The Newman-Crows Landing Unified School District (NCLUD) Citizen's Oversight Committee represents the community and has the responsibility of ensuring that the allocation of funds provided by the passage of Measure "R" are expended as outlined in the Measure.

The \$25,000,000 bond was issued to upgrade and renovate existing classrooms, health and safety improvements and construct a new elementary school. The elementary school was completed and opened in August, 2011. Hurd Barrington Elementary is now home to approximately 475 students and 40 staff members. In 2013-2014, with decreased assessed valuations, the committee took steps to determine upgrades to the following locations: Orestimba High School, Bonita Elementary, Hunt Elementary and Von Renner Elementary. This is to give the students and parents of Newman and Crows Landing leading educational facilities for the future. The committee has proposed a "priority list" based on the availability of funds and the needs of the school facilities.

The roof at Hunt Elementary School's Multi-purpose room was replaced in summer 2012. In summer, 2013, Bonita Elementary installed new carpet throughout the main classroom building. In 2014-2015, the Hunt Restrooms in the Multi-purpose building were modernized, the entire Von Renner Elementary School was painted, and the phone system at Bonita was replaced. In addition, the modernization of the Bonita cafeteria/multi-use building was begun and will be completed in early September, 2015.
