

Building a Solid Foundation

LAMAR HEAD START SEPTEMBER 2022

Otero College
Child Development Services
Lamar Head Start
607 Savage Ave.
Lamar, CO 81052
719.336.1203

We are so excited to get to know the little personalities of the children that attend our Head Start preschool. These are amazing children and we want to thank you for sharing them with us! All of the children have been learning about being a good friend, using walking feet, how to make a line and so much more.

On Tuesday, September 13, will have our first Family Night/Open House. This will give parents time to visit their child's classroom and the playground area. We will also be talking about safe transportation.

At our Family Night, parents will be electing 2 Policy Council Representatives. Make sure you attend and make your voice heard at the local and regional level.

I encourage you to volunteer to be a policy council representative. We need you!

Our program is a free, quality preschool program. We strive to give children and families the tools they need to be successful in school and beyond.

Cecilia Dowell
Center Manager

Early Education Matters

An early education makes a profound difference in children's lives. You may have already seen evidence of this with just the 2 short weeks your child has been in school. We are invested in changing children and family's lives. We aim to see the children and families that we work for forever changed for the better. Our children need adults who help set them on their way to success. We need more people to go into the early education field to ensure that we have this important education source for many years to come. Our staff is highly educated and continues to receive professional development, individual coaching, continuing education, and staff wellness. Our classrooms are caring, safe environments, our programs are ideal for employees who want to care for young children year after year, decade after decade. You can be a part of our program too! We are currently hiring a teacher and substitutes for our program. Teachers need to have an ECE degree or be enrolled in an approved ECE program. You can download an application from cdeheadstart.com. In early learning, children and educators grow together.

To ensure that we keep all children safe, please wait until you are at the front of the line to unload your child from your vehicle. Please hold your child's hand at all times to ensure their safety.

In Head Start We Play
and We Learn
