

# The New ILearn State Assessment Math Grades 3-4-5

The purpose of this workshop is to help understand and prepare for the new ILearn state math assessment scheduled for April-May of 2019.

The Department of Education (DOE) has provided helpful resources for students, parents, and teachers to achieve this goal.

## Objectives:

- Learn about the connections among content standards, process standards, depth of knowledge levels {DOK} and problem solving strategies
- Learn how to evaluate the {DOK} level for math problems and/or activities.
- Learn how to use new resources provided by the DOE linked to the new ILEARN state math assessment for 2018-19
- Learn how to use other classroom-ready math resources aligned to the new ILEARN state math assessment for school year 2018-19
- Create a new math curriculum map (calendar) based upon the 2014 Indiana Academic Standards with a particular focus on "Super Standards"

## Co-Presenters:

Jessica Poe, Principal, Hope Elementary School, Flat Rock-Hawcreek SC and Mark Fahey, Principal, Wapahani High School, Liberty-Perry CSC.

Both Presenters received extensive ILearn training and both are directly involved in testing administration in their districts.

Date: Tuesday,  
November 6, 2018

Times: 8:30am Registration  
9am-3pm Workshop
