Students please listen carefully for reminders regarding appropriate and proper use of your school issued Chromebook. As a reminder the Chromebook is to be used for school related use only. It is not meant to be a music device, social media tool, or gaming device. In addition a reminder that you have no expectation of privacy when using the device both at school and home. We have the right to monitor, supervise, access, view, and record any and all use of your device. Administration gets notifications if/when you use your Chromebook for any reason that is in violation of this policy. In addition we can view or review each email that you send on your Chromebook. You will often receive an email reminder from Mr. Merchant or Mrs. Allee if we notice you are using email for non-school related conversation. Some of you have already been placed in the "penalty box" for inappropriate searches and use of your Chromebook. If you are placed in the penalty box your use of the Chromebook will be limited to only apps that are critical for school related activities. Please make sure you are making good choices with technology and ask your teachers or someone in the office if you have any questions.
