

JESSE WHITE • SECRETARY OF STATE

Chapter 1 Graduated Driver Licensing Program

Illinois' Graduated Driver Licensing Program allows teen drivers to gain experience on the road and prove they are good drivers before they "graduate" to fewer restrictions and more driving privileges.

Traffic crashes are the leading cause of death among young people ages 15-20. Nearly one in five licensed 16-year-olds is in a vehicle crash and, per mile driven, their fatality rate is roughly three to five times that of drivers in their 30s, 40s or 50s. Comprehensive GDL programs like Illinois' are expected to make a significant improvement to these statistics. In fact, Illinois experienced a 40 percent drop in its teen driving fatality rate in the first year that the state's more comprehensive GDL provisions were in effect.

Primary contributing factors to the high crash rate among young drivers are a lack of experience and a greater tendency to take risks. To address this issue, the National Highway Traffic Safety Administration along with numerous other traffic safety organizations recommended that states implement a three-tier Graduated Driver Licensing Program. Illinois' GDL Program has become a national model for other states.

Illinois' GDL Program does not increase the minimum age at which a teen can obtain a license. Provided the teen successfully completes a driver education program and the instruction permit phase, teens may still obtain a license at age 16.

Parent and teens may test their knowledge of the GDL Program by answering the questions on the following page. (Answers on page 5.)

Parent Questionnaire:		Teen Questionnaire:		
1.	Traffic crashes are the third-leading cause of death among young people ages 15-20. ☐ True ☐ False	1.	Driving is considered a right rather than a privilege. □ True □ False	
2.	Safe drivers are rewarded with lower premiums and high-risk drivers pay a greater share of insurance costs.	2.	Cell phone use while driving is against the law for drivers under age 19. ☐ True ☐ False

Graduated Driver Licensing Phases

Permit Phase — Drivers Age 15

- · Parent/legal guardian consent required to obtain an instruction permit.
- Must be enrolled in an approved driver education course, and must pass vision and written tests.
- Nighttime driving restrictions Sun.-Thurs., 10 p.m.-6 a.m.; Fri.-Sat., 11 p.m.-6 a.m. (local curfews may differ).
- Permit must be held for a minimum of nine months.
- Must practice driving a minimum of 50 hours, including 10 hours at night, supervised by a parent or adult age 21 or older with a valid driver's license.
- Must not acquire any driving convictions during the nine-month permit phase.
- Number of passengers limited to one in the front seat and the number of safety belts in the back seat.
- All occupants under age 19 must wear safety belts.
- Cell phone use while driving is prohibited for drivers under age 19, except in the case of an emergency to contact a law enforcement agency, health care provider or emergency services agency.
- Permit is valid for up to two years.

Sanctions

- To obtain court supervision for a traffic violation, a driver must appear in court with a parent/legal guardian and also must attend traffic safety school. Limit one court supervision for serious driving offenses.
- A moving violation conviction results in a nine-month waiting period before applying for a driver's license.
- Not eligible for any hardship permit.
- Anyone caught driving without a permit is ineligible to obtain a driver's license until age 18.

Initial Licensing Phase — Drivers Ages 16-17

- Parent/legal guardian must certify that a minimum of 50 hours of practice driving, including 10 hours at night, has been completed.
- Parent/legal guardian must accompany teen to provide written consent to obtain a driver's license,
 OR complete and notarize an Affidavit/Consent for Minor to Drive form.
- Must have completed a state-approved driver education course.
- Nighttime driving restrictions Sun.-Thurs., 10 p.m.-6 a.m.; Fri.-Sat., 11 p.m.-6 a.m. (local curfews may differ).
- Must maintain a conviction-free driving record for six months prior to turning 18 before moving to the Full Licensing Phase. A traffic conviction during the Initial Licensing Phase may extend restrictions beyond age 18.
- All occupants under age 19 must wear safety belts.
- For the first 12 months of licensing, or until the driver turns 18, whichever occurs first, the number of passengers is limited to one person under age 20, unless the passenger(s) is a sibling, stepsibling, child or stepchild of the driver. After this period, the number of passengers is limited to one in the front seat and the number of safety belts in the back seat.
- Cell phone use while driving is prohibited for drivers under age 19, except in the case of an emergency to contact a law enforcement agency, health care provider or emergency services agency.

Sanctions

- To obtain court supervision for a traffic violation, a driver must appear in court with a parent/legal quardian and also must attend traffic safety school. Limit one court supervision for serious driving
- A moving violation conviction before age 18 generates a Secretary of State warning letter to the parent and teenager.
- A moving violation conviction that occurs within the first year of licensing will result in a six-month extension of the passenger limitation, which allows only one unrelated passenger under age 20.
- Two moving violation convictions occurring within a 24-month period results in a minimum onemonth driver's license suspension. Suspension length is determined by the seriousness of the offenses and the driver's prior driving history. An additional driver's license suspension will result for each subsequent moving violation following the initial suspension.
- Suspended drivers must attend a remedial education course, may be retested and must pay a \$70 reinstatement fee.

Full Licensing Phase — Drivers Ages 18-20

- No age-related restrictions apply except in cases where a driver fails to move from the Initial Licensing Phase to the Full Licensing Phase.
- Cell phone use while driving is prohibited for drivers under age 19, except in the case of an emergency to contact a law enforcement agency, health care provider or emergency services agency.

Sanctions

- Limit one court supervision for serious driving offenses.
- Two moving violation convictions occurring within a 24month period results in a minimum one-month driver' license suspension. Suspension length is determined by the seriousness of the offenses and the driver's prior driving history. An additional driver's license suspension will result for each subsequent moving violation following the initial suspension.
- Suspended drivers are required to pay a \$70 reinstatement fee.

Answers (from page 3)

Chapter 2 Preparing to Drive

50 Hours in the Car With My Parents?!?

A lack of behind-the-wheel experience puts teens at a greater risk of being involved or killed in a vehicle crash. The more they practice, the better they will handle different situations on the road. The instruction permit phase of a GDL requires teens to spend 50 hours of driving, including 10 hours at night, with a parent/legal guardian or a responsible adult age 21 or older with a valid driver's license.

The 50 hours of driving practice may seem like a lot, but during the nine-month permit phase, this requirement will provide ample time for teen drivers to practice driving in a variety of situations, at different locations and at varying times of the day. This experience will help them become more confident and improve their driving skills so they are prepared when it's time to get a driver's license.

Follow these tips for safe driving:

- Get to know your car.
- Always wear your safety belt and make sure all passengers are wearing safety belts.
- Drive sober (the blood-alcohol concentration (BAC) limit for persons under 21 is .00).
- · Ride with sober drivers.
- · Drive defensively.
- Avoid distractions focus on your driving.
- Obey all traffic rules, signs, signals and markings.
- Be alert and anticipate what other drivers might do.
- Be careful at all intersections think ahead.
- Don't load up your car with more passengers than allowed by law.
- Don't get stressed out.
- Don't exceed the posted speed limit or drive faster than you can handle.
- Don't let friends drive your car.
- Don't use your cell phone while driving.

50 Hours in the Car With My Teen?!?

Teaching your teen how to drive takes patience and your full attention. If either of you is tired, angry, distracted or not feeling well, it's best to postpone the driving lesson. Practice when you are both alert and ready to pay attention to each other.

Follow these tips to make driving time with your teen positive and productive:

- Set a good example when you drive. Obey all traffic laws and drive courteously. Wear your safety belt and make sure all other passengers also are wearing theirs.
- Be enthusiastic. Most teens are excited about getting their driver's license. Don't make the learning experience seem like a chore.
- Provide a safe vehicle for practice sessions.
- Take your teenager for driving practice under various seasonal conditions and practice different skills.
- Be a careful and supportive teacher. Your new driver will make mistakes along the way. Keep the learning experience manageable and positive for your teen.
- Use positive reinforcement. When your teen is doing well, let him/her know. When he/she makes a mistake, use it as a chance to teach, not punish.

- Sit so your left hand can be placed on the steering wheel to help guide the new driver if necessary.
- Give directions well in advance. First direct where, then state the action to take (e.g., "At the second intersection turn left"). Check traffic conditions on all sides yourself.
- Avoid the use of terms with possible double meaning (e.g., say "that is correct" instead of "that is right").
- For each new maneuver, guide the new driver through two or three practice trials, then allow the teen to practice without specific assistance or direction.
- Move to a safe place and park for lengthy discussions or performance reviews.
- Never place yourself or other drivers in dangerous situations. Do not attempt to practice a skill unless you and your teen are comfortable that it can be completed safely.
- Inform your teen what to do in case of an accident (i.e., call police, exchange insurance information).
- Discuss and sign the Parent-Teen Driving Contract (see page 23) with your teen.
- Take your teenager to get a driver's license only when you and your teenager feel the time is right.

Before You Turn the Key

Choose a mid-size or full-size car with an automatic transmission for your teen to practice driving. Avoid small cars, if possible. Small cars do not afford as much protection in a crash. Sports cars and muscle cars may encourage speeding. New drivers should not be overwhelmed by their vehicle. Driving mistakes in areas such as steering and braking are only magnified in a vehicle that is too large, too powerful or has large blind spots.

Before you begin a practice session:

- Check around the car. Make sure the tires have sufficient air and all lights and signals are working.
- Check the owner's manual for details on your car's controls, their locations on the dashboard and operations.
- Check the ventilation before you start driving. Adjust the heating, cooling or airflow as necessary to make you comfortable.

All drivers in Illinois must carry liability insurance, which covers personal injury and property damages of other drivers if you are involved in an accident. Safe drivers are rewarded with lower premiums and high-risk drivers pay a greater share of insurance costs. If you are convicted of a traffic offense or involved in a traffic accident involving personal injury or death, that information will go on your Illinois driving record. Insurance companies may access your driving record, which may adversely affect your insurance premiums.

Practice Commentary Driving

Commentary driving is the practice of verbally calling out each step needed to complete a maneuver. Commentary driving may be awkward at first, but it is the most valuable tool you have for checking your teen's progress. Read the traffic picture aloud. Describe anything that may affect your path of travel. For example, when approaching a red light say, "red light ahead, check mirrors, ease off accelerator, apply brake." Take this guide along and use the lists of steps under each skill as a guide.

Your teen should practice commentary driving from the passenger seat before actual driving lessons begin. Also, have your teen begin to judge traffic signals and stopping distances as a passenger. He/she should call out points where it would be safe to stop if the light were to turn yellow and at what point it would be safer to proceed through the intersection. When driving, a parent can call out steps while demonstrating a skill. Student drivers should begin commentary as they become comfortable with a skill.

Chapter 3 Learning the Skills to Drive

Following are specific driving skills teens should practice with their parents in the vehicle. What you teach your teen driver should agree with what is taught by the driving instructor. If you teach something differently than the instructor, your teenager may be confused. If your teen insists that your instructions are different from the teacher's, contact the driving instructor to be sure you are correct. Do not teach shortcuts or improper procedures.

Before you start the car, fasten your safety belt and make sure the car is in Park (P).

When you start the car, as a safety precaution, step on the brake; turn the key to Start. After the car starts, check to see that all red warning lights are off.

Skill 1: Starting and Stopping

Objective: To smoothly control the car when starting and stopping.

Where to practice: Have several sessions in a parking lot before practicing on the street.

What to practice:

When moving the car:

- Step on the brake.
- Release parking brake if on.
- . Shift to Drive (D).
- · Check mirrors and blind spots.
- Release foot brake.
- · Re-check traffic; accelerate.

When stopping the car:

- · Check mirrors before you stop.
- Brake smoothly until you stop.
- Don't take your foot off the brake until you put the transmission in Park (P) and set the parking brake.

Lesson Completed:

Date:		
e:		

TIPS

 Get used to the brakes of each car you drive in an open parking lot. Brake "sensitivity" may be different in your family car than the driver education car.

Skill 2: Turning

Objective: To make accurate left and right turns from both a stopped position and while moving.

Where to practice: Start this lesson in a quiet, open area such as a parking lot, then move into a neighborhood where you can make four turns within a few blocks. Finally, practice crossing multiple lanes of traffic, including shared left-turn lanes.

What to practice: Because left turns are easier to make than right turns (as long as there is no oncoming traffic), begin by making 10-12 left turns, then 10-12 right turns from a stopped position. Next, practice both turns while moving. On each turn:

- Decide who should yield the right-of-way (who should go first if there are other cars on the road).
- · Use signals.
- · Check mirrors and blind spots.
- · Control speed (10-15 mph).
- · Search the intersection and identify a gap in traffic.
- Use hand-over-hand steering.
- Choose a path and follow it accurately.

Lesson Completed:

Parent's Initials:	Date:
Teen's Initials:	Date:

- When driving in a city, apply the turn signal about four to five seconds before an intersection. New drivers tend to signal too early, which may confuse other drivers. Once you are sure there is a safe gap in traffic, accelerate and make your turn. Don't hesitate once you are in the middle of the intersection.
- Look ahead to where your car will be in 20 to 30 seconds. Looking "through" the turn you are going to make or the intersection you are going to cross will help you see potential problems and plan your responses.
- Where there are multiple left-turn lanes, you must turn into the lane corresponding to the same lane from which you turned.
- Don't make a habit of staring straight ahead. Good drivers frequently glance in every direction, watching for trouble.

Before you start the car, fasten your safety belt and make sure the car is in Park (P).

When you start the car, as a safety precaution, step on the brake; turn the key to Start. After the car starts, check to see that all red warning lights are off.

Skill 3: Backing Up

Objective: To move the car precisely where you want it to go – in reverse.

Where to practice: First practice off the street, in a driveway or in a parking lot. When you feel confident backing up, practice in street situations with little or no traffic.

What to practice:

- Check for traffic, pedestrians, parked cars and low stationary objects behind you.
- Turn your head to look out the rear window. Don't rely on your mirrors.
- Release pressure on the brake just enough to let the car creep backward slowly. The idling speed in a car with automatic transmission is usually enough to move the car backward without giving it gas.
- Place your right arm at the back of the passenger seat and look through the rear window. Place your left hand at the top of the steering wheel (see illustration). When you want to change directions, move your hands in the direction you want the rear of the car to go.
- Make small corrections to the steering wheel.
- Keep your foot in light contact with the brake while the car is moving backward (ride the brake).
- Glance quickly to the front and sides to check traffic then continue looking through the rear window as you brake smoothly.

Lesson Completed:

Parent's Initials:	Date:
Teen's Initials:	Date:

When backing to the right, make sure you have room on the left side. The front of your car will swing wide to the left.

When backing to the left, make sure you have room on the right side. The front of your car will swing wide to the right.

- Never back up faster than a walking pace. When you get close to an object, back up inch by inch.
- Never back up on an expressway. If you miss your exit, continue to the next exit.

Skill 4: Changing Directions

Objective: To learn where, when and how turns may be made and to make turns efficiently, even in tight spots.

Where to practice: Use a variety of driveways and roadways on which turns are legal.

What to Practice:

- Evaluate the traffic flow to decide where and when to turn.
- Apply the turn signal.
- · Check blind spots.
- Continually check traffic.
- Choose a path of travel and follow it.
- Control speed smoothly.

Practice each of these turns in different locations:

- 3-point turns (see illustration).
- Turn around by pulling into a driveway on the left side of the street.
- Turn around by pulling into a driveway on the right side of the street.
- Backing into a driveway on the right side of the street.
- U-turn in the middle of the block (where legal).

Lesson Completed:

Parent's Initials:	Date:_	
Teen's Initials	Date:	

- Because large vehicles have a larger turning radius, allow more time and space to make turns in vans and other large vehicles.
- Never make a 3-point turn near the top of a hill, on a curve, near an intersection or close to trees or fire hydrants.

Before you start the car, fasten your safety belt and make sure the car is in Park (P).

When you start the car, as a safety precaution, step on the brake; turn the key to Start. After the car starts, check to see that all red warning lights are off.

Skill 5: Parking

Objective: To park the car in a perpendicular, angle and/or parallel parking space smoothly and consistently, and to get the car out of the parking space in the same way.

Where to practice: Start by practicing away from other vehicles in large parking lots with perpendicular spaces. Then move on to angle and parallel parking. Finally, practice each type of parking next to other cars.

What to practice:

- Check for cars, pedestrians or other obstacles in your way.
- Use your turn signal and vehicle position to communicate to traffic behind you that you will be parking.
- Put the car in a good position before turning into the parking space.
- Move at a slow, consistent speed.
- Stay in line with your target destination.
- Maintain a safe distance from other parked cars.
- Straighten out your car and tires.
- Set the parking brake when parking on an incline.

Lesson Completed:

Parent's Initials:	Date:
Teen's Initials	Date:

- Before opening your door to get out, look in your mirrors and check your blind spot. Exit from the curb side whenever possible.
- Don't park in spaces reserved for persons with disabilities — a violation carries a minimum \$250 fine.

Skill 6: Establishing Right-of-Way

Objective: To determine which driver must yield the right-of-way in different situations.

Where to practice: Begin on roads with light traffic. After demonstrating the ability to "read" traffic and yield properly, practice on highways and in heavy traffic.

What to practice:

Practice yielding the right-of-way in these situations:

- When making a right turn on red (after stopping).
- At a stop sign or flashing red signal (after stopping).
- When turning left on red (after stopping) from a one-way street onto another one-way street.
- When there is more than one driver at a 4-way stop. The first driver to stop should be the first to go. If more than one car arrive at the same time, the one on the right has the right-of-way.
- When two cars come to an uncontrolled intersection (no signs/signals) at the same time. The one on the right has the right-of-way.
- When making a left turn, yield to oncoming traffic.
- When there is a MERGE sign, yield to through traffic.
- Even if you have a green light, yield if there are still vehicles in the intersection.
- When emerging from an alley, building, private road or driveway (after stopping).

Also, yield in the following special situations:

- For police or emergency vehicles with sirens or flashing lights. The law requires you to pull to the right side of the road and stop until the vehicle passes.
- When approaching a stopped school bus with its stop arm extended.
 Passing a stopped school bus with its stop arm extended carries a three-month driver's license suspension and a minimum \$150 fine.
- For authorized road construction or maintenance vehicles with flashing yellow lights.
- When a funeral procession enters an intersection, even if you have a green light.

Lesson Completed:

Parent's Initials:	Date:	
Teen's Initials:	Date:	13

- If another driver isn't following the right-of-way rules, give the driver the right-of-way to avoid an accident.
- If you are making a left turn, oncoming traffic has the right-of-way.
- When a light turns green, only proceed when the intersection is clear.
- When the same lane is used for both entering and exiting a highway, let the vehicle entering the highway go first.

Before you start the car, fasten your safety belt and make sure the car is in Park (P).

When you start the car, as a safety precaution, step on the brake; turn the key to Start. After the car starts, check to see that all red warning lights are off.

Skill 7: Changing Lanes

Objective: To safely enter and leave lanes of moving traffic.

Where to practice: Start by pulling away from and parking next to curbs. Then change lanes on residential streets, rural two- and four-lane roads, city streets, open highways with two to six lanes and limited access highways.

What to practice:

- Check mirror(s) to make sure there is enough space between you and the traffic behind you.
- Apply your turn signal. When changing lanes to the left, check your left blind spots; when changing lanes to the right, check your right blind spots. Check for blind spots out the side windows rather than out the rear window.
- Change lanes smoothly and try to maintain constant space.
- Cancel your turn signal once the lane change is complete.

Position your mirrors so you can see well when changing lanes.

- Rearview mirror: Center the view out of the rear window, including as much of the roadway behind the car as possible. The bottom of the mirror should be level with the bottom of the rear window.
- Outside mirror: Arrange the view to include a small portion of the side of the car, with the main view in the mirror extending down the side of the car to the rear.

Lesson Completed:

Parent's Initials:	Date:
Teen's Initials:	Date:

- Always change lanes one at a time. Shooting across several lanes at once is dangerous.
- Make sure space between cars ahead and behind in your intended lane is large enough before checking your blind spots.
- Keep the wheel straight while you check your blind spots. Anxious student drivers sometimes pull the wheel to the side as they turn to check their blind spots. Parents: Get ready to grab the wheel in case this happens.
- Don't change lanes unless absolutely necessary.
- The faster you are driving, the less you need to turn the wheel to change lanes.

Skill 8: Managing Intersections

Objective: To "read" traffic correctly and move confidently through intersections.

Where to practice: Begin in an area that is not congested, such as a quiet neighborhood. As you gain experience, attempt more complex roadways such as rural highways and city intersections.

What to practice: The parent can guiz the stu-

dent on the different meanings of street signs, traffic signals and pavement markings before setting out. While driving, answer the following questions out loud about each intersection as you approach it. Talk about what adjustments you should make based on your answers, and then make those adjustments.

- Am I traveling uphill or downhill?
- Is an intersection marked by signs or signals?
- Are oncoming drivers controlled by signs or signals?
- Where is my greatest danger coming from?
- Are there pedestrians?
- Are there any environmental factors?
- What lane should I be in?
- How many lanes are there?
- Are there any turn islands?
- Does the width of the road change?

Scan traffic at an intersection:

- Check the rearview mirror before and after every turn.
- Check left, then front, then right, preferably when you can see four to six seconds in each direction.
- Just before entering the intersection, check left, then front, then right again.
- New drivers tend to focus straight ahead. Emphasize scanning constantly. Look for "clues" to find hard-to-see residential intersections.
 Street signs, crossing power lines, yellow curbing, bus stops and newspaper vending machines all may indicate upcoming intersections, especially in residential areas.

Lesson Completed:

Parent's Initials: _	Date:
Teen's Initials:	Date:

- When waiting at an intersection to make a left turn, keep your wheels facing straight ahead. If your car is rear-ended, you won't be pushed into oncoming traffic.
- Watch for pedestrians.
 Most pedestrians involved in car crashes are hit as they first step into the street.

Before you start the car, fasten your safety belt and make sure the car is in Park (P).

When you start the car, as a safety precaution, step on the brake; turn the key to Start. After the car starts, check to see that all red warning lights are off.

Skill 9: Following Other Vehicles

Objective: To keep a following distance of at least four to six seconds behind the car in front of you.

Where to practice: Use residential roads, rural two- and four-lane roads, city streets and open highways with two to six lanes of traffic.

What to practice: Practice keeping a four-second following distance behind the car in front of you at speeds below 30 mph. At speeds of more than 30 mph keep at least a six-second following distance. When road and/or weather conditions are bad, increase your distance to a six- to eight-second count.

To check your following distance in front:

- Select a fixed object on the road ahead, such as a sign, tree or overpass.
- When the vehicle ahead of you passes the object, begin counting "one-thousand-one, one-thousand-two, etc."
- If you reach the object before you finish saying "one-thousand-four," you are following too closely.

Monitor the distance of the driver behind you:

- Check your rearview mirror frequently for tailgaters.
- Leaving room in front of your car allows the driver behind you to pass.
- Leaving room in front of your car allows you to brake slowly and avoid being rear-ended by the driver behind you.

Vehicle Speed	Approximate Feet Vehicle Will Travel in One Second	Four-Second Rule Distance
25 mph	37 feet	148 feet back
35 mph	52 feet	208 feet back
45 mph	66 feet	264 feet back
55 mph	81 feet	324 feet back

Lesson Completed:

Parent's Initials:	Date:_	
Teen's Initials:	Date:	

- Slow down when the driver in front of you slows down to maintain your four- to sixsecond following distance.
- Increase your following distance when following trucks, buses, motorcycles, driver education vehicles, emergency vehicles or vehicles with outof-state license plates.

Skill 10: Defensive Driving

Objective: To avoid danger by recognizing danger signs early and to communicate with other drivers.

Where to practice: Begin on simple roads with little traffic. As you perform better, increase the complexity of the roads and traffic conditions you choose.

What to practice:

Assessing other drivers to determine your strategy and distance:

- What is the type of vehicle? Does the vehicle have out-of-state license plates? The driver may not be familiar with the area.
- Is the driver young, old?
- Is his/her driving out of control? Is the driver weaving in and out of traffic, straying out of his/her lane, etc.?

7

- Is the driver obeying the rules of the road?
- Has the driver left his/her turn signal on? He/she is not paying careful attention to his/her driving.
- Is the driver tailgating or driving in others' blind spots?
- Is the driver using his/her lights and horn to communicate?
- Is the driver distracted using a cell phone, talking with other passengers, eating, etc.?

Assess the vehicles around you:

- Buses and trucks require more room to maneuver, especially when turning corners. They are slow to stop/start and have larger blind spots.
- City buses/taxis may expect the right-of-way when pulling away from a curb.
- Cars covered with dirt or snow may have trouble seeing well.

Communicate with other drivers:

- Use eye contact to tell drivers and pedestrians you see them.
- Use lane position to show which way you may move or turn.
- Use speed to communicate your plan to stop or turn. Speed also may indicate aggressiveness of another driver.
- Use turn signals five seconds before making a change of direction.
- Use headlights when using windshield wipers (during rain, snow) and during low-light conditions (fog, dusk, dawn) it's state law.
- Tap brake lights several times to warn traffic behind you to slow or stop.
- Tap (not blast) horn to alert other drivers.
- Use hand signals if your car's signal lights aren't working.
- Watch behind you. Check the rearview mirror before and after braking.

Lesson Completed:

arent's Initials:	_ Date:	
		1
anda Initiala.	Data	

- Be aware at crosswalks and around parked cars to make sure pedestrians, bicyclists and animals don't dart out in front of you.
- Check in both directions even if you are crossing a one-way street.
- Don't assume a vehicle with its turn signal on is going to turn until the driver starts executing the turn.

Before you start the car, fasten your safety belt and make sure the car is in Park (P).

When you start the car, as a safety precaution, step on the brake; turn the key to Start. After the car starts, check to see that all red warning lights are off.

Skill 11: Assessing Highway Conditions and Passing

Objective: To identify highway conditions and change speed, position or path as necessary.

Where to practice: On different highways with various traffic conditions and at various times of day.

What to practice:

- · Check traffic before entering a highway.
- When entering a highway, find a gap in traffic then accelerate to the pace of existing traffic.
- React to highway signs, signals and pavement markings.
- Leave yourself a way out (drive defensively).
- Plan your exit well in advance; get into the proper lane early.
- Use your turn signal and tap your brake to tell others you are exiting.
- Use extreme caution when passing on a two-lane highway. Do not pass on a hill or curve or in a no-passing zone. Make sure you can clearly see ahead to determine if there is oncoming traffic before passing.
- Do not speed up when being passed. Move a little to the right and be prepared to slow down if the passing driver suddenly views a problem ahead while passing.

Adjust speed for:

- Passing vehicles
- Curves
- Unpaved roads
- Animals
- Hills
- Roadside business areas

Lesson Completed:

Parent's Initials:	Date:	
Teen's Initials:	Date:	18

- Parents It is much safer to practice passing on a multi-lane highway (two lanes going the same direction) before passing on a two-lane highway.
- If there is a vehicle immediately in front of the vehicle you want to pass, DO NOT pass.
- Make sure you see the vehicle you just passed in your rearview mirror before you move back into the original lane.

Skill 12: Handling Adverse Driving Conditions

Objective: To learn how to react to difficult and unexpected situations on the road.

Where to practice: In bright sun, at night and in rain, fog and snow.

What to practice:

When visibility is reduced:

- Decrease your speed.
- Use the defroster.
- Leave more space all around your car for maneuvering.

Using your lights:

- At night, use the high-beam headlights when legal.
- In glare, use a visor or wear sunglasses.
- In fog, slow down, use only your low-beam headlights.
- In rain, slow down, use the wipers, use your headlights, and leave a space cushion between you and other drivers.

When traction is reduced:

- Increase space around your car for maneuvering.
- Increase your following distance.
- Don't brake and steer at the same time unless you have anti-lock brakes.

Avoid locking wheels:

- In rain, reduce speed.
- In snow, increase following distance.
- In ice, whenever possible, don't drive.

Lesson Completed:

Parent's Initials:	Date:	
Teen's Initials:	Date:	

- If a winter storm is coming, prepare your car with necessary safety items.
 Don't drive unless absolutely necessary!
- If you drift off the road and onto the shoulder, don't slam on the brakes or jerk the steering wheel suddenly. Instead, let up on the gas, stay off the brake, and gradually guide the wheels back on the road.

Has the GDL program been effective in Illinois?

Traffic crashes are the leading cause of death among young people ages 15-20. In 2007, drivers ages 15-20 accounted for 13 percent of all drivers involved in fatal crashes, yet this group accounts for just 6.4 percent of the driving population. Recent studies estimate that GDL programs can reduce teen crash fatalities from 12 to 38 percent, depending on the provisions of the program. Teen driving fatalities in Illinois dropped by more than 40 percent in the first full year of its new GDL law.

Does Illinois' GDL Program raise the minimum age at which an individual may obtain a driver's license?

No. Age 16 remains the age at which a person who has successfully completed a driver education program may apply for a driver's license. The graduated system establishes additional requirements during the instruction permit phase, with the goal of producing better-skilled 16-year-old drivers.

Why do GDL laws limit the number of passengers in a car driven by a teen?

Passenger restrictions reduce the likelihood of a young, inexperienced driver being distracted by a car full of teens. According to the National Highway Traffic Safety Administration, for teenage drivers, the presence of one passenger almost doubles the fatal crash risk compared with driving alone. With two or more passengers, the fatal crash risk is five times as high as driving alone. The new law extends the passenger limitation time to 12 months, or until the license holder turns 18, whichever occurs first.

What happens if a new driver is caught violating the passenger limitation rule?

If a driver is in violation of the passenger limitation rule, the driver, as well as all passengers in the vehicle, may be ticketed.

Won't the earlier driving restriction times on nights and weekends prevent me from getting a job or going to after-school activities?

Exemptions in the law allow new drivers to drive to and from employment or school-sanctioned activities outside the restriction times.

Frequently Asked Questions

Will I lose my driver's license if I am convicted of violating the nighttime driving restrictions?

Your driver's license will be suspended if you are convicted of violating the new nighttime driving restrictions.

If my teenager is driving, who can be ticketed if passengers are not wearing safety belts?

If the driver is under age 18, he/she may be ticketed for any passenger under age 19 who is not wearing a safety belt. In addition, any front-seat passenger age 16 or 17 who is not wearing a safety belt may be ticketed. It is at the discretion of the law enforcement officer whether to cite back-seat passengers age 16 or 17 who are not wearing safety belts.

If I get a traffic ticket while I have my graduated driver license will I lose my license?

During the initial and full licensing phases prior to age 21, a moving violation conviction occurring before age 18 generates a warning letter to the parent/legal and teenager. A moving violation conviction occurring within the first year of licensing will result in a six-month extension of the passenger limitation. Two moving violation convictions occurring within a 24-month period results in a minimum one-month driver's license suspension. Any person under age 21 who receives court supervision for possession, consumption, purchase or receipt of alcohol will receive a three-month driver's license suspension. A conviction for possession, consumption, purchase or receipt of alcohol will result in a one-year driver's license suspension.

What happens if I get a traffic ticket during the permit phase or initial licensing phase of the GDL program?

During the permit phase, a moving violation conviction results in a nine-month waiting period before applying for a driver's license. If the con-

viction is received by the Secretary of State's office after the driver has moved to the initial licensing phase, the driver will be remanded back to the permit phase. A letter will be sent to the driver and the parent/guardian indicating the change in driving status.

Drivers in the initial licensing phase (usually drivers ages 16 and 17), must remain conviction free for the final six months before moving to the next phase. If a new driver receives a conviction during this six-month period, he/she will not be able to move to the next phase of the program until he/she is conviction-free for a full six months or until age 21, whichever occurs first.

My driving privileges have been suspended or revoked and I am under age 18. Am I eligible for a driving permit?

A driver under age 18 who has a suspended or revoked driver's license in Illinois may be eligible for a Restricted Driving Permit, depending on the circumstances of the suspension or revocation. For more information, call the Secretary of State Administrative Hearings Department at 217-782-7065.

What happens if a new driver is caught street racing?

Any driver, regardless of age, convicted of street racing results in a minimum 12-month driver's license revocation.

What are the proper procedures to withdraw/reinstate my consent to drive for my child who is under age 18.

To withdraw consent to drive for a driver under age 18, the parent/guardian who signed the application giving the driver permission to obtain a driver's license must send a notarized letter to the Secretary of State indicating that they wish to withdraw consent for the minor to hold an Illinois driver's license.

To reinstate a minor's driving privileges after consent to drive has been withdrawn, the parent/guardian who withdrew consent must send a notarized letter to the Secretary of State indicating that they wish to have the child's driving privileges reinstated in the State of Illinois. The minor driver must visit a Secretary of State Driver Services facility and retake the vision, written and driving exams, and pay the appropriate fee in order to be reissued an Illinois driver's license.

How do I know if my teen is ready for a license?

When your teenager drives well enough to pass the driving test for a license, ask yourself the questions below. You may have overlooked some practice or knowledge your youngster needs:

- ☐ Have we discussed alcohol, drugs and driving?☐ Data mutas a linear with a datificial for the datification.
- Does my teen know what to do if he/she is riding with a friend who has been drinking?
- ☐ Have we practiced in heavy city traffic?
- ☐ Have we practiced on one-way streets and at intersections with 3-way signals?
- ☐ Have we practiced using a left-turn center lane?
- Have we practiced on small country roads, on gravel roads with potholes and on hills?
- lacksquare Have we practiced in bad weather?
- ☐ Have we practiced at night?
- ☐ Have we practiced entering, exiting and driving on a freeway?
- ☐ Have we discussed what to do if an emergency occurs?
- □ Have we discussed what to do if an accident occurs?
- □ Do you feel that your teen can do all the above in a car by himself/herself?
- □ Does my teenager know I can cancel his/her license at any time, for any reason?

Chapter 5 **Applying for a Driver's License**

Completion of Driver Education Training

When you have completed the behind-the-wheel portion of driver education and your training was administered by your local high school, the Illinois State Board of Education will notify the Office of Secretary of State that you have completed training. The Secretary of State will indicate this notification of completion on your driver's license record if you have received a passing grade in at least eight courses during the previous two semesters.

Any student under age 18 who drops out of high school cannot have the notation indicating completion placed on his/her driver's license record unless 1) the instructor has written verification of enrollment in a GED or alternative program, 2) the student has a GED, 3) the student, prior to dropping out, received passing grades in at least eight courses in the previous two semesters, or 4) the student has written consent from his/her parent/legal guardian and the regional superintendent. The local superintendent or chief school administrator may waive conditions deemed in the best interest of the student or dropout.

Successful completion of driver education may be verified by accessing the Illinois State Board of Education's Web site at www.isbe.state.il.us/students.

Applying for Your Driver's License

To apply for your driver's license before reaching age 18, you must:

- Bring your instruction permit and acceptable forms of identification (see page 24) to a Driver Services
 facility at the time of application. Notification of your completion date must have been received from
 the Board of Education or the Secretary of State and appear on your driver's license record.
- Present written certification from your parent/legal guardian or, if there is no parent/legal guardian that
 you have a minimum of 50 hours of behind-the-wheel practice time, including 10 hours at night, and are
 sufficiently prepared and able to safely operate a motor vehicle. An Affidavit/Consent to Drive form (see
 page 27) will be mailed after you are issued an instruction permit.

An applicant applying for a driver's license or ID card for the first time in Illinois must present one document from each of Group A, B, C and D on page 24.

Cooperative Driver Testing Program

High school students who successfully complete an accredited driver education course of classroom and behind-the-wheel instruction with a grade of A or B may not be required to take a duplicate road test at the time they apply for a driver's license. The course must include a minimum of 30 hours of classroom training and six hours of behind-the-wheel training. Each student also must pass a road test that meets minimum standards established by the Secretary of State's office, either during the driver education course or at the time of application for the driver's license. The program is voluntary, but school districts are encouraged to participate by contacting the Secretary of State's office.

First-time Illinois Driver's License/ID Card Applicant
An applicant applying for a driver's license or ID card for the first time in
the state of Illinois must present one document from each of Group A, B,

Temporary Visitor Driver's License applicants are not required to present documents from Group C. Instead, they shall submit a letter on Social Security Administration letterhead, issued within 90 days prior to the date of application, verifying ineligibility for a Social Security number.

provide acceptable identification to create a link pertaining to the change between the previous information and the new information. Duplicate/Corrected Driver's License/ID Card Applicant
An applicant applying for either a duplicate or corrected driver's license
or ID card must present one form of identification from Group A and at least one form from either Group B, C or D. An applicant who requests a change in name, date of birth, Social Security number or gender must

Temporary Visitor Driver's License applicants are not required to present documents from Group C. Instead, they shall submit a letter on Social Security Administration letterhead, issued within 90 days prior to the date of application, verifying ineligibility for a Social Security number.

Illinois Driver's License/ID Card Renewal Applicant

does not have a current driver's license or ID card, he/she must present one form of identification from Group A and at least one form from either An applicant renewing a current Illinois driver's license or ID card need only present a current valid driver's license or ID card. If the applicant Group B, C or D. Temporary Visitor Driver's License renewal applicants must submit all ID documentation required for a first-time Temporary Visitor Driver's License applicant.

ACCEPTABLE IDENTIFICATION DOCUMENTS

JESSE WHITE • ILLINOIS SECRETARY OF STATE

PARENT-TEEN DRIVING CONTRACT

As a condition of obtaining my driver's license, and as witnessed by my parent(s) or legal guardian(s), I hereby agree to the following rules. Failure to abide by any of these rules may result in the loss of my driving privileges for a period of time to be determined by my parent(s) or legal guardian(s):

- I will obey all traffic laws and drive with caution and patience, observing the rules of the road as I have been taught. These laws include but are not limited to speeding and improper passing of a school bus.
- I will safely move over to the side of the road when encountering an oncoming emergency vehicle.
- . I will always wear my safety belt while driving, as required by law. I also will make sure my passengers wear their safety belts.
- · For the first 12 months I have my license, I understand that the law allows me to have only one passenger in my vehicle under age 20 unless the additional passenger is a sibling, stepsibling, child or stepchild of mine.
- Unless my parents say otherwise, my parents and I are the only people allowed to drive my vehicle. There are absolutely no exceptions to this rule.
- . I will never drive while under the influence of alcohol or drugs, and I will never accept a ride from anyone who is under the influence of alcohol or drugs.
- I will not make or receive cell phone calls or text messages while driving.
- · I will observe the nighttime driving restrictions of 11 p.m. to 6 a.m., Friday and Saturday, and 10 p.m. to 6 a.m., Sunday through Thursday. I am responsible for calculating the time it will take me to drive home and plan my evening accordingly.
- . I will not be a distracted driver. I will not play music at an excessive level, change dials on the radio or CD player, or eat food and drink beverages while I am driving my vehicle.
- · I will always be a courteous driver. I will not become impatient or angry and will not fall victim to road rage.
- · I will not throw anything out of my vehicle, as this is both illegal and dangerous to other drivers.
- · I will take every possible step to make sure my vehicle is in good operating condition. These steps include but are not limited to checking the tires, brakes, mirrors and headlights before operating the vehicle. It also includes ensuring that the front and rear license plates are properly displayed and that the vehicle registration renewal sticker is properly adhered to the rear license plate.
- · If stopped by a law enforcement officer I will conduct myself in a respectful manner. I will present to the officer my driver's license and insurance card. I will keep my hands on the steering wheel and remain in the vehicle unless otherwise directed by
- If I am stopped by law enforcement or issued a traffic ticket I will notify my parent(s) or quardian(s) immediately.

If I violate any of the rules in this contract, I understand and accept that my parent(s) have the authority to take away the car
keys for a period of time to be determined by them. (For example: One week for the first rule violation, two weeks for the second
rule violation, etc). I understand that my parent(s) have the legal authority to take away my driving privileges up until the time I
turn age 18 by contacting the Secretary of State's office.

Driver Signature	Date
Parent/Legal Guardian Signature	Parent/Legal Guardian Signature

Important Note: This contract is not a requirement for a teen to obtain a driver's license. It is not an official document of the Office of the Secretary of State and it is not a legal document accepted or used by the office. Rather, the contract is a recommendation from the 2006-2007 Illinois Teen Driver Safety Task Force as a way to encourage safe and responsible driving. It is an issue solely between the parent(s) and teen driver.

OFFICE OF THE SECRETARY OF STATE

JESSE WHITE • Secretary of State

Dear Parent/Guardian:

As your Secretary of State, I want to take every reasonable step possible to make our roads safer and to save more lives. Unfortunately, too many young, novice drivers are killed or injured in motor vehicle crashes. Such crashes are the leading cause of death for people age 15 to 20. The law requiring 50 hours of practice driving, 10 of which must be done at night, will help give young people more experience behind the wheel, in a variety of situations, helping them to become better drivers.

Please note that the 50 hours are in addition to any time spent behind-the-wheel with a driving instructor. All 50 hours must be spent with someone age 21 or older who has been licensed for a minimum of one year.

The following chart may be used to record the 50 hours behind-the-wheel practice time, including 10 hours of nighttime driving, that your teenager must complete before obtaining a drivers license. This chart is designed solely for your convenience as a means to ensure your teen has completed the required 50 hours of practice driving.

Sincerely,

JESSE WHITE Secretary of State
