Federal and/or State Funded Special Instructional Programs

The district will participate in special programs funded by the state or federal government for which a local need can be defined and for which a local program would be developed if the funds available and the process of obtaining them is efficient and allows for local decisions. The decision to apply is an operational decision.

According to federal law, school districts receiving Title 1 funds to provide educational services to students should do so per Title 1. Title 1 funds will be used efficiently and effectively to benefit students' academic opportunities and progress in school-wide or Targeted Assistance Programs. They will be used to provide educational services in addition to the regular services provided for district students.

The superintendent or designee will adopt procedures to ensure that the planning, implementation, and evaluation phases of a special program comply with the funding agency's rules and regulations.
