*RTI Edge can help  
manage all RTI data  
with one system.*

# Respond

## About RTI Edge

RTI Edge Web-based Complete Response to Intervention & Academic Management System was developed by Broome-Tioga BOCES, with more than 30-plus years experience in Special Education Management Systems. Our systems have been used to track AIS since the initiative's adoption by the NYS Department of Education.

The software is developed using the the cost-effective sharing of services model, allowing your Regional Information Center to offer the

RTI Edge software to districts with no licensing fees.

RTI Edge makes the tasks of identifying, planning, tracking, and reporting Intervention Services faster and easier. The system is a complete RTI tracking and management program that allows districts to track all student universal screenings, goals, progress monitoring, interventions, meetings, parent notification, generate letters/student plans, and run reports.

## Your District Can:

**Identify** - With the ability to review universal screening data for all students, RTI Edge makes it easy to identify at risk students before they fail. Academic assessment scores can be imported saving time and reducing data entry duplication.

**Plan** - Work collaboratively online to develop more effective plans to better serve the student's individual needs. Progress Monitor student performance to predict student success.

**Track** - Intervention history can be viewed per student, over the year or many years. In addition, track student attendance per AIS/RTI intervention, discipline data and progress monitoring data to get a complete picture of the student's individual needs and progress.

**Report** - Quickly produce graphs, progress reporting, state reporting, and custom reporting to make decisions based on data. Create custom letters/plans starting with letter templates or create from scratch.

# Identify

## All Inclusive Solutions

### Response to Intervention (RTI)

RTI Edge's Response to Intervention solution allows districts to track all universal screenings, diagnostic assessments, state test results, student interventions based on specific skill focuses, set individualized goals based on student needs, progress monitor, generate letters/student plans, and easily run reports to make better informed decisions based on student performance. RTI Edge also includes extensive reporting and graphing, such as Universal Screening Longitudinal, RTI Tier Transitions, Student RTI Referrals, RTI Risk Level Status and much more...

### Academic Intervention Services (AIS)

With RTI Edge's integrated solution, districts can easily manage Academic Intervention instruction beyond the general curriculum to identify students at risk of not achieving New York State Learning Standards. Designed to improve academic performance, they may include academic, attendance, behavior, guidance, counseling, and study skills.

### Data Warehouse - NCLB Funding

RTI Edge's data warehouse solution meets all of New York State's reporting requirements. With our networking relationship with SED, we ensure our products meet the latest requirements so that districts can rest assured they are submitting the most accurate data.

### Data Team Meetings

With RTI Edge, manage CST, IST, or RTI data team meetings more efficiently with the meeting scheduler, auto e-mail notification, and meeting minutes tracking. Easily access all student data, including attendance, discipline, test data, response to intervention services, and student progress while at a team meeting. Make decisions based on student data.

### Document Storage

RTI Edge offers a complete document storage solution, at no additional cost, with the ability to finalize student AIS/RTI plans as a PDF. There is also the ability to upload additional PDF attachments for each student.

## Our Mission:

To empower school districts with quality, compliant software solutions to manage student special needs in an easy-to-use, yet robust data system with exceptional support. We strive to provide a system that is flexible, user-friendly, cost effective, and responsive to the needs of the individual districts.

With RTI Edge's complete and integrated solution, your district can:

- Benchmark ALL students three times a year.
- Review benchmark results easily with one click.
- Easily identify struggling learners.
- Graph student and class performance.
- Predict student success.
- Track interventions based on unique student needs.
- Progress monitor goal performance.
- Generate RTI forms/letters/plans quickly.
- Track RTI data team meetings and e-mail agendas.
- Make data-based decisions.
- Reduce special education referrals.
