

School Committee Policy:

#518

Annual Survey and Exit Interviews

The Maynard School Committee strives to assess the quality of the Maynard Public Schools and to improve academic programs and student services on a continuous basis. An annual survey of families of students will be conducted. The survey will address the academic program, student services, student activities, support services, and school climate. It will also allow for additional comments on these and other topics. A major emphasis will be placed on questions for families of students who are either transitioning from one school building to another or who are graduating. A report of the survey will be made available to the public.

In addition, to determine why students may be choosing other educational choices than the Maynard Public Schools, an "exit interview/exit survey" will be made available to families of students who are leaving the Maynard Public Schools. Opportunity will be offered for a phone interview or personal interview with a staff member or administrator, if desired.

Date Approved: 2/26/2015
