

Syllabus

This class is set up to assist students to attain credits that have been lost or students are unable to obtain due to scheduling conflicts. Each student will be assigned work on an individual bases depending on what they need in order to be successful.

The OdysseyWare internet based program is used for a majority of the classes although occasionally a class will be assigned out of a textbook.

Expectations:

-Students are “self paced” but will be expected to stay on target for completing their credits before the end of the 9-weeks. They will stay current on all work assigned. If they are not current, zeros will be averaged into their current grade for eligibility and Encore purposes. If you have your student sign on Odyssey these grades are shown on the dash board as well of number of assignments assigned, number of assignments completed, and number of late or incomplete assignments. You can check on their progress with me directly; however these grades will not be included on progress reports or report cards. Your child will be given an updated transcript with grades received after grades have posted.

-Our goal for your student will be to make 8 or more credits per 9-weeks

-Students are able to work on-line outside of class but must complete tests in class.

-If students are not recovering credits and this program is deemed not beneficial they will placed in mainstream classes at the high school at the next 9-weeks.

Please review the Classroom Tips for additional expectations.

Thank you for allowing us to work with your student this school year. You are able to reach me daily during my planning period from 12:30 -1:30 at 405.598.6550 or by email: kuhnk@tecumseh.k12.ok.us.

Mrs. Kuhn – The Learning Curve Lead Teacher & Counselor
