related to other postemployment benefits (OPEB) in the governmental activities Statement of Net Position. Accounting principles generally accepted in the United States of America require OPEB costs to be recognized and reported in a systematic, accrual-basis measurement over a period that approximates employees' years of service, which would most likely increase long-term liabilities and expenditures and decrease net assets in the governmental activities Statement of Net Position. Accounting principles generally accepted in the United States of America also require information to be provided about actuarial accrued liabilities associated with OPEB and whether, and to what extent, progress is being made in funding the plan. The amount by which this departure would affect the liabilities, net position and expenditures of the governmental activities is not reasonably determinable.

### ***Qualified Opinions***

In our opinion, except for the effects of not recording their long-term financial obligations and commitments related to OPEB as described in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities of Beresford School District No. 61-2 as of June 30, 2021, and the respective changes in financial position and, where applicable cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Unmodified Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, each major fund, and the aggregate remaining fund information of Beresford School District No. 61-2 as of June 30, 2021, and the respective changes in financial position and, where applicable cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedule, the Pension Schedules and the Management's Discussion and Analysis (MD&A), as listed in the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during the audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Supplementary Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Beresford School District's basic financial statements. The Schedule of Expenditures of Federal Awards, which is required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) listed in the Table of Contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated March 23, 2022, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

This section of Beresford School District 61-2's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ended on June 30, 2021. Please read it in conjunction with the District's financial statements, which follow this section.

### **FINANCIAL HIGHLIGHTS**

- COVID-19 was a major impact in school operations in FY21. The pandemic and return to learning plan changes along with mitigation efforts created unique challenges. Inflow of federal dollars assisted in efforts to improve instruction and emerge stronger, but consistent staffing and extended absences were challenges.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District's government, reporting the District's operations in more detail than the government-wide statements.
  - The governmental funds statements tell how general government services were financed in the short-term as well as what remains for future spending.
  - Proprietary fund statements offer short and long-term financial information about the activities that the District operates like businesses.
  - Fiduciary fund statements provide information about the financial relationships - like scholarship plans for graduating students - in which the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and relate to one another.

**Figure A-1**  
**Required Components of Beresford School's Annual Financial Statements**

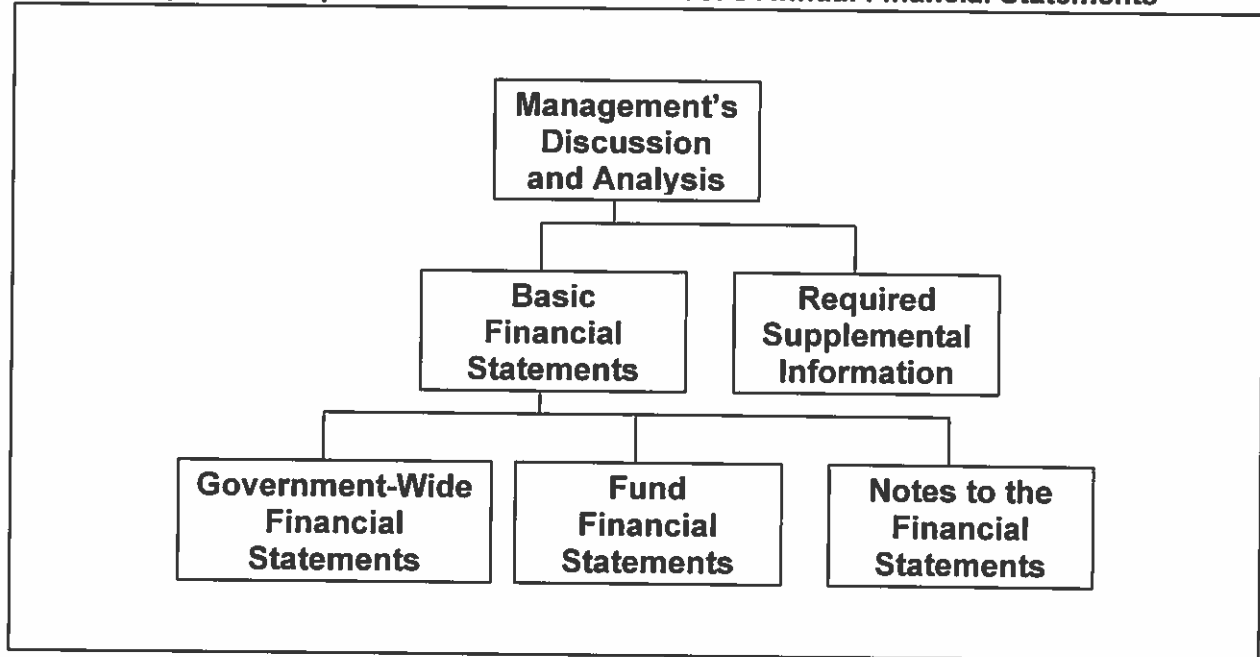

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's government covered and the types of information contained. The remainder of the overview section of the management's discussion and analysis explains the structure and contents of each of the statements.

**Figure A-2**  
**Major Features of Government-wide and Fund Financial Statements**

	Government-wide Statements	Governmental Funds	Fund Statements Proprietary Funds	Fiduciary Funds
<b>Scope</b>	Entire district (except fiduciary funds)	The activities of the School that are not proprietary or fiduciary, such as elementary and high school education programs.	Activities the School operates similar to private businesses, the food service operation.	Instances in which the School is the trustee or agent for someone else's resources.
<b>Required Financial Statements</b>	*Statement of Net Position *Statement of Activities	*Balance Sheet *Statement of Revenues, Expenditures and Changes in Fund Balances	*Statement of Net Position *Statement of Revenues, Expenses and Changes in Net Position *Statement of Cash Flow	*Statement of Fiduciary Net Position *Statement of Changes in Fiduciary Net Position

Accounting Basis and Measurement Focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of Asset/Liability Information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the School's funds do not currently contain capital assets although they can
Type of Inflow/Outflow Information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expense during year, regardless of when cash is received or paid

## Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how it has changed. Net Position – the difference between the District's assets and liabilities – is one way to measure the District's financial health or position.

- Increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District you need to consider additional nonfinancial factors such as changes in the District's property tax base and changes in the state school aid funding formula from the State of South Dakota.

The government-wide financial statements of the District are reported in two categories:

- **Governmental Activities** - This category includes the District's basic instructional services, such as elementary and high school educational programs, support services (guidance counselor, executive administration, board of education, fiscal services, etc.), debt service payments, extracurricular activities (sports, debate, music, etc.) and capital equipment purchases. Property taxes, state grants, federal grants, and interest earnings finance most of these activities.
- **Business-type Activities** - The District charges a fee to students to help cover the costs of providing hot lunch services to all students.

## **Fund Financial Statements**

The fund financial statements provide more detailed information about the District's most significant funds – not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- State Law requires some of the funds.
- The School Board establishes other funds to control and manage money for particular purposes (like the Scholarship Trust).

The District has three kinds of funds:

- **Governmental Funds** – Most of the District's basic services are included in the governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at the year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided at the bottom of the governmental funds statements, or on the subsequent page, that explains the relationship (or differences) between the fund financial statements and the government-wide statements.
- **Proprietary Funds** – Services for which the District charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both short- and long-term financial information.
- **Fiduciary Funds** – The District is the trustee, or fiduciary, for various external and internal parties. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

Percentage of Increase (Decrease) in Net Position	-6.51%	9.43%	0.30%	30.88%	-6.39%	9.84%

The Statement of Net Position reports all financial and capital resources. The statement presents the assets and liabilities in order of relative liquidity. The liabilities with average maturities greater than one year are reported in two components – the amount due within one year and the amount due in more than one year. The long-term liabilities of the school, consisting of compensated absences payable, early retirement benefits payable, general obligation bonds, and capital leases, have been reported in this manner on the Statement of Net Position. The difference between the District's assets and liabilities is its net position.

## GOVERNMENTAL ACTIVITIES

The ending net position of the governmental activities increased from FY20 to FY21 by 9.4%. Revenue increases resulted mostly in federal dollars resulting in the increase in net position. The FY20 decrease offset with the FY21 increase is a resulting increase much more in line with inflationary adjustments.

## BUSINESS-TYPE ACTIVITIES

COVID-19 impacted our business-type activities. Revenues for both the food service and driver education program were affected by the pandemic. The shift in food service was mostly local sources of revenue converted to federal sources because of federal aid to feed kids during the pandemic.

## **FINANCIAL ANALYSIS OF THE SCHOOL'S FUNDS**

The general fund balance increased by \$10,035.56 in FY21. Conservative budgeting and efforts to be competitive with staff wages, along with allowable capital outlay transfer resulted in a budget where the District had a slight surplus. COVID-19 and remote learning had some unforeseen expenses, but also some unforeseen savings on line items within the budget.

The capital outlay ending balance increased by \$196,568.71 from FY20 to FY21. There was a transfer from the capital outlay fund to general fund in the amount of \$110,000 rather than the \$150,000 that was budgeted. While the board hasn't formally earmarked or restricted the dollars within the capital outlay fund the intent is to use the available dollars on a future project.

The special education ending fund balance for FY20 of \$275,438.74 decreased \$423.82 to \$275,014.92 at the end of FY21. Student needs and staffing/services in this fund is an ongoing evaluation process.

## **BUDGETARY HIGHLIGHTS**

Over the course of the year, the School Board revised the School budget a couple of times. These amendments fall into two categories:

- Supplemental appropriations and contingency transfers approved for unanticipated, yet necessary, expenses to provide for items necessary for the education program of the district.
- Increases in appropriations, primarily by contingency transfer, to prevent budget overruns.

There was a budget amendment to shift allowable expenses typically paid from the general fund to the capital outlay and pension funds. Overall, revenues were close to what was expected and expenditures were kept at a minimum.

## CAPITAL ASSET ADMINISTRATION

Table A-3  
BERESFORD SCHOOL DISTRICT 61-2 - Capital Assets  
(Net of Depreciation)

	Governmental Activities			Business-Type Activities		
	FY2020	FY2021	Increase/ (Decrease)	FY2020	FY2021	Increase/ (Decrease)

### LONG-TERM DEBT

At year-end the District had \$2,342,568.28 in capital outlay certificates and other long-term obligations. Part of this debt is from the HVAC/boiler work completed at both the Elem and the MS/HS campuses in the summers of 2014 and 2015. The more recent debt acquisition is for the construction of a new bus barn. Currently the District has lease obligations for copiers that will expire in July 2022 and computer equipment that was retired in FY21.

	Governmental Activities		Total % Change
	FY2020	FY2021	
Capital Outlay Certificates	1,485,000.00	2,175,000.00	46.46%
Capital Acquisition Lease	200,897.53	22,003.99	-89.05%
Compensated Absences	103,541.55	145,564.29	40.59%
Total Long-Term Liabilities	<u>\$ 1,789,439.08</u>	<u>\$ 2,342,568.28</u>	
Net Increase (Decrease)			30.91%

The School is liable for the accrued vacation leave payable to the superintendent. The School is also liable for 1/3, was previously 1/4, of any unused sick leave to any employee who has worked for fifteen years or more for the School District.

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

For the general fund, one of the primary sources of revenue to the School was previously based on a per student allocation received from the State of South Dakota. This per-student allocation is based on student average daily membership (ADM). The state aid formula for FY16 ensured that property taxes plus state aid would equal \$4,876.76 per pupil. There was a new funding formula for FY17 based on a student to teacher ratio and that ratio will be on a sliding scale based on the number of students. The target average instructional staff salary for FY21 was \$51,367.47. The BSD worked to utilize the new dollars derived from the half-cent sales tax to be in compliance with the new legislation and boost instructional staff compensation. The District met its obligation in FY17, FY19, FY20 and FY21 and will continue to monitor revenues/expenditures and compliance going forward.

### Per Student Allocation

<u>FY2009</u>	<u>FY2010</u>	<u>FY2011</u>	<u>FY2012</u>	<u>FY2013</u>	<u>FY2014</u>	<u>FY2015</u>	<u>FY2016</u>
\$4,642.02	\$4,804.60	\$4,804.60	\$4,389.95	\$4,490.92	\$4,625.65	\$4,781.14	\$4,876.76

### Target Average Salary

<u>FY2017</u>	<u>FY2018</u>	<u>FY2019</u>	<u>FY2020</u>	<u>FY2021</u>			
\$48,500	\$48,645.50	\$49,131.96	\$50,360.25	\$51,367.47			

## CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional information, contact the Beresford School District's Business Office, 301 W Maple Street, Beresford, SD 57004.

**BERESFORD SCHOOL DISTRICT NO. 61-2  
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET  
TO THE STATEMENT OF NET POSITION  
JUNE 30, 2021**

Total Fund Balances - Governmental Funds	\$ 2,448,212.62
--	-----------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. The cost of these assets is:

Less accumulated depreciation:	\$ 17,922,785.09	
	<u>(8,766,249.91)</u>	9,156,535.18

Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds. Long-term liabilities at year-end consist of:

Capital Outlay Certificates	(2,175,000.00)	
Capital (Financing) Leases	(22,003.99)	
Accrued Leave Payable	<u>(145,564.29)</u>	(2,342,568.28)

Net Pension Asset reported in governmental activities is not an available financial resource and therefore is not reported in the funds.

7,199.30

Pension related deferred outflows are components of pension asset and therefore are not reported in the funds.

1,180,354.25

Pension related deferred inflows are components of pension liability and therefore are not reported in the funds.

(945,914.88)

Assets such as taxes receivable (delinquent) are not available to pay for current period expenditures and therefore are deferred in the funds.

43,247.78

Net Position - Governmental Funds

\$ 9,547,065.97

The notes to the financial statements are an integral part of this statement.

**BERESFORD SCHOOL DISTRICT NO. 61-2**  
**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES**  
**IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES**  
**FOR THE YEAR ENDED JUNE 30, 2021**

Net Change in Fund Balances - Total Governmental Funds \$ 206,180.45

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Capital outlays exceed depreciation expense by this amount during the year:

Capital Outlay	\$ 2,135,094.56	
Depreciation Expense	<u>(651,316.37)</u>	1,483,778.19

Governmental funds recognize expenditures for amounts of compensated absences and early retirement benefits actually paid to employees with current financial resources during the fiscal year. Amounts of compensated absences earned by employees are not recognized in the funds. In the statement of activities, expenses for these benefits are recognized when the employees earn leave credits or elect to retire early.

Accrued Compensation	(42,022.74)
----------------------	-------------

Repayment of debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

1,663,893.54

The issuance of long-term debt is an other financing source in the fund statements but an increase in long-term liabilities on the government

Capital Outlay Certificates	(2,175,000.00)
-----------------------------	----------------

Changes in pension related deferred outflows/inflows are direct components of pension liability(asset) and are not reflected in the governmental funds.

(321,120.42)

Changes in capital assets that are not reflected in the governmental funds.

Donated Assets	10,750.00	
Gain (Loss) on Disposal of Assets	<u>(6,814.81)</u>	3,935.19

Governmental funds report property taxes as revenue when they meet the available criteria. Because some property taxes will not be collected for several months after the district's fiscal year ends, they are not considered "available" revenues and are deferred in the governmental funds. Deferred tax revenues increased (decreased) by this amount this year.

3,007.08

Change in Net Position of Governmental Activities	<u>\$ 822,651.29</u>
---	----------------------

**BERESFORD SCHOOL DISTRICT NO. 61-2**  
**NOTES TO THE FINANCIAL STATEMENTS**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies of the School District conform to generally accepted accounting principles applicable to government entities in the United States of America.

**a. Financial Reporting Entity**

The reporting entity of Beresford School District No. 61-2, consists of the primary government (which includes all of the funds, organizations, institutions, agencies, departments, and offices that make up the legal entity, plus those funds for which the primary government has a fiduciary responsibility, even though those fiduciary funds may represent organizations that do not meet the criteria for inclusion in the financial reporting entity); those organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete.

Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The School District is financially accountable if its Governing Board appoints a voting majority of another organization's governing body and it has the ability to impose its will on that organization, or there is a potential for that organization to provide specific financial benefits to, or impose specific financial burdens on, the School District (primary government). The School District may also be financially accountable for another organization if that organization is fiscally dependent on the School District.

The School District participates in a cooperative service unit with several other school districts. See detailed note entitled "Joint Ventures" for specific disclosures. Joint ventures do not meet the criteria for inclusion in the financial reporting entity as a component unit, but are discussed in these notes because of the nature of their relationship with the School District.

**b. Basis of Presentation**

*Government-wide Financial Statements:*

The Statement of Net Position and Statement of Activities display information about the reporting entity as a whole. They include all funds of the reporting entity except for fiduciary funds, and fiduciary-type component units. The statements distinguish between governmental and business-type activities and discretely presented component units. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Discretely presented component units are legally separate organizations that meet certain criteria, as described in note 1.a, above, and may be classified as either governmental or business-type activities. See the discussion of individual component units in Note 1.a, above.

The Statement of Net Position reports all financial and capital resources, in a net position form (assets and deferred outflows minus liabilities and deferred inflows equal net position). Net Position are displayed in three components, as applicable, net investment in capital assets, restricted (distinguishing between major categories of restrictions), and unrestricted.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function of the School District's governmental activities. Direct expenses are those that are

specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

#### *Fund Financial Statements:*

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the School District or it meets the following criteria:

1. Total assets, liabilities, deferred inflows and outflows, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
2. Total assets, liabilities, deferred inflows and outflows, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined, or
3. Management has elected to classify one or more governmental or enterprise funds as major for consistency in reporting from year to year, or because of public interest in the fund's operations.

The funds of the School District financial reporting entity are described below within their respective fund types:

#### **Governmental Funds:**

General Fund - A fund established by South Dakota Codified Laws (SDCL) 13-16-3 to meet all the general operational costs of the school district, excluding capital outlay fund and special education fund expenditures. The General Fund is always a major fund.

Special Revenue Funds - special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Outlay Fund - A fund established by SDCL 13-16-6 to meet expenditures which result in the lease of, acquisition of or additions to real property, plant or equipment, textbooks and instructional software. This fund is financed by property taxes. This is a major fund.

Special Education Fund - A fund established by SDCL 13-37-16 to pay the costs for the special education of all children in need of special assistance and prolonged assistance who reside within the School District. This fund is financed by grants and property taxes. This is a major fund.

#### **Proprietary Funds:**

Enterprise Funds – Enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. Activities are required to be reported as enterprise funds if any one of the following criteria is met.

- a. *The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity. Debt that is secured by a pledge of net revenues from fees and charges and the full faith and credit of a related primary government or component unit—even if that government is not expected to make any payments—is not payable solely from fees and charges of the activity. (Some debt may be secured, in part, by a portion of its own proceeds but should be considered as payable “solely” from the revenues of the activity.)*
- b. *Laws or regulations require that the activity’s costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues.*
- c. *The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).*

Food Service Fund - A fund used to record financial transactions related to food service operations. This fund is financed by user charges and grants. This is a major fund.

Other Enterprise Fund - A fund used to record financial transactions related to drivers' education instruction and iPad fees conducted for the benefit of the children. The fund is financed by user charges. This is a major fund.

### **Fiduciary Funds:**

Fiduciary funds consist of the following sub-categories and are never considered to be major funds:

*Custodial Funds - Custodial funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds. The School District maintains custodial funds to hold assets as an agent in a trustee capacity for various classes, clubs, and so on.*

### c. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe “how” transactions are recorded within the various financial statements. Basis of accounting refers to “when” revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

### **Measurement Focus:**

#### *Government-wide Financial Statements:*

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus, applied on the accrual basis of accounting.

#### *Fund Financial Statements:*

In the fund financial statements, the “current financial resources” measurement focus and the modified accrual basis of accounting are applied to governmental funds, while the “economic resources” measurement focus and the accrual basis of accounting are applied to the proprietary and fiduciary fund types.

### **Basis of Accounting:**

#### *Government-wide Financial Statements:*

In the government-wide Statement of Net Position and Statement of Activities, governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues and related assets generally are recorded when earned (usually when the right to receive cash vests); and, expenses and related liabilities are recorded when an obligation is incurred (usually when the obligation to pay cash in the future vests).

#### *Fund Financial Statements:*

All governmental fund types are accounted for using the modified accrual basis of accounting. Their revenues, including property taxes, generally are recognized when they become measurable and available. "Available" means resources are collected or to be collected soon enough after the end of the fiscal year that they can be used to pay the bills of the current period. The accrual period does not exceed one bill-paying cycle, and for the Beresford School District No. 61-2, the length of that cycle is 60 days. The revenues that were accrued at June 30, 2021 are accounts receivable from various sources.

Under the modified accrual basis of accounting, receivables may be measurable but not available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Unavailable revenues, where asset recognition criteria have been met, but for which revenue recognition criteria have not been met, are reported as a deferred inflows of resources.

Expenditures generally are recognized when the related fund liability is incurred. Exceptions to this general rule include principal and interest on general long-term debt which are recognized when due.

All proprietary fund and fiduciary fund types are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

#### d. Deposits and Investments:

For the purpose of financial reporting, "cash and cash equivalents" includes all demand and savings accounts and certificates of deposit or short-term investments with a term to maturity at date of acquisition of three months or less. Investments in open-end mutual fund shares, or similar investments in external investment pools, are also considered to be cash equivalents.

Investments classified in the financial statements consist entirely (primarily) of certificates of deposit whose term to maturity at date of acquisition exceeds three months, and/or those types of investment authorized by South Dakota Codified Law (SDCL) 4-5-6.

#### e. Capital Assets:

Capital assets include land, buildings, machinery and equipment, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period.

The accounting treatment over capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

#### *Government-Wide Financial Statements*

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair value on the date donated. Reported cost values include ancillary charges necessary to place the asset into its intended location

and condition for use. Subsequent to initial capitalization, improvements or betterments that are significant and which extend the useful life of a capital asset are also capitalized.

For governmental activities Capital Assets, construction-period interest is not capitalized, in accordance with USGAAP, while for capital assets used in business-type activities/proprietary fund's operations, construction period interest is capitalized in accordance with USGAAP.

The total June 30, 2021 balance of capital assets for governmental activities includes approximately 0.89% for which the costs were determined by estimates of original costs. The total June 30, 2021 balance of capital assets for business-type activities are valued at original cost. These estimated original costs were established by prior records at cost or historical costs.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the government-wide Statement of Activities, with net capital assets reflected in the Statement of Net Position. Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	Capitalization Threshold	Depreciation Method	Estimated Useful Life
Land	ALL	NA	NA
Improvements	\$ 10,000.00	Straight Line	10-50 yrs
Buildings	50,000.00	Straight Line	50 yrs
Machinery and Equipment	5,000.00	Straight Line	2-20 yrs
Food Service Machinery and Equipment	1,000.00	Straight Line	12 yrs

Land is an inexhaustible capital asset and is not depreciated.

#### *Fund Financial Statements*

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital expenditures of the appropriate governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for on the accrual basis, the same as in the government-wide statements.

#### **f. Long-Term Liabilities:**

The accounting treatment of long-term liabilities depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term liabilities to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term liabilities primarily consist of compensated absences, capital financing leases, and capital outlay certificates payable.

In the fund financial statements, debt proceeds are reported as revenues (other financing sources), while payments of principal and interest are reported as expenditures when they become due. The accounting for proprietary fund long-term debt is on the accrual basis, the same in the fund statements as in the government-wide statements.

#### g. Program Revenues

In the government-wide Statement of Activities, reported program revenues derive directly from the program itself or from parties other than the School District's taxpayers or citizenry, as a whole. Program revenues are classified into three categories, as follows:

1. Charges for services – These arise from charges to customers, applicants, or others who purchase, use, or directly benefit from the goods, services, or privileges provided, or are otherwise directly affected by the services.
2. Program-specific operating grants and contributions – These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program.
3. Program-specific capital grants and contributions – These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for the acquisition of capital assets for use in a particular program.

#### h. Proprietary Funds Revenue and Expense Classifications:

In the proprietary fund's Statement of Activities, revenues and expenses are classified in a manner consistent with how they are classified in the Statement of Cash Flows. That is, transactions for which related cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are not reported as components of operating revenues or expenses.

#### i. Cash and Cash Equivalents:

The School District pools its cash resources for depositing and investing purposes. Accordingly, the enterprise fund has access to its cash resources on demand. Accordingly, all reported enterprise fund deposit and investment balances are considered to be cash equivalents for the purpose of the Statement of Cash Flows.

#### j. Equity Classifications

##### *Government-wide Financial Statements:*

Equity is classified as Net Position and is displayed in three components

1. Net Investment in Capital Assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation (if applicable) and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted Net Position – Consists of net position with constraints placed on their use either by (a) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
3. Unrestricted Net Position – All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

##### *Fund Financial Statements:*

Governmental fund equity is classified as fund balance, and is distinguished between Nonspendable, Restricted, Committed, Assigned or Unassigned components. Proprietary fund equity is classified

the same as in the government-wide financial statements. Fiduciary fund equity is reported as restricted net position.

k. Application of Net Position:

It is the School District's policy to first use restricted net position, prior to the use of unrestricted net position, when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

l. Deferred Inflows and Deferred Outflows of Resources:

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. Deferred outflows of resources represent consumption of net position that applies to a future period or periods. These items will not be recognized as an outflow of resources until the applicable future period.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent acquisitions of net position that applies to a future period or periods. These items will not be recognized as an inflow of resources until the applicable future period.

m. Fund Balance Classification Policies and Procedures:

In accordance with Government Accounting Standards Board (GASB) No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the School District classifies governmental fund balances as follows:

- Nonspendable – includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.
- Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.
- Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority and does not lapse at year-end.
- Assigned – includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund Balance may be assigned by the School Board.
- Unassigned – includes positive fund balance within the General Fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The School District uses *restricted/committed* amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the Government would first use *committed*, then *assigned*, and lastly *unassigned* amounts of unrestricted fund balance when expenditures are made.

The School District does not have a formal minimum fund balance policy.

A schedule of fund balances is provided as follows:

BERESFORD SCHOOL DISTRICT NO. 61-2  
DISCLOSURE OF FUND BALANCES REPORTED ON BALANCE SHEET  
GOVERNMENTAL FUNDS  
JUNE 30, 2021

	General	Capital	Special	Total
	Fund	Outlay	Education	Governmental
Fund Balance:	<u>Fund</u>	<u>Fund</u>	<u>Fund</u>	<u>Funds</u>
<i>Restricted for:</i>				
Capital Outlay	\$	\$ 1,203,842.69	\$	\$ 1,203,842.69
Special Education			275,014.92	275,014.92
<i>Assigned for:</i>				
Unemployment	5,696.13			5,696.13
Next Year's Budget	46,691.87			46,691.87
<i>Unassigned:</i>	<u>916,967.01</u>			<u>916,967.01</u>
Total Fund Balances	<u>\$ 969,355.01</u>	<u>\$ 1,203,842.69</u>	<u>\$ 275,014.92</u>	<u>\$ 2,448,212.62</u>

n. Pensions:

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense (revenue), information about the fiduciary net position of the South Dakota Retirement System (SDRS) and additions to/deletions from SDRS's fiduciary net position have been determined on the same basis as they are reported by SDRS. School District contributions and net pension liability (asset) are recognized on an accrual basis of accounting.

NOTE 2 – IMPLEMENTATION OF NEW ACCOUNTING STANDARD

In 2021, the School District implemented the provisions of Governmental Accounting Standards Board (GASB) Statement No. 84, Fiduciary Activities accounting standard. This statement improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The implementation of this standard required that the School District present a Statement of Changes in Fiduciary Net Position for Custodial Funds for 2021. The implementation of this standard required the School District to reclassify previously reported agency funds as custodial funds. The impact to the School District resulted in certain activities previously reported as fiduciary not being considered fiduciary under GASB 84. The effect of the implementation of this standard on beginning net position is disclosed in Note 15.

NOTE 3 – DEPOSITS AND INVESTMENTS FAIR VALUE MEASUREMENT, CREDIT RISK, CONCENTRATIONS OF CREDIT RISK AND INTEREST RATE RISK

The School District follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below:

Deposits - The School District's deposits are made in qualified public depositories as defined by SDCL 4-6A-1, 13-16-15, 13-16-15.1 and 13-16-18.1. Qualified depositories are required by SDCL 4-6A-3 to maintain at all times, segregated from their other assets, eligible collateral having a value equal to at least 100 percent of the public deposit accounts which exceed deposit insurance such as the FDIC and NCUA. In lieu of pledging eligible securities, a qualified public depository may furnish irrevocable standby letters of credit issued by federal home loan banks accompanied by

written evidence of that bank's public debt rating which may not be less than "AA" or a qualified public depository may furnish a corporate surety bond of a corporation authorized to do business in South Dakota.

Investments – In general, SDCL 4-5-6 permits school district funds to be invested only in (a) securities of the United States and securities guaranteed by the United States Government either directly or indirectly; or (b) repurchase agreements fully collateralized by securities described in (a) above; or in shares of an open-end, no-load fund administered by an investment company whose investments are in securities described in (a) above and repurchase agreements described in (b) above. Also, SDCL 4-5-9 requires investments to be in the physical custody of the political subdivision or may be deposited in a safekeeping account with any bank or trust company designated by the political subdivision as its fiscal agent.

Credit Risk – State law limits eligible investments for the School District, as discussed above. The School District has no investment policy that would further limit its investment choices.

As of June 30, 2021, the School District had the following investment:

<u>External Investment Pool</u>	<u>Credit Rating</u>	<u>Fair Value</u>
South Dakota Public Funds Investment- Trust	Unrated	\$ 294,581.42

The South Dakota Public Fund Investment Trust (SDFIT) is an external investment pool created for South Dakota local government investing purposes. It is regulated by a nine-member board with representation from municipalities, school districts and counties. The net asset value of the SDFIT money market account (GCR) is kept at one dollar per share by adjusting the rate of return on a daily basis. Earnings are credited to each account on a monthly basis.

Concentration of Credit Risk – The School District places no limit on the amount that may be invested in any one issuer.

Interest Rate Risk – The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Assignment of Investment Income – State law allows income from deposits and investments to be credited to either the General Fund or the fund making the investment. The School District's policy is to credit all income from investments to the fund making the investment.

#### NOTE 4 – RECEIVABLES AND PAYABLES

Receivables and payables are not aggregated in these financial statements. The School District expects all receivables to be collected within one year. No allowance has been made for estimated uncollectible amounts.

#### NOTE 5 - INVENTORY

Inventory for resale is stated at the lower of cost or market. The cost valuation method is the first in, first out method. Donated commodities are valued at estimated market value based on the USDA price list at date of receipt.

In the Government-wide and the enterprise fund financial statements, inventory items are initially recorded as assets and charged to expense in the various functions of government as they are consumed.

In the governmental fund financial statements, inventories consist of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are consumed. No material inventories were on hand as of June 30, 2021 in the governmental funds.

#### NOTE 6 - PROPERTY TAXES

Property taxes are levied on or before each October 1, attach as an enforceable lien on property, and become due and payable as of the following January 1, and are payable in two installments on or before the following April 30 and October 31. The county bills and collects the School District's taxes and remits them to the School District.

School District property tax revenues are recognized to the extent that they are used to finance each year's appropriations. Revenue related to current year property taxes receivable which is not intended to be used to finance the current year's appropriations and therefore are not susceptible to accrual has been reported as deferred revenue in both the fund financial statements and the government-wide financial statements. Additionally, in the fund financial statements, revenue from property taxes may be limited by any amount not collected during the current fiscal period or within the "availability period."

## NOTE 7 - CHANGES IN CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2021 is as follows:

Primary Government	Balance 6/30/2020	Increases	Decreases	Balance 6/30/2021
<b>Governmental Activities:</b>				
<b>Capital Asset, not depreciated:</b>				
Land	\$ 122,035.36	\$ 400.00	\$	\$ 122,435.36

#### NOTE 8 - LONG -TERM LIABILITIES

A summary of the changes in long-term liabilities for the year ended June 30, 2021 is as follows:

Primary Government	Beginning Balance			Ending Balance	Due Within
Governmental Activities:	06/30/20	Additions	Retired	06/30/21	One Year
Capital Outlay Certificates	\$ 1,485,000.00	\$ 2,175,000.00	\$ 1,485,000.00	\$ 2,175,000.00	\$ 485,000.00
Capital Acquisition Leases	200,897.53		178,893.54	22,003.99	19,607.52
Accrued Compensated Absences-Governmental	<u>103,541.55</u>	<u>45,630.47</u>	<u>3,607.73</u>	<u>145,564.29</u>	<u>65,503.93</u>
Total Governmental Activities	<u>\$ 1,789,439.08</u>	<u>\$ 2,220,630.47</u>	<u>\$ 1,667,501.27</u>	<u>\$ 2,342,568.28</u>	<u>\$ 570,111.45</u>

Compensated absences for governmental activities typically have been liquidated from the General Fund and Special Education Fund.

Liabilities payable at June 30, 2021 are comprised of the following:

#### *Primary Government*

#### Governmental Activities:

##### Capital Outlay Certificates Payable:

Certificates dated April 24, 2012 interest of 0.50  
to 0.65% payable annually, original maturity July 2014.

Payments are made from the Capital Outlay Fund. \$ 2,175,000.00

##### Capital (Financing) Lease:

Capital acquisition lease dated August 2, 2018 for the purchase of  
Copiers, monthly payments of \$1,633.96, with final maturity  
in July, 2022. Payments are made from the Capital Outlay Fund

22,003.99

##### Compensated Absences:

Vested annual leave and vested sick leave  
liability to be paid from the General and Special Education Fund.

145,564.29

The purchase price at the commencement of the financing (capital acquisition) leases was:

	<u>Copier Capital Lease</u>
Principal	\$ 78,430.08
Interest	
Total	<u>\$ 78,430.08</u>

The annual debt service requirements to maturity for all debt outstanding, other than compensated absences, as of June 30, 2021 are as follows:

Year	Capital Outlay Certificates		Financing (Capital Acquisition) Leases	Totals	
Ending June 30,	Principal	Interest	Principal	Principal	Interest
2022	\$ 485,000.00	\$ 25,625.00	\$ 19,607.52	\$ 504,607.52	\$ 25,625.00
2023	490,000.00	18,906.25	2,396.47	492,396.47	18,906.25
2024	500,000.00	11,980.00		500,000.00	11,980.00
2025	505,000.00	4,806.25		505,000.00	4,806.25
2026	195,000.00	585.00		195,000.00	585.00
	<u>\$ 2,175,000.00</u>	<u>\$ 61,902.50</u>	<u>\$ 22,003.99</u>	<u>\$ 2,197,003.99</u>	<u>\$ 61,902.50</u>

During fiscal year 2021, the School District issued Limited Tax Refunding Certificates of \$1,205,000 with an average interest rate of 2%, to refund the following:

Year <u>Issued</u>		Interest <u>Rate</u>	Unpaid Principal at Time of <u>Refunding</u>
2014	Limited Tax Certificates	2.2% to 2.85%	\$ 1,200,000.00

The School District refunded the debt to reduce its total debt service payments over the next 4 years by \$12,594.17. The entire proceeds of the refunding issue in the amounts of \$1,211,131.25 were deposited into an irrevocable trust with an escrow agent to provide for all future debt service requirements on the refunded issue. As a result, the refunded issue is considered to be defeased and the liability for this issue has been removed from the financial statement of the School District.

#### NOTE 9 - INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2021 were as follows:

	<u>Transfers to:</u>
<u>Transfer From:</u>	<u>General Fund</u>
Capital Outlay Fund	<u>\$ 110,000.00</u>

A transfer was made to the General Fund from Capital Outlay to cover insurance, utility, and fuel expenses per SDCL.

#### NOTE 10 – RESTRICTED NET POSITION

The following table shows the net position restricted for other purposes as shown on the Statement of Net Position:

Major Purposes:	Restricted By	Amount
Capital Outlay Purposes	Law	\$ 1,197,365.54
Special Education Purposes	Law	283,511.60
SDRS Pension Purposes	Law	241,638.67
TOTAL		<u>\$ 1,722,515.81</u>

#### NOTE 11 – PENSION PLAN

##### Plan Information:

All employees, working more than 20 hours per week during the school year, participate in the South Dakota Retirement System (SDRS), a cost sharing, multiple employer defined benefit pension plan administered by SDRS to provide retirement benefits for employees of the State of South Dakota and its political subdivisions. The SDRS provides retirement, disability, and survivor benefits. The right to receive retirement benefits vests after three years of credited service. Authority for establishing, administering and amending plan provisions are found in SDCL 3-12. The SDRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at <http://www.sdrs.sd.gov/publications/> or by writing to the SDRS, P.O. Box 1098, Pierre, SD 57501-1098 or by calling (605) 773-3731.

##### Benefits Provided:

SDRS has three different classes of employees, Class A general members, Class B public safety and judicial members, and Class C Cement Plant Retirement Fund members.

Members that were hired before July 1, 2017, are Foundation members. Class A Foundation members and Class B Foundation members who retire after age 65 with three years of contributory service are entitled to an unreduced annual retirement benefit. An unreduced annual retirement benefit is also available after age 55 for Class A Foundation members where the sum of age and credited service is equal to or greater than 85 or after age 55 for Class B Foundation judicial members where the sum of age and credited service is equal to or greater than 80. Class B Foundation public safety members can retire with an unreduced annual retirement after age 55 with three years of contributory service. An unreduced annual retirement benefit is also available after age 45 for Class B Foundation public safety members where the sum of age and credited service is equal to or greater than 75. All Foundation retirement benefits that do not meet the above criteria may be payable at a reduced level.

Members that were hired on/after July 1, 2017, are Generational members. Class A Generational members and Class B Generational judicial members who retire after age 67 with three years of contributory service are entitled to an unreduced annual retirement benefit. Class B Generational public safety members can retire with an unreduced annual retirement benefit after age 57 with three years of contributory service. At retirement, married Generational members may elect a single-life benefit, a 60 percent joint and survivor benefit, or a 100 percent joint and survivor benefit. All Generational retirement benefits that do not meet the above criteria may be payable at a reduced level. Generational members will also have a variable retirement account (VRA) established, in which they will receive up to 1.5 percent of compensation funded by part of the employer contribution. VRAs will receive investment earnings based on investment returns.

Legislation enacted in 2017 established the current COLA process. At each valuation date:

- Baseline actuarial accrued liabilities will be calculated assuming the COLA is equal to the long-term inflation assumption of 2.25%
- If the fair value of assets is greater or equal to the baseline actuarial accrued liabilities, the COLA will be:
  - The increase in the 3<sup>rd</sup> quarter CPI-W, no less than 0.5% and no greater than 3.5%.
- If the fair value of assets is less than the baseline actuarial accrued liabilities, the COLA will be:
  - The increase in the 3<sup>rd</sup> quarter CPI-W, no less than 0.5% and no greater than a restricted maximum such that, that if the restricted maximum is assumed for future COLAs, the fair value of assets will be greater or equal to the accrued liabilities.

All benefits except those depending on the Member's Accumulated Contributions are annually increased by the Cost-of-Living Adjustment.

### **Contributions:**

Per SDCL 3-12, contribution requirements of the active employees and the participating employers are established and may be amended by the SDRS Board. Covered employees are required by state statute to contribute the following percentages of their salary to the plan; Class A Members, 6.0% of salary; Class B Judicial Members, 9.0% of salary; and Class B Public Safety Members, 8.0% of salary. State statute also requires the employer to contribute an amount equal to the employee's contribution. The School District's share of contributions to the SDRS for the fiscal years ended June 30, 2021, 2020, 2019, equal to required contributions each year, were as follows:

<u>Year</u>	<u>Amount</u>
2021	\$ 238,620.98
2020	218,287.35
2019	210,001.64

### **Pension Liabilities (Assets), Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions:**

At June 30, 2020, SDRS is 100.04% funded and accordingly has a net pension asset. The proportionate shares of the components of the net pension asset of South Dakota Retirement System, for the School District as of June 30, 2020 are as follows and reported by the School District as of June 30, 2021 are as follows:

Proportionate share of pension liability	\$ 20,377,926.12
Less proportionate share of net pension restricted for pension benefits	<u>20,385,125.42</u>
Proportionate share of net pension liability (asset)	<u><u>\$ (7,199.30)</u></u>

At June 30, 2021, the School District reported a liability (asset) of \$(7,199.30) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of June 30, 2020 and the total pension liability (asset) used to calculate the net pension liability (asset) was based on a projection of the School District's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2020, the School District's proportion was 0.16576860%, which is an increase (decrease) of 0.0011548% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the School District recognized pension expense (reduction of expense) of \$321,120.42. At June 30, 2021, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 27,541.24	\$ 5,639.74
Changes in assumption	231,895.06	935,245.85
Net difference between projected and actual earnings on pension plan investments	669,139.49	
Changes in proportion and difference between School District contributions and proportionate share of contributions	13,157.48	5,029.29
District contributions subsequent to the measurement date	238,620.98	
<b>TOTAL</b>	<b>\$ 1,180,354.25</b>	<b>\$ 945,914.88</b>

\$238,620.98 reported as deferred outflow of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

Year Ended June 30:

2022	\$ (83,099.88)
2023	(64,076.24)
2024	10,120.63
2025	124,745.72
<b>TOTAL</b>	<b>\$ (12,309.77)</b>

**Actuarial Assumptions:**

The total pension liability (asset) in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25 percent
Salary Increases	6.50% at entry to 3.00% after 25 years of service
Discount Rate	6.50% net of plan investment expense
Future COLAs	1.41%

Mortality rates were based on 97% of the RP-2014 Mortality Table, adjusted to 2006 and projected generationally with Scale MP-2016, white collar rates for females and total dataset rates for males. Mortality rates for disabled members were based on the RP-2014 Disabled Retiree Mortality Table, adjusted to 2006 and projected generationally with Scale MP-2016.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period of July 1, 2011 to June 30, 2016.

Investment portfolio management is the statutory responsibility of the South Dakota Investment Council (SDIC), which may utilize the services of external money managers for management of a

portion of the portfolio. SDIC is governed by the Prudent Man Rule (i.e., the council should use the same degree of care as a prudent man). Current SDIC investment policies dictate limits on the percentage of assets invested in various types of vehicles (equities, fixed income securities, real estate, cash, private equity, etc.). The long-term expected rate of return on pension plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2020 (see the discussion of the pension plan's investment policy) are summarized in the following table using geometric means:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	58.0%	5.1%
Fixed Income	30.0%	1.5%
Real Estate	10.0%	6.2%
Cash	<u>2.0%</u>	1.0%
Total	<u>100.0%</u>	

#### **Discount Rate:**

The discount rate used to measure the total pension liability (asset) was 6.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that matching employer contributions from will be made at rates equal to the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability (asset).

#### **Sensitivity of liability (asset) to changes in the discount rate:**

The following presents the School District's proportionate share of net pension liability (asset) calculated using the discount rate of 6.50% as well as what the School's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower (5.50%) or 1-percentage point higher (7.50%) than the current rate:

	<u>1% Decrease</u>	<u>Current Discount Rate</u>	<u>1% Increase</u>
School District's proportionate share of the net pension liability (asset)	\$ 2,792,850.41	\$ (7,199.30)	\$ (2,297,584.80)

#### **Pension Plan Fiduciary Net Position:**

Detailed information about the plan's fiduciary net position is available in the separately issued SDRS financial report.

## NOTE 12 - JOINT VENTURES

The School District participates in the Southeast Area Cooperative, a cooperative service unit (co-op) formed for the purpose of providing public support services to the member school districts.

The members of the co-op and their relative percentage participation in the co-op are as follows:

Alcester-Hudson	9.70%
Beresford	19.80%
Canton	25.10%
Elk Point-Jefferson	19.50%
Gayville-Volin	8.10%
Irene-Wakonda	8.10%
Viborg-Hurley	9.70%

The co-op's governing board is composed of one school board member representative from each member school district. The board is responsible for adopting the co-op's budget and for setting service fees at a level adequate to fund the adopted budget. The school district retains no equity in the net position of the co-op, but does have a responsibility to fund deficits of the co-op in proportion to the relative participation described above. Separate financial statements for this joint venture are available from the Southeast Area Cooperative.

At June 30, 2021, this joint venture has total assets of \$941,074.10, total deferred outflows of resources \$376,924.66, total liabilities of \$213,606.73, total deferred inflows of resources \$307,632.18 and net position of \$796,759.85.

## NOTE 13 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the period ended June 30, 2021, the school district managed its risks as follows:

### Employee Health Insurance

The school district purchases health insurance for its employees from a commercial insurance carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

### Liability Insurance

The school district purchases liability insurance for risks related to torts; theft of, or damage to property; and errors and omissions of public officials from a commercial insurance carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

### Worker's Compensation

The school district purchases liability insurance for worker's compensation from a commercial carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

### Unemployment Benefits

The school district has elected to be self-insured and retain all risk for liabilities resulting from claims for unemployment benefits.

The school district has Assigned Fund Balance in the General Fund in the amount of \$5,696.13 for the payment of future unemployment benefits.

During the year ended June 30, 2021, one claim was filed for unemployment benefits. These claims resulted in the payment of benefits in the amount of \$1,167.01. At June 30, 2021, no claims had been filed for unemployment benefits and were outstanding. It is not anticipated that any additional claims for unemployment benefits will be filed in the next fiscal year.

### NOTE 14 – SIGNIFICANT CONTINGENCIES - LITIGATION

At June 30, 2021, the school district was not involved in any litigation.

### NOTE 15 – IMPLEMENTATION OF NEW STANDARD AND RESTATEMENT

As of June 30, 2021, the School District implemented GASB Statement No 84, *Fiduciary Activities* (GASB 84). Certain agency funds previously accounted for activities that are not considered fiduciary in nature and are now reported in the General Fund.

The School District restated the net position and fund balance of the Custodial Fund indicated below to appropriately reflect the July 1, 2020 balances as follows:

#### **Custodial Fund**

Net position at June 30, 2020, as previously stated	\$ 0.00
Restatement - Implementation of GASB 84	<u>153,968.01</u>
Net Position July 1, 2020 As Restated	<u>\$ 153,968.01</u>

BERESFORD SCHOOL DISTRICT NO. 61-2  
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION  
Schedules of Budgetary Comparisons for the General Fund  
And for each major Special Revenue Fund with a legally required budget

**NOTE 1 – BUDGET AND BUDGETARY ACCOUNTING**

The School District followed these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to the first regular board meeting in May of each year the board causes to be prepared a proposed budget for the next fiscal year according to the budgetary standards prescribed by the Auditor General.
2. The proposed budget is considered by the board at the first regular meeting held in the month of May of each year.
3. The proposed budget is published for public review no later than July 15 each year.
4. Public hearings are held to solicit taxpayer input prior to the approval of the budget.
5. Before October 1 of each year, the board must approve the budget for the ensuing fiscal year for each fund, except fiduciary funds.
6. After adoption by the board, the operating budget is legally binding and actual expenditures of each fund cannot exceed the amounts budgeted, except as indicated in number 8.
7. A line item for contingencies may be included in the annual budget. Such a line item may not exceed 5 percent of the total School District budget and may be transferred by resolution of the board to any other budget category, except for capital outlay, that is deemed insufficient during the year. No amount of expenditures may be charged directly to the contingency line item in the budget.
8. If it is determined, during the year, that sufficient amounts have not been budgeted, state statute allows the adoption of supplemental budgets when moneys are available to increase legal spending authority.
9. Unexpended appropriations lapse at year-end unless encumbered by resolution of the board.
10. Formal budgetary integration is employed as a management control device during the year for the General Fund and special revenue funds.
11. Budgets for the General Fund and each major special revenue fund are adopted on a basis consistent with generally accepted accounting principles (GAAP).

**NOTE 2 – GAAP/BUDGETARY ACCOUNTING BASIS DIFFERENCES**

The financial statements prepared in conformity with USGAAP present capital outlay expenditure information in a separate category of expenditures. Under the budgetary basis of accounting, capital outlay expenditures are reported within the function to which they relate. For example, the purchase of a new school bus would be reported as a capital outlay expenditure on the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances, however in the Budgetary RSI Schedule, the purchase of a school bus would be reported as an expenditure of the Support Services-Business/Pupil Transportation function of government, along with all other current Pupil Transportation related expenditures.

Schedules of the Proportional Share of the Net Pension Liability (Asset) and  
Schedule of Contributions

CHANGES FROM PRIOR VALUATION

The June 30, 2020 Actuarial Valuation reflects no changes in actuarial methods from the June 30, 2019 Actuarial Valuation. One change in actuarial assumptions and two plan provision changes are reflected and described below.

The details of the changes since the last valuation are as follows:

BENEFIT PROVISION CHANGES

Legislation enacted in 2020 established a Qualified Benefit Preservation Arrangement (QBPA) Section 415(m) of the Internal Revenue Code (IRC). The QBPA is effective July 1, 2020 and pays a portion of SDRS benefits that are restricted by IRC Section 415(b). The total benefits paid from SDRS and the QBPA will be limited to the applicable 415(b) annual limit, unreduced for early Commencement if Members retire prior to age 62 and actuarially increased for late retirement up to age 70 if Members retire after age 65. The Actuarial Valuation considers benefits payable from both SDRS and the QBPA.

Legislation enacted in 2020 also brought the assets and the liabilities of the South Dakota Department of Labor and Regulation Plan into SDRS effective July 1, 2020. With the exception of the accounting results presented in Section 6 of this report, all exhibits include the assets, liabilities, and member counts of the former Department of Labor and Regulation Plan Members.

ACTUARIAL ASSUMPTION CHANGES

The SDRS COLA equals the percentage increase in the most recent third calendar quarter CPI-W over the prior year, no less than 0.5% and no greater than 3.5%. However, if the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (currently 2.25%) is less than 100%, the maximum COLA payable will be limited to the increase that if assumed on a long-term basis, results in a FVFR equal to or exceeding 100%. That condition existed as of June 30, 2019 and exists again this year as of June 30, 2020. Future COLAs are assumed to equal the current restricted maximum COLA which was 1.88% as of June 30, 2019 and is 1.41% as of June 30, 2020.

The changes in actuarial assumptions due to the 1.41% restricted maximum COLA decreased the Actuarial Accrued Liability by \$595 million, or 4.6% of the Actuarial Accrued Liability based on the 1.88% restricted maximum COLA.

Actuarial assumptions are reviewed in depth periodically, with the next experience analysis anticipated before the June 30, 2022 Actuarial Valuation and any recommended changes anticipated to be first implemented in the June 30, 2022 Actuarial Valuation.

ACTUARIAL METHOD CHANGES

No changes in actuarial methods were made since the prior valuation.

**SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**  
**FOR THE YEAR ENDED JUNE 30, 2021**  
**(continued)**

**Note 1: *Basis of Presentation***

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the School District under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the School District.

**Note 2: *Summary of Significant Accounting Policies***

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The School District has elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**Note 3: *Federal Reimbursement***

Federal reimbursements are not based upon specific expenditures. Therefore, the amounts reported here represent cash received rather than federal expenditures.

**Note 4: *Major Federal Financial Assistance Program***

This represents a Major Federal Financial Assistance Program.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

School Board  
Beresford School District No. 61-2  
Union County, South Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Beresford School District No. 61-2, Union County, South Dakota, as of June 30, 2021 and for the year then ended, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated March 23, 2022, which was qualified because long-term financial obligations and commitments related to other postemployment benefits was not recorded.

### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Beresford School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Beresford School District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Beresford School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record and its distribution is not limited.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

School Board  
Beresford School District No. 61-2  
Union County, South Dakota

### Report on Compliance for Each Major Federal Program

We have audited the Beresford School District No. 61-2, South Dakota (School District) compliance with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021. The Beresford School District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Current Audit Findings and Questioned Costs.

### *Management's Responsibility*

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

### *Auditor's Responsibility*

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the comptroller General of the United States; and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the Beresford School District's compliance.

## ***Opinion on Each Major Federal Program***

In our opinion, Beresford School District No. 61-2 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

## **Report on Internal Control Over Compliance**

Management of the Beresford School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Beresford School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Beresford School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Purpose of this Report**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purposes. As required by South Dakota Codified Law 4-11-11, this report and our report on compliance for each major federal program are matters of public record and their distribution is not limited.

**BERESFORD SCHOOL DISTRICT NO. 61-2  
SCHEDULE OF PRIOR AUDIT FINDINGS AND QUESTIONED COSTS  
JUNE 30, 2021**

**PRIOR AUDIT FINDINGS AND QUESTIONED COSTS:**

There are no prior audit findings to report.

**PRIOR OTHER AUDIT FINDINGS:**

**Prior Audit Finding Number 2020-001:**

There was a significant deficiency resulting from budgeted expenditures exceeding the total amounts budgeted in Capital Outlay Fund. This finding has been corrected.

**BERESFORD SCHOOL DISTRICT NO. 61-2  
SCHEDULE OF CURRENT AUDIT FINDINGS AND QUESTIONED COSTS  
FOR THE YEAR ENDED JUNE 30, 2021**

**SUMMARY OF INDEPENDENT AUDITOR'S RESULTS:**

***Financial Statements***

- a. An unmodified opinion was issued on the financial statements of the business-type activities, each major fund and the aggregate remaining fund information. A qualified opinion for the lack of reporting long-term financial obligations and commitments related to other postemployment benefits was issued for the statements of the governmental activities.
- b. No material weaknesses or significant deficiencies were disclosed by our audit of the financial statements.
- c. Our audit did not disclose any noncompliance that was material to the financial statements.

***Federal Awards***

- d. An unmodified opinion was issued on compliance with the requirements applicable to major programs.
- e. Our audit did not disclose any audit findings that need to be disclosed in accordance with 2 CFR 200.516(a).
- f. The federal awards tested as major programs were:

	<u>CFDA #</u>
Department of Treasury Coronavirus Relief Fund	21.019
Department of Education Elementary & Secondary School Emergency Relief	84.425D

- g. The dollar threshold used to distinguish between Type A and Type B federal award programs was \$750,000.00.
- h. Beresford School District did not qualify as a low-risk auditee.

**BERESFORD SCHOOL DISTRICT NO. 61-2  
SCHEDULE OF CURRENT AUDIT FINDINGS AND QUESTIONED COSTS  
FOR THE YEAR ENDED JUNE 30, 2021**

**CURRENT FEDERAL AUDIT FINDINGS:**

There are no current federal compliance audit findings to report.

**CURRENT OTHER AUDIT FINDINGS:**

There are no current other audit findings to report.
