Anthony R. Figueroa, Superintendent

Dec. 7, 2021

In the development of our ESSER III plan, Wolfe City ISD engaged in meaningful consultation with stakeholders. As a district, we met with multiple committees that included stakeholder groups as outlined by ESSER III guidelines and school board policies. A district-based Committee conducted a 6-month review on 12-6-2021 at 4pm. During these committees the academic needs of students were discussed and the social, emotional and mental health of students were considered. No reallocation of funds was recommended by the committee. The committee stated that a new "Return Safe to School" plan was needed over the Summer of 2022. The committee also discussed how ESSER II funds were being used, including the new HVAC systems throughout the elementary and middle school campuses. Additionally, the district is committed to address these needs through the district's general fund as needed.

Sincerely,
