

# INCREASED TRANSPARANCY WITH NEW VALLEY HEIGHTS USD 498 SCHOOL MENUS

August 2018

With the start of school in August 2018, parents and students from Valley Heights USD 498 School District will be pleasantly surprised with their new online school menus. The nutrition program, managed by Opaa! Food Management, will launch an interactive menu tool that provides greater insight and information about their menus. Opaa! has partnered with [Nutrislice](#), whose web site and free smartphone app are powering the updated Valley Heights USD 498 School menus.

The website, <http://valleyheights.nutrislice.com/>, will let parents and students view pictures, descriptions, nutritional information, special diets filters, and get carb counts for each day's menu! You can also access menus via the free mobile app available on the [iTunes App Store](#) for iPhone users or on [Google Play](#) for Android-powered smartphones.

My staff and I are looking forward to serving the students and staff of the Valley Heights District!  
Patty Moeller
